*Cecil Brown* Reed W. Smith, 2017-11-28 The son of Jewish immigrants, war correspondent Cecil Brown (1907-1987) was a member of CBS' esteemed Murrow Boys. Expelled from Italy and Singapore for reporting the facts, he witnessed the Nazi invasion of Yugoslavia and the war in North Africa, and survived the sinking of the British battleship HMS Repulse by a Japanese submarine. Back in the U.S., he became an influential commentator during the years when Americans sought a dispassionate voice to make sense of complex developments. He was one of the first journalists to champion civil rights, to condemn Senator McCarthy's tactics (and President Eisenhower's reticence), and to support Israel's creation. Although he won every major broadcast journalism award, his accomplishments have been largely overlooked by historians. This first biography of Brown chronicles his career in journalism and traces his contributions to the profession.

Bearing Right William Saletan, 2004-10-20 Saletan's *Bearing Right* is as subtle and intelligent a study of abortion politics as has ever been written. You may not agree with the conclusions, but no one concerned about this issue can afford to miss this brilliant analysis.—Charles Krauthammer, syndicated columnist and winner of the Pulitzer Prize for distinguished commentary Saletan destroys the myth that there's nothing new to say about America's abortion debate. His argument that the pro-choice movement has preserved abortion rights by co-opting conservative rhetoric will make activists

on both sides of the debate uncomfortable, which is an achievement in and of itself. There's no smarter political commentator in Washington today.—Peter Beinart, editor, *The New Republic*

Will Saletan is one of America's shrewdest political writers. He brings clarity and intelligence to the roiling abortion debate, in a challenging and illuminating work of contemporary history. If you care about the issue of abortion, you must read this book.—Rich Lowry, editor, *National Review*

A unique assessment of recent abortion politics. Saletan uncovers political and institutional strategies with lucidity and verve. This book makes a raft of challenging arguments--a must-read, especially now.—Rickie Solinger, author of *Beggars and Choosers: How the Politics of Choice Shapes Adoption, Abortion, and Welfare in the U.S.*

Will Saletan is a great political journalist with a strong moral sense. He also has an unusually shrewd understanding of what happens when ethics and values meet elections and the legislative process. So partisans on every side of the abortion debate--Saletan shows convincingly there are more than two--will be challenged by his book, at times upset, and always enlightened. Based on exceptional reporting and fiercely independent analysis, *Bearing Right* is eloquent, important, and surprising. --E.J. Dionne, Jr., syndicated columnist and author of *Why Americans Hate Politics*

A unique assessment of recent abortion politics. Saletan uncovers political and institutional strategies with lucidity and verve. This book makes a raft of challenging arguments—a must-read, especially now.—Rickie Solinger, author

of Beggars and Choosers: How the Politics of Choice Shapes Adoption, Abortion, and Welfare in the U.S.

**Global Risk Management** Louise K. Comfort, Mary Lee Rhodes, 2022-08-31 The rise and spread of Covid-19 in the beginning of 2020 presents a once-in-a-century challenge and opportunity for decision makers, managers, scholars, and citizens to understand the risks, mitigate its impact and prepare for future crises. Drawing on a global network of scholars, this book presents a comparative analysis of ten nations' response to a global pandemic, while operating nominally under the framework of the World Health Organization. The book introduces the concept of 'collective cognition' as an analytic lens for examining the nations' response to Covid-19 during the first six months of the emerging pandemic (January – June 2020) and draws out insights for improving systems of global risk management. This book addresses four primary audiences: policy-makers and leaders in nations struggling to contain viruses while guiding their societies under threat; academic researchers, students, and educators engaged in preparing the next generation of professionals committed to investigating emerging risk: managers of non-profit and private organizations that operate and maintain the networks of social, technical, and economic services that are essential to functioning communities; and the informed general public interested in understanding this extraordinary sequence of events and in managing the novel risk of COVID-19 in a more informed, responsible way.

