**Constructing Library Buildings That Work** Fred Schlipf,2020-07-24 When it's time to start planning for a renovation or construction project, you don't need a book that covers everything from A to Z. Instead you need a concentrated set of tools and techniques that will guide you and your team to find the best solutions for your specific project. That's exactly what library building expert Schlipf provides in his new book, which will be a key resource for library directors, administrators, board members, trustees, and planning professionals. Pinpointing the elements that make library buildings functional, in this book readers will find a streamlined organization of the text that enables quick consultation and facilitates collaboration; concise coverage of the essentials of the library construction process, including who does what, how things work, and how to stay out of trouble along the way; advice on important planning and workflow considerations such as site selection, schematic design, funding, design development, the bidding process, construction, and post-construction occupancy; discussion of the characteristics of successful library buildings—buildings that are easy to maintain, welcoming to people with disabilities, have less trouble-prone restrooms, and provide security for users, staff, and collections; and an overview of bad ideas in library architecture, with pointed guidance on how to steer clear of them from the very beginning of your project.

Power Searching the Internet Nicole Hennig,2018-12-07 Learn how to help your library patrons deepen their internet searches to more effectively find information, images, videos, statistics, maps, books, definitions, translations, and more. You know how to dash off a quick Google search, but do you know how to go further with your searching to get everything you actually need? Written in an engaging, conversational tone, this handy guide introduces you to shortcuts and some of the hidden features and filters offered by many search tools—such as limiting by site, domain, or date—and to several free but little-known search tools. With concrete examples and practical how-to tips, you'll learn to effectively search Google, Wolfram Alpha, social media platforms, and other internet search tools—and how to teach your patrons to do the same. The information comprised in this volume can be easily shared with patrons to help them in their searches and may be used in information literacy courses.

The Passive Programming Playbook Paula Willey,Andria L. Amaral,2021-05-11 This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable-so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family engagement, encourage visit frequency, and coax interaction out of library lurkers-while barely making a dent in your programming budget. Passive programming can be targeted at children, teens, adults, or seniors; used to augment existing programs; and executed in places where staff-led programming can't reach. It can be light-footed, spontaneous, and easily deployed to reflect and respond to current news, media, library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration.

**We Are the Light** Matthew Quick,2022-11 From Matthew Quick, the New York Times bestselling author of *The Silver Linings Playbook*—made into the Academy Award-winning movie starring Jennifer Lawrence and Bradley Cooper—comes a poignant and hopeful novel about a widower who takes in a grieving teenager and inspires a magical revival in their small town. Lucas Goodgame lives in Majestic, Pennsylvania, a quaint suburb that has been torn apart by a recent tragedy. Everyone in Majestic sees Lucas as a hero—everyone, that is, except Lucas himself. Insisting that his deceased wife, Darcy, visits him every night in the form of an angel, Lucas spends his time writing letters to his former Jungian analyst, Karl. It is only when Eli, an eighteen-year-old young man whom the community has ostracized, begins camping out in Lucas's backyard that an unlikely alliance takes shape and the two embark on a journey to heal their neighbors and, most importantly, themselves. From Matthew Quick, whose work has been described by the Boston Herald as “like going to your favorite restaurant. You just know it is going to be good,” *We Are the Light* is an unforgettable novel about the quicksand of grief and the daily miracle of love. The humorous, soul-baring story of Lucas Goodgame offers an antidote to toxic masculinity and celebrates the healing power of art. In this tale that will stay with you long after the final page is turned, Quick reminds us that life is full of guardian angels.
