Men of the 704 Richard R. Buchanan,1998-01-01

Raid! Richard Baron,2009-04-02 The orders came from Patton himself: Take a strike force behind enemy lines--with no air or ground support--and liberate a POW camp at Hammelburg, where Patton's son-in-law was held. Captain Abe Baum and an armored task force answered the call, crashing through an enemy-held town, plunging into German territory, and fighting their way to Hammelburg. With the German army closing in around them, the raiders kept going, until they had liberated 1,500 prisoners of war. Baum's Raiders had just achieved an impossible objective. Now they had to get back out....*RAID!* Written by the men who were there, *Raid!* is the gripping real-life story of a controversial mission in the heart of World War II. From the belly of a Sherman Tank pelted with enemy fire to the POWs waiting behind barbed wire, this is a thrilling, you-are-there chronicle of human courage--in the face of impossible odds.

The Los Baños Raid E. M. Flanagan,1986

The Raid Benjamin F. Schemmer,1986 On November 21, 1970, the U.S. military launched one of the most controversial operations of the Vietnam conflict ... a daring surprise assault on the dreaded confines of Son Tay Prison Camp, 23 miles outside Hanoi ...--Page 4 of cover.

The Raid from Mars Miles J. Breuer,1939 Raiders come from Mars to steal Earth's radium. In desperate defense, an entire army division is wiped out. Then Swoop Martin, air pilot, volunteers a suicidal attack. Mad doctors and little green men as only a pulp writer can do it! Originally published in the March, 1939 issue of the classic pulp magazine, *Amazing Stories*.

Danger Close Steve Call, 2010-01-15 “America had a secret weapon,” writes Steve Call of the period immediately following September 11, 2001, as planners contemplated the invasion of Afghanistan. This weapon consisted of small teams of Special Forces operatives trained in close air support (CAS) who, in cooperation with the loose federation of Afghan rebels opposed to the Taliban regime, soon began achieving impressive—and unexpected—military victories over Taliban forces and the al-Qaeda terrorists they had sponsored. The astounding success of CAS tactics coupled with ground operations in Afghanistan soon drew the attention of military decision makers and would eventually factor into the planning for another campaign: Operation Iraqi Freedom. But who, exactly, are these air power experts and what is the function of the TACPs (Tactical Air Control Parties) in which they operate? *Danger Close* provides a fascinating look at a dedicated, courageous, innovative, and often misunderstood and misused group of military professionals. Drawing on the gripping first-hand accounts of their battlefield experiences, Steve Call allows the TACPs to speak for themselves. He accompanies their narratives with informed analysis of the development of CAS strategy, including potentially controversial aspects of the interservice rivalries between the air force and the army which have at times complicated and even obstructed the optimal employment of TACP assets. *Danger Close* makes clear, however, that the systematic coordination of air power and ground forces played an invaluable supporting role in the initial military victories in both Afghanistan and Iraq. This first-ever examination of the intense, life-and-death world of the close air support specialist will introduce readers to a crucial but little-known aspect of contemporary warfare and add a needed chapter in American military history studies.

Barce Raid Brendan O'Carroll, 2005-01-01 September 1942: Allied special forces launch

commando operations against several Axis facilities deep behind the lines in Libya, during the build-up to the second battle of El Alamein. Most successful is a swashbuckling, damaging raid on the Italian-held Barce airfield and town, by Kiwi and British members of the Long Range Desert Group. This is an anatomy of that raid, pieced together by LRDG authority Brendan O'Carroll from interviews with participants, official records from both sides in the conflict, and published accounts.

Good Luck Have Fun Roland Li,2017-09-05 Esports is one of the fastest growing—and most cutthroat—industries in the world. A confluence of technology, culture, and determination has made this possible. Players around the world compete for millions of dollars in prize money, and companies like Amazon, Coca Cola, and Intel have invested billions. Esports are now regularly played live on national TV. Hundreds of people have dedicated their lives to gaming, sacrificing their education, relationships, and even their bodies to compete, committing themselves with the same fervor of any professional athlete. In Good Luck Have Fun, author Roland Li talks to some of the biggest names in the business and explores the players, companies, and games that have made it to the new major leagues. Follow Alex Garfield as he builds Evil Geniuses, a modest gaming group in his college dorm, into a global, multimillion-dollar eSports empire. Learn how Brandon Beck and Marc Merrill made League of Legends the world's most successful eSports league and most popular PC game, on track to make over \$1 billion a year. See how Twitch.tv pivoted from a video streaming novelty into a \$1 billion startup on the back of professional gamers. And dive into eSports' dark side: drug abuse, labor troubles, and for each success story, hundreds of people who failed to make it big. With updates on recent developments, Good Luck Have Fun is the essential guide to the rise of an industry and culture

that challenge what we know about sports, games, and competition.