**Television Series and Specials Scripts,**  
**1946-1992** ,2009-07-08 In the early days of television, many of its actors, writers, producers and directors came from radio. This crossover endowed the American Radio Archives with a treasure trove of television documents. The collected scripts span more than 40 years of American television history, from live broadcasts of the 1940s to the late 1980s. They also cover the entire spectrum of television entertainment programming, including comedies, soap operas, dramas, westerns, and crime series. The archives cover nearly 1,200 programs represented by more than 6,000 individual scripts. Includes an index of personal names, program and episode titles and production companies, as well as a glossary of industry terms.

*Strangers in the Land of Paradise* Lillian Serece Williams,2000-07-22 Now in paperback! *Strangers in the Land of Paradise* The Creation of an African American Community, Buffalo, NY, 1900-1940 Lillian Serece Williams Examines the settlement of African Americans in Buffalo during the Great Migration. A splendid contribution to the fields of African-American and American urban, social and family history. . . . expanding the tradition that is now well underway of refuting the pathological emphasis of the prevailing ghetto studies of the 1960s and '70s. —Joe W. Trotter *Strangers in the Land of Paradise* discusses the creation of an African American community as a distinct cultural entity. It describes values and institutions that Black migrants from the South brought with them, as well as those that evolved as a result of their

interaction with Blacks native to the city and the city itself. Through an examination of work, family, community organizations, and political actions, Lillian Williams explores the process by which the migrants adapted to their new environment. The lives of African Americans in Buffalo from 1900 to 1940 reveal much about race, class, and gender in the development of urban communities. Black migrant workers transformed the landscape by their mere presence, but for the most part they could not rise beyond the lowest entry-level positions. For African American women, the occupational structure was even more restricted; eventually, however, both men and women increased their earning power, and that—over time—improved life for both them and their loved ones. Lillian Serece Williams is Associate Professor of History in the Women's Studies Department and Director of the Institute for Research on Women at Albany, the State University of New York. She is editor of *Records of the National Association of Colored Women's Clubs, 1895–1992*, associate editor of *Black Women in United States History*, and author of *A Bridge to the Future: The History of Diversity in Girl Scouting*. 352 pages, 14 b&w illus., 15 maps, notes, bibl., index, 6 1/8 x 9 1/4

**The Life and Times of Ward Kimball** Todd James Pierce, 2019-01-15 Besides Walt Disney, no one seemed more key to the development of animation at the Disney Studios than Ward Kimball (1914-2002). Kimball was Disney's friend and confidant. In this

engaging, cradle-to-grave biography, award-winning author Todd James Pierce explores the life of Ward Kimball, a lead Disney animator who worked on characters such as Mickey Mouse, Donald Duck, Jiminy Cricket, the Cheshire Cat, and the Mad Hatter. Through unpublished excerpts from Kimball's personal writing, material from unpublished interviews, and new information based on interviews conducted by the author, Pierce defines the life of perhaps the most influential animator of the twentieth century. As well as contributing to classics such as Snow White and the Seven Dwarfs and Pinocchio, from the late 1940s to the early 1970s, Kimball established a highly graphic, idiosyncratic approach to animation alongside the studio's more recognizable storybook realism. In effect, Ward Kimball became the only animator to run his own in-studio production team largely outside of Walt Disney's direction. Through Kimball, the studio developed a series of nonfiction animation programs in the 1950s that members of Congress pointed to as paving the way for NASA. The studio also allowed Kimball's work to abandon some ties to conventional animation, looking instead to high art and graphic design as a means of creating new animated forms, which resulted in films that received multiple Academy Award nominations and two awards.

Made Up Martha Laham, 2020-10-15 Made Up exposes the multibillion-dollar beauty industry that promotes unrealistic beauty standards through a market basket of advertising tricks, techniques, and technologies. Cosmetics magnate Charles

