Why online marketing is such a powerful tool to promote your business. Marcelo Gameiro, A school of thought advocates that the quality of the products and services offered is the most singular factor necessary for a business to advance its prospects. The proponents of this approach believe that once the quality of goods and services is top-notch, the client will be happy. They advocate that a satisfied customer will return to order for more of such services or goods. While that may be true, a novel emerging approach notes that although the quality of products and services is crucial, it is not enough to keep a business floating. A business grows, develops, and becomes profitable as its revenue base expands. A satisfied customer will come back, but with marketing strategies in place, one happy customer can reach and persuade 50 others. Thus, excellent quality must go hand-in-hand with an efficient marketing system to boost a business by creating a wide range of customer outreach. In this book you can find the best guide to take advantage of one of the most efficient and cheaper ways of doing marketing today. ►Why marketing is the heart of your business, and where is the best vehicle to do marketing today. ►Why online marketing is the most efficient way of doing marketing today. ►Why online marketing efforts last longer than others methods. ►How can you put your business online for free (and other methods too)

Our Own Worst Enemy as Protector of Ourselves Byron Ben Renz,2010 Much communication today argues a point. An argument, by definition, involves an attack and a counterattack not only using logic, but also incorporating non-logical feelings, attitudes, beliefs, and values. Much of the non-logical element in our argumenttaps the reservoir of unconscious understandings, feelings, expectations, and values that we have coded and stored in our unconscious minds in the form of stereotypes, schemas, and typifications. Our internal packets of stored values and beliefs may constitute our own worst enemy as they militate against creative thought and forward-looking cha.
