Violence in Pacific Islander Traditional Religions

Garry Trompf, 2022-01-27 An Element on the role of violence in the traditional religions of the Pacific Islands (Melanesia, Micronesia and Polynesia) and on violent activity in islander religious life after the opening of Oceania to the modern world. This work covers such issues as tribal warfare, sorcery and witchcraft, traditional punishment and gender imbalance. and moves on to consider reprisals against foreign intruders in the Pacific and the continuation of old types of violence in spite of massive socio-religious change.

Melanesian Religion G. W. Trompf,2004-08-19 This study surveys systematically the full scope of Melanesian religion, from traditional beliefs and practices to the development of strong indigenous Christian churches and theology. Garry Trompf writes from extensive knowledge of the social and religious aspects and from his own experience living and working in Papua New Guinea. *Melanesian Religion* provides an invaluable guide and analysis to pressing issues of religious and social change in the Pacific. It provides a useful overview for readers with general interests in the South Pacific region, and in the formulation of indigenous responses to external institutions, beliefs and value systems. The Melanesian peoples of the south-west Pacific form about one-quarter of the world's cultures - cultures in which a deep sense of spiritual consciousness has engendered rich diversity of religious experience. Professor Trompf argues that, to be complete, any interpretation of the social and economic patterns of Melanesian life, past and present, must take proper account of this religious context.

Times Enmeshed Gabriele Stürzenhofecker,1998 This book traces the formation of historical consciousness among the Duna people of Papua New Guinea and explores how this is constituted differently for men and women.

Summoning the Powers Beyond Jay Dobbin,Francis X. Hezel,2011-09-30 *Summoning the Powers Beyond* collects and reconstructs the old religions of preindustrial Micronesia. It draws mostly from written sources from the turn of the nineteenth century and the period immediately after World War II: reports of the Hamburg South Sea Expedition of 1908-1910, articles by German Roman Catholic missionaries in Micronesia included in the journal

Anthropos, and reports by the Coordinated Investigation of Micronesian Anthropology (CIMA) and the American Board of Commissioners of the Foreign Missions (ABCFM). A detailed introduction and an overview of Micronesian religion are followed by separate chapters detailing religion in the Chuukic-speaking islands, Pohnpei, Kosrae, the Marshall Islands, Yap, Palau, Kiribati, and Nauru. The Chamorro-speaking group of the Marianas is omitted because lengthy periods of intense military and missionary activity eradicated most of the local religion. The Polynesian outliers Nukuoro and Kapingamarangi are discussed at the end primarily to underscore the contrasts between Polynesian and Micronesian religion. In a concluding chapter, the author highlights the similarities and differences between the areas within Micronesia and then attempts an appreciation or evaluation of Micronesia religion. Finally, he addresses the evidence of a tentative hypothesis that Micronesian religion is sufficiently different from that of Polynesia and Melanesia to justify the continued claim of a separate Micronesian religion.

Violence Pamela Stewart, Andrew Strathern, 2002-01-01
This book provides a wide ranging introduction to the meaning and context of violence. The authors build upon David Riches's concept of the triangle of violence which examines the relationship between performers, victims and witnesses and his proposition that violence is marked by contests regarding its legitimacy as a social act. Adopting an approach which looks at the negotiated and contingent nature of violent behavior, Stewart and Strathern particularly stress the powerful underlying motivation for revenge and the often unacknowledged association between ideas of revenge and concepts of justice. These theoretical perspectives are applied to in-depth case studies from Rwanda-Urundi, Sri Lanka and Northern

Ireland. The authors also draw on extensive field experience in Papua New Guinea, and ethnographic detail is used to address broader issues of considerable global importance.>

Warfare and Society Ton Otto, Henrik Thrane, Helle Vandkilde, 2006-11-01 This book straddles the disciplines of archaeology and social anthropology. Its 25 contributions (divided into 6 sections with separate introductions) successively scrutinise the concept of war in philosophy, social theory and the history of anthropological and archaeological research; discuss warfare in pre-state and state societies; and assess its relationship to rituals, social identification and material culture.

