**10 PRINT CHR\$(205.5+RND(1)); : GOTO 10** Nick Montfort,Patsy Baudoin,John Bell,Ian Bogost,Jeremy Douglass,2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of 10 PRINT, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

**The Brand Innovation Manifesto** John Grant,2006-05-12 The days of the image brands are over, and ‘new marketing’ has gone mainstream. The world’s biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke’s and author of The New Marketing Manifesto, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In The Brand Innovation Manifesto, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people’s lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the ‘brand molecule’ to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

**Amazing South Carolina** ,2020-05-12 Amazing South Carolina: A Coloring Book Journey Through Our 46 Counties is a delightful, one-of-a-kind book designed to engage youngsters and adult coloring book enthusiasts in learning about the unique character of our nation's eighth state. Every county in South Carolina is featured with an appealing illustration of its iconic and lesser-known sites--historical, geographical, topographical, industrial and commercial, and more. Companion text identifies and provides context for the pictured elements. The book provides a comprehensive educational snapshot of all that is special about the Palmetto State. From the colonial plantations of the Upstate to the picturesque marshes of the Lowcountry and the lazy Edisto River meandering its way through the state; from big cities like Columbia and Greenville to the vibrant coastal communities of Charleston and Beaufort, South Carolina is as beautiful and historic as it is diverse. Amazing South Carolina highlights that diversity and celebrates some of Laura Murray's favorite discoveries around the state.

**Land of Wolves** Craig Johnson,2020-08-04 The new novel in Craig Johnson's beloved New York Times bestselling Longmire series. It's the scenery—and the big guy standing in front of the scenery—that keeps us coming back to Craig Johnson's lean and leathery mysteries. —The New York Times Book Review Recovering from his harrowing experiences in Mexico, Sheriff Walt Longmire returns to Absaroka County, Wyoming, to lick his wounds and try once again to maintain justice in a place with grudges that go back generations. When a shepherd is found dead, Longmire suspects it could be suicide. But the shepherd's connection to the Extepare, a powerful family of Basque ranchers with a history of violence, leads the sheriff into an intricate investigation of a possible murder. As Walt searches for information about the shepherd, he comes across strange carvings on trees, as well as play money coupons from inside Mallo Cup candies, which he interprets as messages from his spiritual guide, Virgil White Buffalo. Longmire doesn't know how these little blue cards are appearing, but Virgil usually reaches out if a child is in danger. So when a young boy with ties to the Extepare clan arrives in town, the stakes grow even higher. Even more complicating, a renegade wolf has been haunting the Bighorn Mountains, and the townspeople are out for blood. With both a wolf and a killer on the loose, Longmire follows a twisting trail of evidence, leading to dark and shocking conclusions.

**Launch! Advertising and Promotion in Real Time** Michael Solomon,2009 Launch! Advertising and Promotion is written for advertising and promotion courses taught to students in the business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com with the tag A Fuller Spectrum of News. Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look behind the curtain - even letting

you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.

Reversing Eldad Eilam,2011-12-12 Beginning with a basic primer on reverse engineering-including computer internals, operating systems, and assembly language-and then discussing the various applications of reverse engineering, this book provides readers with practical, in-depth techniques for software reverse engineering. The book is broken into two parts, the first deals with security-related reverse engineering and the second explores the more practical aspects of reverse engineering. In addition, the author explains how to reverse engineer a third-party software library to improve interfacing and how to reverse engineer a competitor's software to build a better product. \* The first popular book to show how software reverse engineering can help defend against security threats, speed up development, and unlock the secrets of competitive products \* Helps developers plug security holes by demonstrating how hackers exploit reverse engineering techniques to crack copy-protection schemes and identify software targets for viruses and other malware \* Offers a primer on advanced reverse-engineering, delving into disassembly-code-level reverse engineering-and explaining how to decipher assembly language

**The Manchurian Candidate** Richard Condon,2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." -The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret-even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon-a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." -Chicago Tribune "Condon is wickedly skillful." -Time

**The Band Photographs 1968-1969 ,2015 (Book).** Once in a while a photographer gains the trust of an artist or a band, and his work fuses with that of the artist in such a way that the two become married in the public consciousness. One can think of David Duncan's pictures of Picasso at work or Alfred Wertheimer's pictures of Elvis backstage in 1956. Elliott Landy's chronicle of The Band from 1968-1969 is of similar importance. He was trusted so deeply that this group of photographs is as intimate a portrait of a group of musicians inventing a new music as you are ever likely to come across. Today we call that music Americana, and it is played all over the world by everyone from Mumford and Sons to the Zac Brown Band. But in 1968, when Elliott first started making these pictures, it was played by six musicians in the town of Woodstock, New York Bob Dylan and a group called The Hawks. They later changed their name to The Band. They had been The Hawks for five years when Bob Dylan pulled them out of Tony Mart's dive bar on the Jersey Shore to be his band.

*The Fervor* Alma Katsu,2022-04-26 The acclaimed author of the celebrated literary horror novels *The Hunger* and *The Deep* turns her psychological and supernatural eye on the horrors of the Japanese American internment camps in World War II. 1944: As World War II rages on, the threat has come to the home front. In a remote corner of Idaho, Meiko Briggs and her daughter, Aiko, are desperate to return home. Following Meiko's husband's enlistment as an air force pilot in the Pacific months prior, Meiko and Aiko were taken from their home in Seattle and sent to one of the internment camps in the Midwest. It didn't matter that Aiko was American-born: They were Japanese, and therefore considered a threat by the American government. Mother and daughter attempt to hold on to elements of their old life in the camp when a mysterious disease begins to spread among those interned. What starts as a minor cold quickly becomes spontaneous fits of violence and aggression, even death. And when a disconcerting team of doctors arrive, nearly more threatening than the illness itself, Meiko and her daughter team up with a newspaper reporter and widowed missionary to investigate, and it becomes clear to them that something more sinister is afoot, a demon from the stories of Meiko's childhood, hell-bent on infiltrating their already strange world. Inspired by the Japanese yokai and the jorogumo spider demon, *The Fervor* explores the horrors of the supernatural beyond just the threat of the occult. With a keen and prescient eye, Katsu crafts a terrifying story about the danger of demonization, a mysterious contagion, and the search to stop its spread before it's too late. A sharp account of too-recent history, it's a deep excavation of how we decide who gets to be human when being human matters most.
