Windows Media Center Wizardry Tony Campbell,2006-07-28 This short cut is a series of How To sections, each concentrating on an area of functionality little exploited by typical users, although extremely useful when exposed. Section 1 Smarter Media Center Configuration There are smart ways, and not so smart ways, to configure a PC running Windows XP Media Center Edition 2005. Smart configuration means understanding which hardware components best integrate together and how those components should be set up to best deliver their unique set of services. All in all, smarter configuration facilitates a better Media Center experience for everyone. Section 2 Media Center's Best Kept Secrets Once the Media Center has been set up and is integrated into the required environment, the next thing a user needs to understand is where the real power of MCE lies. At first glance it's not at all apparent. This section delves into the depths of using and really leveraging the essence of MCE. Section 3 Taking Media Center to the Next Level There are, as with most software solutions, things that MCE doesn't do that well (or at all). However, as is the case with all Microsoft platforms, MCE comes with its own API and is highly extensible. Many software developers have augmented the Media Center feature set with new and exciting enhancements that bolster its capabilities. This section details the author's preferences on essential additions to a MCE implementation including information on Xbox, PSP, and the iPod.

PSP Hacks Clinton Kennedy Sample,2006 With PSP Hacks, readers can accomplish more than good gaming on the PSP--they'll quickly learn to surf the Web with a PSP, chat in IRC, and use the PSP to read Web comics, ebooks, and RSS feeds.

Foundation Flash Applications for Mobile Devices Richard Leggett,Weyert De Boer,Scott Janousek,2007-05-01 * This is the only up-to-date book on the market that covers Flash mobile

application development. * Evidence of demand – large companies such as Nokia and Samsung are Flash-enabling their phones. * The book will support the new FlashLite version available with the next version of Flash, released later on this year.

Playstation 3 ,

Bastard Culture! Mirko Tobias Schäfer,2011 The computer and particularly the Internet have been represented as enabling technologies, turning consumers into users and users into producers. The unfolding online cultural production by users has been framed enthusiastically as participatory culture. But while many studies of user activities and the use of the Internet tend to romanticize emerging media practices, this book steps beyond the usual framework and analyzes user participation in the context of accompanying popular and scholarly discourse, as well as the material aspects of design, and their relation to the practices of design and appropriation.

Popular Photography ,2005-06

Women in Classical Video Games Jane Draycott,Kate Cook,2022-08-11 Despite the prevalence of video games set in or inspired by classical antiquity, the medium has to date remained markedly understudied in the disciplines of classics and ancient history, with the role of women in these video games especially neglected. Women in Classical Video Games seeks to address this imbalance as the first book-length work of scholarship to examine the depiction of women in video games set in classical antiquity. The volume surveys the history of women in these games and the range of figures presented from the 1980s to the modern day, alongside discussion of issues such as historical accuracy, authenticity, gender, sexuality, monstrosity, hegemony, race and ethnicity, and the use of tropes. A wide range of games of different types and modes are discussed, with particular attention paid to the Assassin's Creed franchise's 21st-century ventures into classical antiquity (first in Origins

(2017), set in Hellenistic Egypt, and then in Odyssey (2018), set in classical Greece), which have caught the imagination not only of gamers, but also of academics, especially in relation to their accompanying educational Discovery Modes. The detailed case studies presented here form a compelling case for the indispensability of the medium to both reception studies and gender studies, and offer nuanced answers to such questions as how and why women are portrayed in the ways that they are.

Smart Home Automation with Linux and Raspberry Pi Steven Goodwin,2013-07-27 Smart Home Automation with Linux and Raspberry Pi shows you how to automate your lights, curtains, music, and more, and control everything via a laptop or mobile phone. You'll learn how to use Linux, including Linux on Raspberry Pi, to control appliances and everything from kettles to curtains, including how to hack game consoles and even incorporate LEGO Mindstorms into your smart home schemes. You'll discover the practicalities on wiring a house in terms of both and power and networking, along with the selection and placement of servers. There are also explanations on handling communication to (and from) your computer with speech, SMS, email, and web. Finally, you'll see how your automated appliances can collaborate to become a smart home. Smart Home Automation with Linux was already an excellent resource for home automation, and in this second edition, Steven Goodwin will show you how a house can be fully controlled by its occupants, all using open source software and even open source hardware like Raspberry Pi and Arduino.

Smart Home Automation with Linux Steven Goodwin,2010-05-06 Linux users can now control their homes remotely! Are you a Linux user who has ever wanted to turn on the lights in your house, or open and close the curtains, while away on holiday? Want to be able to play the same music in every room, controlled from your laptop or mobile phone? Do you want to do these things without an

expensive off-the-shelf kit? In Smart Home Automation with Linux, Steven Goodwin will show you how a house can be fully controlled by its occupants, all using open source software. From appliances to kettles to curtains, control your home remotely!

GameAxis Unwired ,2005-12 GameAxis Unwired is a magazine dedicated to bring you the latest news, previews, reviews and events around the world and close to you.
