Shooting Boudoir at Home Terry Allen,2014-03-17 Many women go to a professional photographer to get boudoir photos taken; however, some women are too uncomfortable to do so. Yet, they would still like to have beautiful sexy photos of themselves for that special person in their life. Why not learn to take sexy photos of your wife or girlfriend yourself and share the experience together? In this book I will teach you how to take sexy pictures without expensive cameras and equipment. No need to rent a professional studio, you can do it in the comfort of your own home. Ever wonder why all the pictures you take look like snapshots instead of professional images? I'll teach you how to fix that so that your pictures look just as good as the ones you pay a photographer hundreds of dollars for. It doesn't matter if you have an expensive camera or just a cell phone camera, I'll teach you how to make the most of what you have. However, if you do have an SLR that gives you manual control, you will have better creative control of your photographs and can achieve better results. What about lighting? Do you need thousands of dollars' worth of lighting equipment to take great photos? No, I will teach you how to use existing light to take great photos. However, I will also teach you how to use lighting equipment and recommend where you can get some decent lights for very cheap. What about Photoshop? Do you need to spend

hundreds of dollars on expensive software to edit your photos? Nope. I will teach you how to do basic editing with free software! My goal in this book is to teach you the basics of photography, lighting, posing and photo editing to empower you to create beautiful boudoir photos in the comfort of your own home (and maybe even help you build a stronger relationship as you and your partner work on this together).
