Puffer, Kim Braithwaite, 2016-06-16 Soviet managerial culture, however resistant to change, is in fact changing (just as Western managers have begun to grasp some of its written rules). It spotlights the problems that are preparing students, career managers, and the employees of Western ventures for work in a very different environment. The issues (and the pitfalls) are brought to life in reports from the field by some of the Soviet and Western consultants, executives, instructors and students who are pioneers in the conscious creation of a new managerial culture.

*Insight* Nancy K. Napier, 2010-05-05 An expert shows how to cultivate aha moments—flashes of insight—that lead to business innovation and personal success. *Insight: Encouraging Aha! Moments for Organizational Success* helps individuals and organizations create the conditions that lay the groundwork for the distinct Aha! instances of insight—when connections between different pieces of information are revealed and ideas come together in ways that have never existed before. *Insight* examines three stages of the Aha! experience, from the early confusion and chaos of too much information, to how people organize and try out what they learn, to the Aha! moment itself. It then examines techniques people use to spark the creative aha experience—techniques that will work in a private business, education, government, nonprofit, and any other organizational setting. The book is based on interviews with over 100 people of all ages, backgrounds, and professions—from software developers to dancers, from detectives to football coaches—as well as the latest research results from management, psychology, and neuroscience studies about the workings of the brain in creative situations.
