Circumnavigating the Globe Jr. Perkins, 2009-11
Circumnavigating the Globe highlights international travel in a reality television show competition. This book covers what happened in Amazing Race (AR) 10 to 14 and Amazing Race Asia (ARA) 1 to 3. Many of the analysis chapters also cover AR1 to 9. Included are an Amazing Race Vocabulary and listing of all countries and major cities visited by all amazing races (ARs plus ARAs). There is an analysis chapter on Animals. The author rates the Saddest Elimination of every AR or ARA and Weakest Teams in each AR or ARA. Analyses shows why his Favorite Teams for each AR and ARA merit that distinction and one is selected as the most favorite of all time. The most interesting chapter in this book could be the Most Amazing Moments of each AR and ARA. Following that, every FAST FORWARD ever taken is listed with type of task, the geography and the competition if known. There is a separate classification of all AR teams into categories Female/Female, Male/Male, Couple and Family Relationships with the major reason for elimination listed if that team did not win. There are transportation chapters on travel by air, self-driving, taxis, boats, trains and buses. This book finishes with multiple indexes on Races, Racers, and the most cited Places. If you are a fan of the Amazing Race, this book will help you become a superfan.

Race After Technology Ruha Benjamin,2019-07-09

From everyday apps to complex algorithms, Ruha Benjamin cuts through tech-industry hype to understand how emerging technologies can reinforce White supremacy and deepen social inequity.

Benjamin argues that automation, far from being a sinister story of racist programmers scheming on the dark web, has the potential to hide, speed up, and deepen discrimination while appearing neutral and even benevolent when compared to the racism of a previous era. Presenting the concept of the “New Jim Code,” she shows how a range of discriminatory designs encode inequity by explicitly amplifying racial hierarchies; by ignoring but thereby replicating social divisions; or by aiming to fix racial bias but ultimately doing quite the opposite. Moreover, she makes a compelling case for race itself as a kind of technology, designed to stratify and sanctify social injustice in the architecture of everyday life. This illuminating guide provides conceptual tools for decoding tech promises with sociologically informed skepticism. In doing so, it challenges us to question not only the technologies we are sold but also the ones we ourselves manufacture. Visit the book's free Discussion Guide [here](#).

Cycling On Form Tom Danielson, 2020-04-07 “After training with CINCH for the past three years, I’ve learned the cycling-specific techniques that make me a better rider and racer; healthier and injury-free; and more effective and positive off the bike.” -- Lilburn Shaw, 2018 Masters Road National Champion *Cycling on Form* reveals the pro approach to cycling training. Riding a bike faster takes more than just fitness. It takes skills that you

can master to become a faster, stronger rider. In his new guide, former professional bike racer Tom Danielson shows how to transform your cycling from amateur to professional level with the fitness and time you have now. Danielson reveals how the pros go beyond the modern standards of interval workouts, base-building, and recovery to train the whole athlete, mind and body. Danielson shows how to truly ride and train to the fullest through:

Fitness: Self-tests to identify your riding strengths and weaknesses then focus on custom training to address them. **Mental focus:** The pros know that winning means using your head and your legs. You'll get pro tips on big-picture goal setting and mid-ride concentration strategies to help you stay focused. **Execution:** Cycling is hard and executing a great ride when it matters takes practice. Danielson shares on-the-bike skills, efficient and powerful techniques, strategies to stay in the race, ways to finish with the lead group, and how to excel on a ride you've never done before. **Nutrition:** Pro riders put sports nutrition into daily practice. Danielson distills the facts of diet, food as fuel, and fueling to recover. Too many cyclists train by trying to set new Strava PRs, only to get frustrated by the limited gains. There's a better way. *Cycling On Form* unlocks a pro method for riding faster and stronger.