Revson, a founder of Revlon, was quoted as saying, In the factory, we make cosmetics. In the store, we sell hope. This pioneering entrepreneur, who built an empire on the foundation of nail polish, captured the unvarnished truth about the beauty business in a single metaphor: hope in a jar. Made Up: How the Beauty Industry Manipulates Consumers, Preys on Women's Insecurities, and Promotes Unattainable Beauty Standards is a thorough examination of innovative, and often controversial, advertising practices used by beauty companies to persuade consumers, mainly women, to buy discretionary goods like cosmetics and scents. These approaches are clearly working: the average American woman will spend around \$300,000 on facial products alone during her lifetime. This revealing book traces the evolution of the global beauty industry, discovers what makes beauty consumers tick, explores the persistence and pervasiveness of the feminine beauty ideal, and investigates the myth-making power of beauty advertising. It also examines stereotypical portrayals of women in beauty ads, looks at celebrity beauty endorsements, and dissects the "looks industry." Made Up uncovers the reality behind an Elysian world of fantasy and romance created by beauty brands that won't tell women the truth about beauty.

The Burglary Betty Medsger, 2014-10-07 In late 1970, a mild-mannered Haverford College physics professor privately asked a few people this question: "What do you think of burglarizing an FBI office?" In remarkable detail and with astonishing depth of research, Betty Medsger

reveals the never-before-told full story of the history-changing break-in at the Media, Pennsylvania, FBI offices. Through their exploits, a group of unlikely activists exposed the shocking truth that J. Edgar Hoover was operating a shadow Bureau engaged in illegal surveillance and harassment of the American people. The Burglary brings the activists, who have kept their secret for forty-three years, into the public eye for the first time—including, new to this edition, the recent discovery of the eighth and final member of the team. The burglars' story of personal sacrifice and civil disobedience is a vital episode in the American whistle-blower tradition that includes the Pentagon Papers, Watergate's Deep Throat, and, most recently, Edward Snowden and the NSA.

**Dreams, Hopes, Realities** Lane E. Wallace, 1999

Unprepared Jon Sternfeld, 2020-09-22 An essential volume. -E. J. Dionne, Jr. \* A damning portrait - Publishers Weekly With an introduction by Pulitzer Prize-winner Timothy Egan, the riveting, eye-opening first-draft history of the Covid-19 pandemic. Unprepared is the sweeping history of the Covid-19 pandemic—a raw, primary-source accounting of the epoch-defining event: a virus that first appeared in China in late 2019 and spread rapidly across the globe, killing hundreds of thousands, devastating economies, and changing the modern world forever. A day-by-day chronicle of the response to Covid-19 as it attacked, Unprepared gathers a range of public statements from President Trump and his administration, elected officials such as New York Governor Andrew

Cuomo to Atlanta Mayor Keisha Lance Bottoms, leading journalists and scientists, and organizations from National Nurses United to the United Food and Commercial Workers union. A haunting portrait of the world scrambling for answers while the number of cases rose alongside the death toll, the book reveals not only our strengths as a people, but also the fault lines and dysfunction that plague our nation in the new millennium. Unprepared is an illuminating artifact for today and for future generations, an astonishing document of history being made, and a multifaceted narrative that drops the reader directly into the real-time experience of confusion, drama, and fear that defines the outbreak of Covid-19.

Portrait of America Jerrold Hirsch, 2004-07-21  
How well do we know our country? Whom do we include when we use the word American? These are not just contemporary issues but recurring questions Americans have asked themselves throughout their history--and questions that were addressed when, in 1935, the Roosevelt administration created the Federal Writers' Project (FWP) under the aegis of the Works Progress Administration. Although the immediate context of the FWP was work relief, national FWP officials developed programs that spoke to much larger and longer-standing debates over the nature of American identity and culture and the very definition of who was an American. Hirsch reviews the founding of the FWP and the significance of its American Guide series, considering the choices made by administrators who wanted to celebrate

diversity as a positive aspect of American cultural identity. In his exploration of the FWP's other writings, Hirsch discusses the project's pioneering use of oral history in interviews with ordinary southerners, ex-slaves, ethnic minorities, and industrial workers. He also examines congressional critics of the FWP vision; the occasional opposition of local Federal Writers, especially in the South; and how the FWP's vision changed in response to the challenge of World War II. In the course of this study, Hirsch raises thought-provoking questions about the relationships between diversity and unity, government and culture, and, ultimately, culture and democracy.

