Future Value Eric Longenhagen,Kiley McDaniel,Keith Law,2020-04-14 An unprecedented look inside the world of baseball scouting and evaluation from two of the industry's top prospect analysts For the modern Major League team, player evaluation is a complex, multi-pronged, high-tech pursuit. But far from becoming obsolete in this environment—as Michael Lewis' Moneyball once forecast—the role of the scout in today's game has evolved and even expanded. Rather than being the antithesis of a data-driven approach, scouting now represents an essential analytical component in a team's arsenal. Future Value is a thorough dive into baseball's changing world of talent acquisition and development, a world with its own language, methods, metrics, and madness. From rural high schools to elite amateur showcases, from the back fields of spring training to major league draft rooms, Eric Longenhagen and Kiley McDaniel break down the key systems and techniques used to assess talent. It's a process that has moved beyond the quintessential stopwatches and radar guns to include statistical models, countless measurable indicators, and a broader international reach. Practical and probing, discussing wide-ranging topics from tool grades to front office politics, this is an illuminating exploration of how to watch baseball and see the future.

PROSPECT: the Real Estate Lead Generation Manual Brian Icenhower,2018-12-26 Prospect for leads in your real estate business, and you'll be developing a skill set that produces incredible results for selling your services. Some real estate agents are content to wait in their offices, hoping for potential sellers and buyers to pop in with a listing or an offer. The same agents end up wondering why their business is shrinking instead of expanding. Top real estate agents understand the importance of prospecting, and they get out in the community to generate the kinds of leads they know will pay off. Prospecting is an intentional activity - one that requires a strategic investment of your time. Random prospecting is almost as detrimental to your business as not prospecting at all. We teach you how to overcome your limiting beliefs and go where the clients are, and we'll take you there one step at a time. Whether you just obtained your real estate license or you're ready to breathe new life into your existing real estate practice, PROSPECT is the one book you must have as your guide. You will be expertly trained on the most tested and effective prospecting methods available: Circle Prospecting, Sphere of Influence, Expired Listings, For Sale By Owners, Previewing Properties, Door Knocking, Open Houses, and much more! This book presents you with not only the rationale for each strategy but also the scripts, documentation tools and planning ideas you need to hold yourself accountable and use your time efficiently. As a result, getting more leads, more listings, and more sales will earn you a position as a top-performer in the real estate industry. PROSPECT puts you in charge of the commission income that you generate.

Prospects for quinoa adaptation and utilization in Eastern and Southern Africa Maliro, M.F.A., Abang, M.M., Mukankusi, C., Lung’aho, M., Fenta, B., Wanderi, S., Kapa, R., Okiro, O.A., Koma, E., Mwaba, C., Isse, M.M. and Bazile, D.,Food and Agriculture Organization of the United Nations ,2021-01-22 Quinoa (*Chenopodium quinoa* Willd.), is an emerging crop in the world with great potential to contribute to Africa’s food and nutritional security. The increased popularity of quinoa in the last few years is attributed to the impact of activities carried out within the framework of the International Year of Quinoa (IYQ2013) which helped greatly to raise awareness on the crop’s multiple nutritional benefits and its expanding cultivation globally. The Food and Agriculture Organization (FAO), which championed the IYQ2013 has worked with developing countries in Africa, which are grappling with food and nutrition insecurity, to introduce and promote cultivation of quinoa. Production and utilization of quinoa is expected to significantly reduce food and nutrition insecurity and help farming communities adapt to climate change. FAO implemented a Technical Cooperation on quinoa titled “Technical Assistance for the Strengthening of the Food System of Quinoa” (TCP/SFE/3406) implemented in 2014 to 2015. This project was designed to support the institutional capacities of seven countries including Djibouti, Ethiopia, Kenya, Somalia, South Sudan, Uganda, and Zambia, in the production, evaluation, management, utilization, and marketing of Quinoa under diverse farming systems and agro-ecological zones. The project was implemented and led by the FAO Subregional office for Eastern Africa (SFE). Quinoa evaluation trials that were conducted across multiple sites in the participating countries served as pilot adaptability studies for the crop. This technical paper presents key technological, institutional and policy consideration for the successful introduction, adaptation and utilization of quinoa in Africa.

Indian Business @75: Research on Trends and Prospects Meenakshi Khemka,Tarak Nath Sahu,Sahana Ghosh,2022-12-03 The management profession is changing at a fast pace. Technology has enabled today’s managers to reach out to customers through various channels – both organized and unorganized. Social media and other virtual platforms are being used intensively to understand customers and explore new horizons. Information and data have enabled growth for both new and established companies. Technology has democratised innovation, branding and distribution channels. On the flip side, focus on growth has led businesses to excessively utilise resources. Climate change is becoming a serious issue in today’s world. Companies are now adopting green practices in all areas of business practice, from product development, manufacturing, fuel use to financial reporting. The Covid-19 pandemic has altered business practices in many ways. Businesses are still on the path of recovery from the two years of devastating impact. This has also led to the emergence of different business models and new entrepreneurs. At the end of the day, business is all about people, community and society. It is important to understand whether Indian businesses have enabled the economy and people to benefit from business growth. This book includes research papers on different operational areas of management, including finance, economy, marketing, entrepreneurship, innovation, corporate governance and Corporate Social Responsibility. The central theme of these research papers is Indian business.

Prospects of Regional Economic Cooperation in South Asia Gordhan Saini,2011-12-07 This book is aimed at researchers and students at graduate and post-graduate level in the field of economics and international trade. The book is written against the backdrop of sluggish progress of multilateral trade negotiations under the framework of the World Trade Organization (WTO) regime which has provided impetus to the signing of regional/bilateral trade agreements the world over. This book examines the prospects and impact of regional economic cooperation in the South Asia region using various approaches; and focuses specifically on the South Asian Free Trade Agreement (SAFTA). The book also includes special studies on Indian industries: pharmaceuticals, textiles and clothing, and traditional (i.e. lock, brassware and glassware) industries in north India. Provides a detailed analysis of the prospects and impact of regional economic cooperation in South Asia through alternative approaches Draws on the author's rich experience in the field of economics and trade to assess the prospects and impact of RTA/FTA Contributions are presented from highly knowledgeable and rich experienced researchers in the field

Economic Integration Among D-8 Muslim Countries: Prospects And Challenges Ahmed M Khalid,R James Ferguson,M Niaz Asadullah,2023-03-16 The D-8 (Developing Eight) organisation was officially formed in 1997 and has Bangladesh, Egypt, Indonesia, Iran, Malaysia, Nigeria, Pakistan and Turkey as full members. The D-8 economies encompass nearly 62% of the Muslim population or about 1.17 billion people globally. The economic, cultural, social, political and geographical diversity that exists amongst the D-8 member countries differs radically from other Muslim or regional blocks. Furthermore, D-8 member countries are developing economies that do not solely rely on oil, ancient civilizations, or roles as historical powerhouses, but their populations aspire to be better educated, scientifically more advanced, have higher incomes and improved human rights. It is imperative to study the implications of these developments for cultural identity and life quality. This book studies the contemporary socio-economic developments and challenges faced by D-8 countries. It explores questions on the socio-economic and political formation, sustainability, economic participation, and the vitality of the D-8 member countries. It deepens our understanding of recent global economic systems and governance, and suggests areas for future research and publications.
