FGCN brings together researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of communication and networking, including their links to computational sciences, mathematics and information technology. In total, 1,630 papers were submitted to FGIT 2010 from 30 countries, which includes 228 papers submitted to the FGCN 2010 Regular Sessions. The submitted papers went through a rigorous reviewing process: 395 of the 1,630 papers were accepted for FGIT 2010, while 45 papers were accepted the FGCN 2010 Regular Sessions. Of the 45 papers, 8 were selected for the special FGIT 2010 volume published by Springer in LNCS series. 29 papers are published in this volume, and 8 papers were withdrawn due to technical reasons. We would like to acknowledge the great effort of the FGCN 2010 International Advisory Board and members of the International Program Committee, as well as all the organizations and individuals who supported the idea of publishing this volume of proceedings, including SERSC and Springer. Also, the success of the conference would not have been possible without the huge support from our Sponsors and the work of the Chairs and Organizing Committee.

The Power of Slow Christine Louise Hohlbaum, 2009-10-27 Overwhelmed by electronic gadgets? Buried under an avalanche of e-mails? Juggling too many tasks and responsibilities? Desperately in need of a deep breath and a time-out? For all of us who answer yes to any of these questions, help is on the way. Getting to the heart of our hassled and over-scheduled existence, Christine Louise Hohlbaum cheerfully investigates 101 ways to increase our quality of life and productivity by reevaluating how we perceive and use time. Everyone has their own personal bank account of time, and while we cannot control time itself, we can manage the activities with which we fill the time we have available to us. The Power of Slow gives readers practical, concise directions to change the relationship they have with time and debunks the myths of multitasking, speed, and urgency as the only ways to efficiency. Tips include: · When working on a project on your computer, close all the windows, with the exception of the one you need to do your job. · Learn to say no in a polite and constructive way to favors, invitations, and requests. · Manage your own expectations, as well as those of others, by clearly stating what is possible in the time frame given. · Declare gadget-free zones (both geographical and temporal) to really enjoy your leisure time. · Know when your plate is full. · Make commitments to difficult tasks in five-minute increments and gradually increase the increments. · Save your most favorite or the easiest tasks for last to avoid procrastination. The Power of Slow will help readers identify areas in need of improvement and show them how to become more efficient and less frazzled at work and at home---and live a better, more balanced life.

A+, Network+, Security+ Exams in a Nutshell Pawan K. Bhardwaj, 2007-03-27 If you're preparing for the new CompTIA 2006 certification in A+, or the current Network+ and Security+ certifications, you'll find this book invaluable. It provides all the information you need to get ready for these exams, including the four new A+ exams -- the required Essentials exam and three elective exams that pertain to your area of specialization. As with other O'Reilly Nutshell books for certification exams, A+, Network+ and Security+ in a Nutshell follows a proven style and approach.

It reviews all of the topics needed to master each exam in a remarkably concise format, with required knowledge boiled down to the core. Instead of plowing through 500 to 700 pages to prepare for each exam, this book covers each one in approximately 150 pages. And because the objectives for the three elective A+ exams are redundant, and the book covers them in one section. The exams covered include: A+ Essentials: Required for A+ 2006 certification EXAM 220-602: For the A+ IT Technician specialization EXAM 220-603: For the A+ Remote Support Technician specialization EXAM 220-604: For the A+ IT Depot specialization EXAM N10-003: For Network+ Certification EXAM SYO-101: For Security+ Certification Each exam is covered in three parts: Exam Overview, Study Guide and Prep and Practice. Plenty of detailed tables and screen shots are included, along with study notes and practice questions. Once you have completed the exams successfully, you will find this all-in-one book to be a valuable reference to core administration and security skills.
