The Professional Practice of Rehabilitation Counseling Michael T. Hartley, PhD, CRC,Vilia M. Tarvydas, PhD, CRC,2022-09-28 The most current book available on rehabilitation counseling! This textbook is a comprehensive introduction to rehabilitation counseling, encompassing its history, values, knowledge, skills, and links to the disability community. Underscoring disability as a common part of the human experience, it highlights the knowledge and competencies all rehabilitation counselors need to provide ethical and effective services. To reflect emerging trends, 13 chapters are either

This text offers a stronger focus on psychiatric rehabilitation and mental health counseling practiced by clinical rehabilitation counselors and incorporates new research and knowledge from breakthroughs in neuroscience and psychopharmacology, innovations in digital communication and technology, and shifts in the economy. The book examines the broad ranging practice of rehabilitation counseling as an evolving amalgamation of CORE and CACREP and delves into the impact of current societal changes—COVID-19, the economic turndown, issues of diversity, equity, and inclusion. It provides an enhanced focus on the demand for clinical and mental health counseling from a rehabilitation perspective and introduces specialized competencies to foster the development of strong advanced skill sets. The text also focuses on the importance of having persons with disabilities participate in their own rehabilitation and as an important component of the development of the field itself. The text is supported by rich ancillaries for educators, including Instructor's Manual, PowerPoints, and Test Bank. New to the Third Edition: New chapter authors are high caliber experts with unique voices and perspectives who have partnered with senior scholars from previous editions This new edition is significantly updated to reflect emerging trends that are impacting the professional practice of rehabilitation counseling Updated chapter on technology in rehabilitation counseling includes distance education, assistive technology and telemental health New chapter on Counseling and Mental Health Key Features: Conceptualizes rehabilitation counseling and its complementary relationship to counseling Each chapter addresses CACREP standards and includes learning objectives, reflection activities, and content review questions Extensively

Recovery's Edge Neely Laurenzo Myers,2015-12-18 In 2003 the Bush Administration's New Freedom Commission asked mental health service providers to begin promoting recovery rather than churning out long-term, chronic mental health service users. Recovery's Edge sends us to urban America to view the inner workings of a mental health clinic run, in part, by people who are themselves in recovery from mental illness. In this provocative narrative, Neely Myers sweeps us up in her own journey through three years of ethnographic research at this unusual site, providing a nuanced account of different approaches to mental health care. Recovery's Edge critically examines the high bar we set for people in recovery through intimate stories of people struggling to find meaningful work, satisfying relationships, and independent living. This book is a recipient of the Norman L. and Roselea J. Goldberg Prize from Vanderbilt University Press for the best book in the area of medicine.

TIP 52: Clinical Supervision and Professional Development of the Substance Abuse Counselor U.S. Department of Health and Human Services,2019-11-23 This Treatment Improvement Protocol (TIP)is a companion to TIP 51, Substance Abuse Treatment: Addressing the Specific Needs of Women. These two volumes look at how gender-specific treatment strategies can improve outcomes for men and women, respectively.The physical, psychological, social, and spiritual effects of substance use and abuse on men can be quite different from the effects on women, and those differences have implications for treatment in behavioral health settings. Men are also affected by social and cultural forces in different ways than women, and physical differences between the genders influence substance use and recovery as well.This TIP, Addressing the Specific Behavioral Health Needs of Men, addresses these distinctions. It provides practical information based on available evidence and clinical experience that can help counselors more effectively treatment with substance use disorders
