The Routledge Companion to Rural Planning Mark Scott,Nick Gallent,Menelaos Gkartzios,2019-01-28 The Routledge Companion to Rural Planning provides a critical account and state of the art review of rural planning in the early years of the twenty-first century. Looking across different international experiences – from Europe, North America and Australasia to the transition and emerging economies, including BRIC and former communist states – it aims to develop new conceptual propositions and theoretical insights, supported by detailed case studies and reviews of available data. The Companion gives coverage to emerging topics in the field and seeks to position rural planning in the broader context of global challenges: climate change, the loss of biodiversity, food and energy security, and low carbon futures. It also looks at old, established questions in new ways: at social and spatial justice, place shaping, economic development, and environmental and landscape management. Planning in the twenty-first century must grapple not only with the challenges presented by cities and urban concentration, but also grasp the opportunities – and understand the risks – arising from rural change and restructuring. Rural areas are diverse and dynamic. This Companion attempts to capture and analyse at least some of this diversity, fostering a dialogue on likely and possible rural futures between a global community of rural planning researchers. Primarily intended for scholars and graduate students across a range of disciplines, such as planning, rural geography, rural sociology, agricultural studies, development studies, environmental studies and countryside management, this book will prove to be an invaluable and up-to-date resource.

We Thank Thee, Lord, for This Fair Earth ,2019-09 This beautiful anthem from Brenda Portman expresses thanksgiving for all the glories of God's creation. The easy, hymn-like music is scored for two-part mixed voices and is supported by a rich, full accompaniment.

Introduction to Rural Planning Nick Gallent,Iqbal Hamiduddin,Meri Juntti,Sue Kidd,Dave Shaw,2015-06-30 Introduction to Rural Planning: Economies, Communities and Landscapes provides a critical analysis of the key challenges facing rural places and the ways that public policy and community action shape rural spaces. The second edition provides an examination of the composite nature of 'rural planning', which combines land-use and spatial planning elements with community action, countryside management and the projects and programmes of national and supra-national agencies and organisations. It also offers a broad analysis of entrepreneurial social action as a shaper of rural outcomes, with particular coverage of the localism agenda and Neighbourhood Planning in England. With a focus on accessibility and rural transport provision, this book examines the governance arrangements needed to deliver integrated solutions spanning urban and rural places. Through an examination of the ecosystem approach to environmental planning, it links the procurement of ecosystem services to the global challenges of habitat degradation and loss, climate change and resource scarcity and management. A valuable resource for students of planning, rural development and rural geography, Introduction to Rural Planning aims to make sense of current rural challenges and planning approaches, evaluating the currency of the 'rural' label in the context of global urbanisation, arguing that rural spaces are relational spaces characterised by critical production and consumption tensions.
