The Politics of Fear Ruth Wodak,2020-10-12 Far-right populist politics have arrived in the mainstream. We are now witnessing the shameless normalization of a political discourse built around nationalism, xenophobia, racism, sexism, antisemitism and Islamophobia. But what does this change mean? What caused it? And how does far-right populist discourse work? The Politics of Fear traces the trajectory of far-right politics from the margins of the political landscape to its very centre. It explores the social and historical mechanisms at play, and expertly ties these to the micro-politics of far-right language and discourse. From speeches to cartoons to social media posts, Ruth Wodak systematically analyzes the texts and images used by these groups, laying bare the strategies, rhetoric and half-truths the far-right employ. The revised second edition of this best-selling book includes: A range of vignettes analyzing specific instances of far-right discourse in detail. Expanded discussion of the normalization of far-right discourse. A new chapter exploring the challenges to liberal democracy. An updated glossary of far-right parties and movements. More discussion of the impact of social media on the rise of the far-right. Critical, analytical and impassioned, The Politics of Fear is essential reading for anyone looking to understand how far-right and populist politics have moved into the mainstream, and what we can do about it.

Contemporary Discourses of Hate and Radicalism across Space and Genres Monika Kopytowska,2017-11-15 This unique volume brings together various academic voices and critical reflections on discursive manifestations of hate and radicalism in contemporary public discourses. The authors venture into an array of socio-political contexts and public spaces, providing a compelling overview of similarities and divergences, continuities and discontinuities, outward hatred and the “politics of denial”, the use of collective symbols and construction of individual identities. Multiple genres are taken under scrutiny, including blogs, forums, internet websites and newspaper coverage, political speeches and debates, news reports and broadcast interactions, with a view to capturing the themes and pragma-rhetorical strategies within texts abundant with radical and hateful messages. In addition to examining discourse dynamics and the underlying logic of such texts, the contributors to this monograph explore the ideological motivations and the consequences they might have for social actions on both an individual and collective level. Highly relevant in the contemporary world, divided by conflicts, power and resource struggles, right-wing extremism, and crusades against the imaginary Other, the book presents state-of-the-art interdisciplinary research that should be of interest to specialists in pragmatics, rhetoric, sociolinguistics, discourse analysis, corpus linguistics, as well as media and communication studies. Originally published as a special issue of *Journal of Language Aggression and Conflict* 3:1 (2015).
