

# Race Cars V100

Philip Raby

**Racecar Matt Brown,2011** In 2006, a small unavailing university auto racing team began building a racecar that would challenge the best engineering schools in the world. With fewer people and resources than any of the top competitors, the only way they were going to win was to push the limit, go for broke, and hope for more than a little luck. By the time they got to the racetrack, they knew: In the fog of fierce competition, whether you win or lose, you learn the hardest lessons about engineering, teamwork, friendship, and yourself.

**Legendary Race Cars Basem Wasef,2009-10-09** Illustrated profiles of the greatest motorsports pairings of man and machine, from the winner of the first Indy 500 race to the Audi R10 the dominated Le Mans for nearly a decade.

**Inside IMSA's Legendary GTP Race Cars J. A. Martin, Michael J. Fuller,** Professional automobile racing has always been dominated by sanctioning bodies whose main goal was to ensure competition. That has meant seeing that cars are well matched--in body shape or chassis/engine combinations or engine size. But what about an all-out competition, in which one team's idea of the fastest race car could be pitted against another's, regardless of

mechanical “parity”? This was what the International Motor Sports Association’s (IMSA) Grand Touring Prototypes (GTP) race series was about. The Series ran from 1981 to 1993, and it was one of the most exhilarating racing experiences of all time. This book is the first to profile the amazing machines that resulted from the GTP’s flat-out competition among different--and passionate--ideas about what might be the fastest way around a track: the V-12 with its better ground-effect tunnels but higher center of gravity (CG); the flat six with its low CG but severely-restricted ground-effect tunnels; and others that employed elaborate wings and air dams. Here are the people behind this engineering free-for-all, the culmination of almost a century of automobile racing experience. And here are eighteen of the most competitive vehicles they designed. Using photography, diagrams, drawings and first-person accounts from the men who built them, Inside IMSA's Legendary GTP Race Cars offers a detailed look at the technology that drove some of the world’s most exciting race cars, the likes of which may never be seen again.

**Score with Race Car Math** Stuart A. P. Murray, 2013-07-01

Which driver was faster? How long is each lap at a race track?

How much faster are cars now, compared to the first race cars?

Author Stuart Murray uses math to explore the fast paced world of racing. He also includes history facts, trivia, and math problem-solving tips.

*The Ultimate Race Car* Burgess Wise, David, 1999

*Racing and Collecting Slot Cars* Robert H. Schleicher, Covers slot racing cars and tracks, how to duplicate real race tracks in scale, troubleshooting and performing maintenance on slot cars, racing terms, and how to organize a race event.

**Richard Petty** Tim Bongard, Robert Coulter, 2000-08 What were the first cars Richard Petty drove? Was his number always 43? When did he start painting the cars Petty Blue? How did Petty Enterprises end up with Pontiac? The list goes on and on. The more the authors researched, the more they realized that large portions of the King's career are obscure, a mystery to the legions of stock car racing fans and modelers who have discovered the sport in recent years. All this information and more is included for the die-hard race fan or modeler.

**Race Cars** Ian Graham, 2008 Have you ever wanted to drive a race car? This new edition of 'Race Cars' looks at how the fastest cars on the track are designed, built, and driven. Lined up for inspection are the V8 NASCAR stock cars, the Audi R10 Le Mans

sports car, the caged-in supercharged Top Fuel Dragsters. Take a closer look at the McLaren MP4-22 and what its Formula 1 team does to keep it on top. Start your engines. The revised and updated 'Designed for Success' series shows how designers create the very best cars, planes, motorcycles, and other exciting vehicles. It explains the many design challenges that designers and engineers must overcome and the factors they must take into account, such as materials, cost, and new technology.

**The Successful Race Car Driver Robert Metcalf,2000-12-15**

From driving to car preparation to dealing with sponsors, The Successful Race Car Driver details the lessons that need to be learned to succeed in today's racing environment. All drivers, from those who consider racing a hobby to those who wish to embark on a professional career, will find valuable tips and techniques that will help make them faster drivers, and help them avoid pitfalls along the way.

**The Art of the Formula 1 Race Car 2022 ,2021-09-14**

The Art of the Formula 1 Race Car 2022 presents thirteen of the most exciting F1 race cars from seventy-plus years of competition, captured in the studio portraits of master automotive photographer James Mann. The photographs in this sixteen-month calendar

showcase greats from Ferrari, McLaren, Williams, Lotus, Brabham, and Mercedes, portraying not just the vehicles' engineering and technological brilliance but also their inherent beauty—the captivating result of Formula 1's mix of competition, creativity, and technical ingenuity that makes these racers works of mechanical art. With a convenient page that shows the months of September, October, November, and December 2021, followed by individual pages for the months of 2022, keep yourself on track throughout the year while enjoying Formula 1's most captivating and successful race cars from the 1950s to today.

20 Fun Facts About Auto Racing Ryan Nagelhout, 2015-12-15

From the drivers on the track to the fans packing the grandstands, auto racing is a thrilling sport that gets everyone's adrenaline pumping. This book dives into the amazing facts that make up auto racing's greatest stories. Readers will love discovering the history of races like the Indianapolis 500 and Daytona 500, as well as why NASCAR fans call Richard Petty "The King." Fun graphics show the different flags used in a NASCAR race and just how Americans managed to win an auto race driving from New York City to Paris in 1908!
