Typography Papers Hendrik D.L. Vervliet,Justin Howes,Eric Kindel,Sue Walker,Linda Reynolds,2007-10-04 Typography Papers is an occasional book-length publication with a broad international scope, publishing extended articles relating typography to adjacent disciplines. Number 7 presents an eclectic collection of articles beginning with a lengthy consideration by type historian H. D. L. Vervliet of Claude Garamond: the designer whose new roman typefaces debuted in Paris in the 1530s and went on to dominate Western typography for the next two centuries. The late Justin Howes looks at the eighteenth-century belief in the necessity of perfection in type and printing. Eric Kindel discusses a nineteenth-century scheme for univocal letters. Sue Walker writes on twentieth-century typefaces designed for reading by young children. The issue concludes with Linda Reynolds's eyewitness account of pioneering work in legibility research in the 1970s and 1980s.

Churchward International Typefaces David Bennewith,Joseph Churchward,2009 A new publication presenting an overview of the work of Samoan-born New Zealand-based alphabet and advertising designer Joseph Churchward [1932]. The publication compiles archive material, correspondence, realised and un-realised designwork, alphabet designs and in-dispersed with essays surrounding aspects of Churchward's practice by New Zealand and overseas writers and designers. It attempts to tell a story in process of New Zealand's most prolific designer of letters to date.

Adrian Frutiger – Typefaces Heidrun Osterer,Philipp Stamm,2014-05-08 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement even more accessible.

The Solotype Catalog of 4,147 Display Typefaces Dan X. Solo,2014-05-05 The author of many books on typography, Dan X. Solo was also the proprietor of his own typography shop in Oakland, California — an establishment dedicated to unusual typography and special effects. This comprehensive catalog offers graphic designers a dazzling selection of over 4,000 typefaces and optical effects available from Solotype Typographers. Here, in Solo's words, is a great cast of characters — the alphabet — abetted by a cornucopia of typographical ideas and an endless resource of letters, words, phrases, slogans, logos, humorous comments, headlines, and graphic symbols. Individual sections of the book display a rich variety of typefaces in categories such as Condensed, Victorian, Art Nouveau, Art Deco, Rustic, Thick-and-tin, Calligraphic, Uncials, Latins, and Blackletter. Samples are imaginatively presented. Stagecoach, for example, is printed in Fargo typeface, evoking dusty trails, rawhide, and ten-gallon hats, while Sizzling summer savings appears appropriately in the flamboyant Firebug typeface. All typefaces are indexed for quick and easy reference. As entertaining as it is practical and useful, this impressive treasury of versatile typefaces and optical effects will be indispensable to busy commercial artists as an inexhaustible source of typographic ideas and a swipe file of words, phrases, and letters for use in graphic art projects.