**Japan's International Relations** Glenn D. Hook, Julie Gilson, Christopher W. Hughes, Hugo Dobson, 2011-09-01 The latest edition of this comprehensive and user-friendly textbook provides a single volume resource for all those studying Japan's international relations. It offers a clear and concise introduction to the most important aspects of Japan's role in the globalized economy of the twenty-first century. The book has been fully updated and revised to include comprehensive discussions of contemporary key issues for Japan's IR, including: the rise of China; reaction to the global economic and financial crisis since 2008; Japan's proactive role after 9/11 and the war on terror; responses to events on the Korean Peninsula; relations with the USA and the Obama administration; relations with Russia, Central Asia and the Middle East; changing responses to an expanding and deepening European Union.

Extensively illustrated, the text includes statistics, maps, photographs, summaries and suggestions for further reading, making it essential reading for those studying Japanese politics and the international relations of the Asia Pacific. A note on the cover: The cover illustration entitled 'Double Standard' is a Japanese manga penned by satirical artist Ichihanahana in November 2010 regarding rising Japanese nationalism, Japan-China tensions over the disputed territory of the Senkaku islands and the US presence in Okinawa. This manga demonstrates many of the key themes in Japan's ties with China and the US, but also a number of other central features of Japan's international relations as explored throughout this text.

**The Book of Beasts** Andrew Screen, 2023-10-05  
Nigel Kneale is perhaps best known for his pioneering work in television fantasy, notably the creation of Quatermass, and his landmark adaptation of George Orwell's 1984 for the BBC. This book is the first in-depth study of another, arguably lesser known but equally as important, Kneale creation: the 1976 Folk Horror anthology television series, Beasts. Each of the six episodes of Beasts was a standalone supernatural drama exploring themes and ideas prevalent throughout Kneale's work, all within the confines of a lowly British television budget. From pilot episode Murrain to cult favourite Baby, Beasts charted an uncanny British landscape, where the ghost of a dolphin haunts an aquarium and a supermarket is plagued by a mysterious animalistic presence. In researching and writing this book,

author Andrew Screen was given rare access to Kneale's original scripts and production paperwork and provides an exclusive account of Kneale's trials and tribulations in developing the series. There are also interviews with members of cast and crew, a discussion of episode treatments that were prepared but never realised – and the reasons why Kneale abandoned these at an early stage.

Moreover, each storyline is contextualised with real life developments and events, exploring the mythological and cultural inspirations that place the series within its immediate historical framework. Written with full permission from the Kneale estate, *THE BOOK OF BEASTS* is a comprehensive overview of a cult television series and its enduring impact on viewers today. With a foreword by Johnny Mains.

**President Barack Obama** John K. Wilson, 2019-11-11  
Barack Obama's improbable quest has become a fact of American life and a benchmark in American history. Striving now toward a more perfect union, Obama and the nation confront obstacles unforeseen at the outset of the 2008 electoral campaign. John K. Wilson tracks the sweep of this progress from the beginning of Obama's political career through his move into the White House. With his critical journalistic eye and his sympathetic native son perspective, Wilson shows us a side of Obama we haven't seen as well as a view of the media we need to understand—even more now as the Obama administration begins to govern. The paperback edition of this popular book includes a new introduction, updates throughout, and two new

chapters on the electoral victory and the transition from campaigning into governing. New photos and new insights include a focus on the continued importance of race in American politics.

**The American Exception, Volume 2** Frank J. Lechner, 2017-01-09 This book examines what makes the United States an exceptional society, what impact it has had abroad, and why these issues have mattered to Americans. With historical and comparative evidence, Frank J. Lechner describes the distinctive path of American institutions and tracks changes in the country's national identity in order to assess claims about America's 'exceptional' qualities. The book analyzes several focal points of exceptionalist thinking about America, including the importance of US Constitution and the American sense of mission, and explores several aspects of America's distinctive global impact; for example, in economics and film. In addition to discussing the distinctive global impact of the US, this first volume delves into the economy, government, media, and the military and foreign policy.

