Technical Analysis of Gaps Julie R. Dahlquist, Richard J. Bauer, 2012 Gaps have attracted the attention of market technicians from the earliest days of charting. They're not merely conspicuous: they represent price jumps that could signal profitable trading opportunities. Until now, however, folklore about gap trading has been common, and tested, research-based knowledge virtually nonexistent. In Technical Analysis of Gaps, renowned technical analysis researchers Julie Dahlguist and Richard Bauer change all that. Drawing on 60 years of comprehensive data, they demonstrate how to sort strategic gaps from trivial ones, and successfully trade on gaps identified as significant. Building on work that recently earned them the Market Technicians Association's 2011 Charles H. Dow Award for creativity and innovation in technical analysis, Dahlquist and Bauer offer specific gap-related trading tips for stocks, futures, and options.

They consider a wide variety of market conditions, including gap size, volume and previous price movement, illuminating their findings with easy-to-understand diagrams. Coverage includes: understanding what gaps are and how they arise; recognizing windows on candlestick charts; identifying gaps with superior profit potential; combining gaps with other technical techniques for a more complete and effective analysis; and putting it all together with real trading strategies. For stock, commodity, and currency traders in the U.S. and worldwide, and for active individual investors seeking new ways to maximize returns.

How to Trade with Confidence and Zero Fear Richard Rond, Trading is challenging for most people because they simply don't have the information, tools or confidence to become successful. This book is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like, the way they are really run and tells you who runs them and what you need to do as a selfdirected beginner to survive in them. Let's face it, it's a well-known fact that 97% of brand new self-directed investors and traders fail and lose all of their money, why does this happen? It happens because brand new self-directed traders enter into this business with a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of capital to do so, no joke. As a brand new self-directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who

will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them, you can't. What you can do though is properly prepare yourself to trade with confidence and zero fear going up against the best traders in the world and be paid right along with them instead of paying them. Once you have completed reading this entire book you will have a chance at competing with the best professional traders on the planet. The information in this book will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it, isn't that the type of business you would like to be in?

Forex Trading Strategies : Revealed Underground Shocking Secrets and Sleek Weird But Crazy Profitable Tricks to Easy Millionaire with Forex Strategy Trader X,2015-06-12 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make

money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of guitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k, how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger.

See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and guit your job. You can achieve your dreams. Buy this book and find out How?
