Puppy & Dog Potty Training Caryl Wolff,2017-08-31 In this information-packed but lighthearted book (with lots of delightful pictures), puppy and dog training expert Caryl Wolff gives you an honest account of potty training. She says, I chuckle when I read about programs that say 'Potty train your puppy in one week, ' or 'We guarantee that your puppy will be potty trained in five days, ' or something along those lines. What a huge selling point for them. You're either so frustrated because nothing else is working or you've been seduced by the title - so you purchase their book. Then somewhere in the text, there will be some sort of disclaimer saying that 'What we really mean is that we will tell you how to train your puppy. Since each puppy is different, and it may take yours a bit longer.' Huh? You bought the book because of the title and/or the supposed guarantee, and now the author is backtracking on the promise that was made. I adopted my two current dogs when they were about a year old, and it took two weeks to potty train them so they reliably pottied where I wanted - and I knew what I was doing. Not only did I have a plan (which you are going to get when you get this book), I followed it and made it a priority because, quite simply, I don't like to clean up pee and poop! The result? They've been with me four years now and have not pottied in the house - ever. If I can do it, so can you. This program works for puppies, newly adopted rescue dogs, or even adult dogs that have lived in your house for years. This method worked for an 11-year-old cocker spaniel whose pet parents *finally* had had enough! Here's what you get: *The Basic Program in 6 Easy Steps *Why What You Intend and How Your Dog Interprets It May Be Different *An Explanation of Why What You're Doing Isn't Working *Your Dog's Signals When He Has to Go *Solutions to Problems You May Run Into During Training *How to Properly Clean Up Accidents *The Right Way to Deal with Accidents (Don't expect perfection at the beginning!) *Potty Training Tips *and much MUCH MORE! Caryl Wolff knows what she is talking about. She has been training over 20 years and was the first dog trainer certified by five trainer organizations, has written 9 books, and has trained thousands of puppies and dogs. How to Train a Puppy. A Complete Guide to Training a Puppy with Potty Train in 7 Days-Master Dog Training Antony Golden,2021

Dog Potty Training Steve Macollins,2022-03-09 For starters, you CAN'T expect your puppy to be fully housetrained and fully dependable before he's six month old. With that being said, a dog can be housetrained between one to six weeks. A great deal is determined by your puppy's size and breed and for the most part the efforts you put into housetraining him. There's also the reality that your puppy won't have sufficient bladder and bowel controls before he's 16 weeks of age. Quite simply, he's unable to “hold it” for extensive periods so you have to be extra vigilant in that period. But that doesn't indicate that you can't start housetraining her as soon as he put paws inside your home. It simply means that you need to expect your pup to have a handful of accidents. But don't fret; this eBook features everything you'll need to deal with these little mishaps, from the best way to react to tips on how to clean up. Some people think housebreaking is as simple as just keeping the dog on a regular eating, drinking and potty-outing routine where he is taken out every few hours. Or they believe the dog will be fully housetrained within a week or two. For a lot of precocious puppies this might be so; nonetheless, many young dogs taken through such an easygoing, shortened potty protocol continue to be only partly housetrained, or they have potty mishaps for months. These little cuties understand that pottying outdoors is good, but they don't realize that inside is off limits. The truth is, they may even come inside the house soon after an extensive playtime or exercise and relieve themselves on the costly rug. This is because toilet training isn't just about teaching where to go. It's also about making it clear that other areas are unacceptable, until pottying only in the right spot turns into a habit.