**The Science-Media Interface** Irene Broer, Steffen Lemke, Athanasios Mazarakis, Isabella Peters, Christian Zinke-Wehlmann, 2023-10-23 The publication and distribution of scientific results is of major importance for the functioning of an information society and the tackling of the complex challenges the world faces today. It is not only scholars who rely on scientific publications to advance research but also the general public which demands scientific knowledge for its forthcoming. Major suppliers of scientific

knowledge are the researchers themselves, science communicators and science journalists - each of which choose their very own approaches to selection, presentation and communication of science, often depending on the target group. Although different in their goals and approaches, digital media in particular has led to great overlaps which result in interwoven relationships equally affecting both external and internal forms of science communication. This edited book describes, quantifies and critically discusses the interplay between publisher- and journalism-driven science communication and its effect on the scholarly communication system, especially on the measures of impact evaluation. It is of major interest to researchers from science of science, bibliometrics, science communication, and journalism studies.

Union Pacific Maury Klein, 2011-02-01 Praised by the Chicago Tribune as thoroughly and compellingly detailed history, Volumes I and II of Maury Klein's monumental history of the Union Pacific Railroad covered the years from 1863-1969. Now the third and final volume brings the story of the Union Pacific--the oldest, largest, and most successful railroad of modern times--fully up to date. The book follows the trajectory of an icon of the industrial age trying to negotiate its way in a post-railway world, plagued by setbacks such as labor disputes, aging infrastructure, government de-regulation, ill-fated mergers, and more. By 1969 the same company that a century earlier had triumphantly driven the golden spike into Promontory Summit--to immortalize the

nation's first transcontinental railway--seemed a dinosaur destined for financial ruin. But as Klein shows, the Union Pacific not only survived but is once more thriving, which proves that railways remain critical to commerce and industry in America, even as passenger train travel has all but disappeared. Drawing on interviews with Union Pacific personnel past and present, Klein takes readers inside the great railroad--into its boardrooms and along its tracks--to show how the company adapted to the rapidly changing world of modern transportation. The book also offers fascinating portraits of the men who have run the railroad. The challenges they faced, and the strategies they developed to meet them, give readers a rare glimpse into the inner workings of one of America's great companies. A capstone on a remarkable achievement, *Union Pacific: The Reconfiguration* will appeal to historians, business scholars, and transportation buffs alike.

**Cold War Modernists** Greg Barnhisel, 2015-02-24

European intellectuals of the 1950s dismissed American culture as nothing more than cowboy movies and the A-bomb. In response, American

cultural diplomats tried to show that the United States had something to offer beyond military might and commercial exploitation. Through literary magazines, traveling art exhibits, touring musical shows, radio programs, book translations, and conferences, they deployed the revolutionary aesthetics of modernism to prove—particularly to the leftists whose Cold War loyalties they hoped to secure—that American art and literature were aesthetically rich and culturally significant. Yet by repurposing modernism, American diplomats and cultural authorities turned the avant-garde into the establishment. They remade the once revolutionary movement into a content-free collection of artistic techniques and styles suitable for middlebrow consumption. Cold War Modernists documents how the CIA, the State Department, and private cultural diplomats transformed modernist art and literature into pro-Western propaganda during the first decade of the Cold War. Drawing on interviews, previously unknown archival materials, and the stories of such figures and institutions as William Faulkner, Stephen Spender, Irving Kristol, James Laughlin, and Voice of America, Barnhisel reveals how the U.S. government reconfigured modernism as a trans-Atlantic movement, a joint endeavor between American and European artists, with profound implications for the art that followed and for the character of American identity.

web solution from the  
laws of motion in the  
case of rotational  
motion we know that  $\omega$   $\omega$   
 $\theta$   $\alpha t$  from the given data  
 $\omega$   $0$   $900\text{rpm}$   $900 \times 2\pi$   $60$   
 $\text{rad s}$   $\omega$   $0$  and  $t$   $60\text{s}$   
hence angular  
deceleration  $\alpha$   $\pi$   $2$   
question 3 a bus is  
moving in a circular  
track of radius  $1000\text{cm}$
