Typography 32 Type Directors Club, 2012-01-17 For the past fifty-seven years, the Type Directors Club (TDC) has encouraged the graphic arts community to achieve excellence in typography through its annual competitions. Typography 32 is the latest Annual devoted exclusively to typography and presents the finest work in this field from 2010. Selected from more than 1,500 international submissions to TDC57, the 208 winning designs are models of excellence and innovation in contemporary type design. This year's selection encompasses a wide range of categories, including books, magazines, corporate identity, logotypes, stationery, annual reports, video and Web graphics, and posters. Each winning entry is displayed in full color and is accompanied by complete information about the designer, client, typography, and more. This year's volume also features the results of the club's fourteenth annual type design competition, TDC2 2011 and TDC Intro 011, the movie titles competition, and includes a special index listing the principal typefaces used in the winning designs and the names of their designers. The Judges' Choice sections feature the winning entries that have been singled out as each judge's favorite; these pieces are accompanied not only by the judges' comments but also by statements from the designers about the creative process involved in developing their work. These components—along with chairperson statements by Roberto de Vicq de Cumptich (TDC57), James Montalbano (TDC2 2011), and Jakob Trollbäck (TDC Intro 011)—exemplify the enormous vitality of the ever-changing typography profession today. A special section contains the seventh TDC catalog, reproduced in its entirety; it was published in 1962 and records winning designs completed over 1961. From 1955 to 1978, the competition catalog was produced as a relatively modest booklet. In 1979, after twenty-five years, the TDC Annual became a book. That explains why this Annual is called Typography 32, while this year's competition is called TDC57.

**The Solotype Catalog of 4,147 Display Typefaces** Dan X. Solo, 2014-05-05 The author of many books on typography, Dan X. Solo was also the proprietor of his own typography shop in Oakland, California – an establishment dedicated to unusual typography and special effects. This comprehensive catalog offers graphic designers a dazzling selection of over 4,000 typefaces and optical effects available from Solotype Typographers. Here, in Solo's words, is a great cast of characters – the alphabet – abetted by a cornucopia of typographical ideas and an endless resource of letters, words, phrases, slogans, logos, humorous comments, headlines, and graphic symbols. Individual sections of the book display a rich variety of typefaces in categories such as Condensed, Victorian, Art Nouveau, Art Deco, Rustic, Thick-and-tin, Calligraphic, Uncials, Latins, and Blackletter. Samples are imaginatively presented. Stagecoach, for example, is printed in Fargo typeface, evoking dusty trails, rawhide, and ten-gallon hats, while Sizzling summer savings appears appropriately in the flamboyant Firebug typeface. All typefaces are indexed for quick and easy reference. As entertaining as it is practical and useful, this impressive treasury of versatile typefaces and optical effects will be indispensable to busy commercial artists as an inexhaustible source of typographic ideas and a swipe file of words, phrases, and letters for use in graphic art projects.

**Practical Font Design** David Bergsland, 2011-02 Practical Font Design has built a niche for itself among graphic and Web designers who want to build their own fonts: especially with the first book. I learned a lot since I wrote that first book. This radically revised, updated, and expanded third edition combines the first two books. They are rearranged so they make a lot more sense and some brand new material is added. This is a quick introduction showing a workflow to build new fonts using FontLab 5. Fourteen fonts are developed in this book including an 8-font text family and a companion 4-font sans serif for headers. The techniques are simple and easy to understand. The results are completely under your control.

**Elegant Display Alphabets** Dan X. Solo, 1992-01-01 Type fonts selected to add formal elegance, precision and grace to graphic projects that require a more reserved and thoughtful approach. Most of the fonts include both upper- and lowercase alphabets, numbers, punctuation marks and typographical ornaments.

**Circus Alphabets** Dan X. Solo, Solotype Typographers, 1989-11-01 Attractive sourcebook of royalty-free, immediately usable typefaces recalls old-fashioned print styles found on posters and broadsides. Includes eerie Monster Outline, Raindrops, and Wilcox Initials; the glamorous Diamond Inlay, Startime, Golden Era, and much more. Varied sizes; mostly tall, fat and bold shapes.

**Emotional Digital** Alexander Branczyk, 2001-01-01 The rise and rise of new media has resulted in an explosion of new creativity in the field of typography and graphics. 'Emotional Digital' is a wide-ranging, international selection of today's most beautiful typefaces introduced by the designers and publishers themselves. From the cult status designers of Emigre, San Francisco to LettError, The Hague Thirsttype, Chicago Typeware in Barcelona, the comic alphabets of Rian Hughes to the character-filled typeface of Alessio Leonardi, this book offers stimuli for typeface design and layout. A wide range of fonts devised by international cutting-edge graphic design companies are stylishly presented in full-colour spreads. Each profile includes information on where and when the company originates, awards and characteristics of their work.

**Special Effects and Topical Alphabets** Dan X. Solo, 2012-05-07 The alphabet is the message. With these special effects and topical alphabets, you can advertise or identify a product or service in lettering that reinforces your message. For example: letters shaped like chopsticks; letters made up of logs; letters made up of bones; letters frozen in ice; letters with stars and stripes. These are just a few of the alphabets you can use from the 100 fonts selected by Dan X. Solo from the Solotype Typographers Catalog. All the fonts appear in upper case,

while many also have lower case and/or numerals. Whether your message is about the Fourth of July, cool refreshment, outdoor life, modern technology, summer, spring, winter, or a hundred other moods and occasions, you'll find in this collection an alphabet that tells the story. The typographic designs may be sophisticated or naïve, but all are eminently useful and difficult to find in usual sources.

**Adrian Frutiger – Typefaces** Heidrun Osterer, Philipp Stamm, Swiss Foundation Type and Typography, 2009-01-01 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. For the first time, all of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture.

**Victorian Display Alphabets** Dan X. Solo, 1976-01-01 Artists, crafters, and designers will rejoice in 100 unusual and authentic Victorian type fonts. Plain and decorative alphabets include Calliope, Buffalo Bill, Shaded Barnum, Fargo, Jackpot, and Burlesque. Styles range from bold Bohemia and Broadside to delicate Aeolian Open and Arboret. Many include lowercase letters and numbers, plus Victorian printer's ornaments.