Traditional Religion in Melanesia Theo Aerts, 1998 There are various modern methods of an audience-centered reading of the Scriptures. One of them is an anthropology-inspired approach which assumes that people from these parts of the world come to the Bible with quite a different set of presuppositions, grounded in their own age-old traditions. This kind of approach goes purposely away from the well-established kind of reading which is based upon past Jewish history, ancient near-Eastern customs and archaeology, Semitic philology and so on. But without denying the value of these essentially sound segments of learning, is it really necessary that Melanesians should first plunge into Western academia in order to hear God's word? Or is it no longer true that Greeks must not first become Jews before they can become Christians? The articles gathered in *Traditional Religion in Melanesia*, and its companion volume *Christianity in Melanesia* contribute to the goal just described. They make clear that religion as such was not something that was completely new for the pagans of the past, and that as a rule, too, they were rather selective in accepting the

Christian message. This accounts for some misunderstandings, but also for some very positive ways of accepting Christianity.

The Archaeology of Islands Paul

Rainbird, 2007-07-09 Archaeologists have traditionally considered islands as distinct physical and social entities. In this book, Paul Rainbird discusses the historical construction of this characterization and questions the basis for such an understanding of island archaeology. Through a series of case studies of prehistoric archaeology in the Mediterranean, Pacific, Baltic, and Atlantic seas and oceans, he argues for a decentering of the land in favor of an emphasis on the archaeology of the sea and, ultimately, a new perspective on the making of maritime communities. The archaeology of islands is thus unshackled from approaches that highlight boundedness and isolation, and replaced with a new set of principles - that boundaries are fuzzy, islanders are distinctive in their expectation of contacts with people from over the seas, and that island life can tell us much about maritime communities. Debating islands, thus, brings to the fore issues of identity and community and a concern with Western construction of other peoples.

The Island of Menstruating Men Ian

Hogbin, 1996-02-27 Ian Hogbin belongs to anthropologists' heroic age. He was a member of the brilliant between-the-wars generation that included Raymond Firth, Reo Fortune, Margaret Mead, Gregory Bateson, and Hortense Powdermaker, all of whom pioneered modern field research in the insular South Pacific. *The Island of Menstruating Men* was a path-breaking exploration of gender in Wogeo when first published. Today it remains an important full-length study of a Melanesian religion, examining it in relation to other facets of

culturemythology, beliefs about illness and death, growth and maturity, magic, social structure, and morality. It is an articulate, insightful examination of the meaning of tradition and of the integration of culture. It is also a captivating account of ethnocentrism and the Wogeos justification for it, exemplifying, in miniature, what appears to be one of the great problems of the human species.

Ritualized Homosexuality in Melanesia Gilbert H. Herdt, 2023-04-28 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality, and it marks the first time that anthropologists have systematically studied cross-cultural variations in homosexual behavior in a non-Western culture area. The book as a whole indicates that contemporary theories of sex and gender development need revision in light of the Melanesian findings.

Introducing World Christianity Charles E. Farhadian, 2012-02-20 This interdisciplinary introduction offers students a truly global overview of the worldwide spread and impact of Christianity. It is enriched throughout by detailed historic and ethnographic material, showing how broad themes within Christianity have been adopted and adapted by Christian denominations within each major region of the world. The First Taint of Civilization Francis X.

Hezel,1994-06-01 “Hezel writes clearly and with erudition and commands an impressive body of information. His book is a tour de force.... Not only will it be read eagerly by Pacific scholars, but it should find a wide audience among well-educated Micronesians hungry for greater understanding of how their islands have become ensnared in world geopolitics.” —Ethnohistory

The Rahui Tamatoa Bambridge,2016-03-22 This collection deals with an ancient institution in Eastern Polynesia called the rahui, a form of restricting access to resources and/or territories. While tapu had been extensively discussed in the scientific literature on Oceanian anthropology, the rahui is quite absent from secondary modern literature. This situation is all the more problematic because individual actors, societies, and states in the Pacific are readapting such concepts to their current needs, such as environment regulation or cultural legitimacy. This book assembles a comprehensive collection of current works on the rahui from a legal pluralism perspective. This study as a whole underlines the new assertion of identity that has flowed from the cultural dimension of the rahui. Today, rahui have become a means for indigenous communities to be fully recognised on a political level. Some indigenous communities choose to restore the rahui in order to preserve political control of their territory or, in some cases, to get it back. For the state, better control of the rahui represents a way of asserting its legitimacy and its sovereignty, in the face of this reassertion by indigenous communities.
