Crypto Trading on Binance Martin Delaney, 2020-10-18 With this guide, you will be able to make even your first trade like a pro. My team and I evaluate that Bitcoin, which tested the \$13440 level on the date of the book's publication in October 2020, gaining about 30% compared to last month, is now only showing us the trailer and is on the brink of a major rally. With the stock markets gradually recovering from the pandemic effect, it is very likely that there will be a bull market for cryptocurrencies that will last for months. Bitcoin's goal will be to exceed \$50,000 before the second

quarter of 2021 is complete. In the coming months, we will observe that while the Bitcoin price has increased at least 5 times, many altcoins have increased their price hundreds of times. All technical evaluations show that cryptocurrency exchanges are ready for such a rally. As Martin Delaney, my goal is to teach all my readers about cryptocurrency exchanges and their fundamentals in this great rally and make them leave this rally with maximum profit. Because some altcoins you will buy at no cost right now will make you rich. Extremely cheap altcoins such as IOST (\$0.0050), CHZ (\$0.008), MATIC (\$0.015), TFUEL (\$0.01) will be the stars of this bull with their high-potential projects. If you take this book as a guide for yourself, even if you have just entered the market, you can make very serious gains in this bull.
