Chicanx Utopias Luis Alvarez, 2022-02-22 Amid the rise of neoliberalism, globalization, and movements for civil rights and global justice in the post-World War II era, Chicanxs in film, music, television, and art weaponized culture to combat often oppressive economic and political conditions. They envisioned utopias that, even if never fully realized, reimagined the world and linked seemingly disparate people and places. In the latter half of the twentieth century, Chicanx popular culture forged a politics of the possible and gave rise to utopian dreams that sprang from everyday experiences. In *Chicanx Utopias*, Luis Alvarez offers a broad study of these utopian visions from the 1950s to the 2000s. Probing the film *Salt of the Earth*, brown-eyed soul music, sitcoms, poster art, and borderlands reggae music, he examines how Chicanx pop culture, capable of

both liberation and exploitation, fostered interracial and transnational identities, engaged social movements, and produced varied utopian visions with divergent possibilities and limits. Grounded in the theoretical frameworks of Walter Benjamin, Stuart Hall, and the Zapatista movement, this book reveals how Chicanxs articulated pop cultural utopias to make sense of, challenge, and improve the worlds they inhabited.

The War on Welfare Marisa Chappell,2012-02-02 Why did the War on Poverty give way to the war on welfare? Many in the United States saw the welfare reforms of 1996 as the inevitable result of twelve years of conservative retrenchment in American social policy, but there is evidence that the seeds of this change were sown long before the Reagan Revolution—and not necessarily by the Right. *The War on Welfare: Family, Poverty, and Politics in Modern America* traces what Bill Clinton famously called the end of welfare as we know it to the grassroots of the War on Poverty thirty years earlier. Marshaling a broad variety of sources, historian Marisa Chappell provides a fresh look at the national debate about poverty, welfare, and economic rights from the 1960s through the mid-1990s. In Chappell's

telling, we experience the debate over welfare from multiple perspectives, including those of conservatives of several types, liberal antipoverty experts, national liberal organizations, labor, government officials, feminists of various persuasions, and poor women themselves. During the Johnson and Nixon administrations, deindustrialization, stagnating wages, and widening economic inequality pushed growing numbers of wives and mothers into the workforce. Yet labor unions, antipoverty activists, and moderate liberal groups fought to extend the fading promise of the family wage to poor African Americans families through massive federal investment in full employment and income support for male breadwinners. In doing so, however, these organizations condemned programs like Aid to Families with Dependent Children (AFDC) for supposedly discouraging marriage and breaking up families. Ironically their arguments paved the way for increasingly successful right-wing attacks on both welfare and the War on Poverty itself.

MEDINFO 2019: Health and Wellbeing e-Networks for All
L. Ohno-Machado,B. Séroussi,2019-11-12 Combining and integrating cross-institutional data remains a challenge for both researchers and those involved in patient care. Patient-generated data can contribute precious information to healthcare professionals by enabling monitoring under normal life conditions and also helping patients play a more active role in their own care. This book presents the proceedings of MEDINFO 2019, the 17th World Congress on Medical and Health Informatics, held in Lyon, France, from 25 to 30 August 2019. The theme of this year's conference was 'Health and Wellbeing: E-Networks for All', stressing the increasing importance of networks in healthcare on the one hand, and the patient-centered perspective on the other. Over 1100 manuscripts were submitted to the conference and, after a thorough review process by at least three reviewers and assessment by a scientific program committee member, 285 papers and 296 posters were accepted, together with 47 podium abstracts, 7 demonstrations, 45 panels, 21 workshops and 9 tutorials. All accepted paper and poster contributions are included in these proceedings. The papers are grouped under four thematic tracks: interpreting health and biomedical data, supporting care delivery, enabling precision medicine and public health, and the human element in medical informatics. The posters are divided into the same four groups. The book presents an overview of state-of-the-art informatics projects from multiple regions of the world; it will be of interest to anyone working in the field of medical informatics.

The Kashmir Conflict Rakesh Ankit,2016-06-17 This book presents a study of the international dimensions of the Kashmir dispute between India and Pakistan from before its outbreak in October 1947 until the Tashkent Summit in January 1966. By focusing on Kashmir's under-researched transnational dimensions, it represents a different approach to this intractable territorial conflict. Concentrating on the global context(s) in which the dispute unfolded, it argues that the dispute's evolution was determined by international concerns that existed from before and went beyond the Indian subcontinent. Based on new and diverse official and personal papers across four countries, the book foregrounds the Kashmir dispute in a twin setting of Decolonisation and the Cold War, and investigates the international understanding around it within the imperatives of these two processes. In doing so, it traces Kashmir's journey from being a residual irritant of the British Indian Empire, to becoming a Commonwealth embarrassment and its eventual metamorphosis into a security concern in the

Cold War climate(s). A princely state of exceptional geo-strategic location, complex religious composition and unique significance in the context of Indian and Pakistani notions of nation and statehood, Kashmir also complicated their relations with Britain, the United States, Soviet Union, China, the Commonwealth countries and the Afro-Arab-Asian world. This book is of interest to scholars in the field of Asian History, Cold War History, Decolonisation and South Asian Studies.
