**Addiction by Design** Natasha Dow Schüll,2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. Addiction by Design takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible—even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems—all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. Addiction by Design is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

**Sh\*t Towns of Australia** Rick Furphy, Geoff Rissole, 2019-11-19 From dusty desert sh\*tholes to free-range bogan breeding grounds, to the bin-chicken playgrounds of our megacities, *Sh\*t Towns of Australia* is a guide to the concrete, fibro and methamphetamine wastelands that we like to call home. From Coober Pedy to Canberra, from Ballarat to Broken Hill, from Logan to Launceston, *Sh\*t Towns* takes us through the veritable f\*ck-tonne of crappy towns and cities that make up the 'Lucky Country' - profiling all the best places not to visit or, heaven forbid, live. The sixty towns and cities reviewed in this volume have been carefully selected using an exacting set of scientific criteria developed at the prestigious University of Nimbin, combined with extensive field research, a desire to offend, and where possible a sense of humour.

**The Importance of Being Earnest** Oscar Wilde, 2019-06-05 *The Importance of Being Earnest* is the final play of Oscar Wilde, and it is considered his masterpiece. The play is a farcical comedy with the theme of switched identities: the play's two protagonists engage in bunburying (the maintenance of alternative personas in the town and country) which allows them to escape Victorian social mores. Working within the social conventions of late Victorian London, the play's major motives are the triviality with which it treats institutions as serious as marriage, and the resulting satire of Victorian ways.

**Interactive Gambling** Nerilee Hing, Sally Gainsbury, Alex Blaszczynski, Robert Wood, Dan Lubman, Alex Russell, 2014 This report investigates how Australians are using interactive gambling services and the impact of such online gambling on non-online gambling and gambling related problems. Interactive gambling is a joint term capturing gaming and wagering on the Internet. A research study was conducted over three years and included a nationally representative telephone survey of 15,006 people, an online survey of 4,594 gamblers, interviews with 81 interactive gamblers, and data from gambling help services. This study provides a baseline of who, what, when, why and how people gamble, using interactive technology in Australia.

**Teaching 'Proper' Drinking?** Maggie Brady, 2017-12-12 In *Teaching 'Proper' Drinking?*, the author brings together three fields of scholarship: socio-historical studies of alcohol, Australian Indigenous policy history and social enterprise studies. The case studies in the book offer the first detailed surveys of efforts to teach responsible drinking practices to Aboriginal people by installing canteens in remote communities, and of the purchase of public hotels by Indigenous groups in attempts both to control sales of alcohol and to create social enterprises by redistributing profits for the community good. Ethnographies of the hotels are examined through the analytical lens of the Swedish 'Gothenburg' system of municipal hotel ownership. The research reveals that the community governance of such social enterprises is not purely a matter of good administration or compliance with the relevant liquor legislation. Their administration is imbued with the additional challenges posed by political contestation, both within and beyond the communities concerned. 'The idea that community or government ownership and management of a hotel or other drinking place would be a good way to control drinking and limit harm has been commonplace in many Anglophone and Nordic countries, but has been less recognised in Australia. Maggie Brady's book brings together the hidden history of such ideas and initiatives in Australia ... In an original and wide-ranging set of case studies, Brady shows that success in reducing harm has varied between communities, largely depending on whether motivations to raise revenue or to reduce harm are in control.' — Professor Robin Room, Director, Centre for Alcohol Policy Research, La Trobe University

**Losing Streak** James Boyce, 2017-03-14 A jaw-dropping account of how one company came to own every poker machine in Tasmania - and the cost to democracy, the public purse and problem

gamblers and their families. The story begins with the toppling of a premier, and ends with David Walsh, the man behind MONA, taking an eccentric stand against pokie machines and the political status quo. It is a story of broken politics and back-room deals. It shows how giving one company the licence to all the poker machines in the most disadvantaged state in the country has led to several hundred million dollars of profits (mainly from problem gamblers) being diverted from public use, through a series of questionable and poorly understood deals. Losing Streak is a meticulous, compelling case study in governance failure, which has implications for pokies reform throughout Australia.

**Born to Lose** Bill Lee, 2011-02-03 A gripping, true story of one man's forty-year struggle with compulsive gambling and his hard-won recovery. My history of gambling really began before I was born. So opens *Born to Lose*, Bill Lee's self-told story of gambling addiction, set in San Francisco's Chinatown and steeped in a culture where it is not unheard of for gamblers (Lee's grandfather included) to lose their children to a bet. From wagering away his beloved baseball card collection as a youngster to forfeiting everything he owned at black jack tables in Las Vegas, Lee describes what gambling addiction feels like from the inside and how recovery is possible through the Twelve Step program.
