

Rainbow Tree 10

Jamila Pace

The Rainbow Tree Leon Shargel,2017-09-27 In a small village, there stands a very tall tree, with leaves of many different colors, shapes, and sizes. The Rainbow Trees leaves reflect the sun rays into everyones home and make the villagers happy. But nearby, in small black cottage with a big black fence and black furniture, there lives an old woman, eating black bean soup and dark pumpernickel bread. Everything is dark and gloomy for her, and she is sad and lonely, for no one in the village has visited her for more than one hundred years. One night, when no one is around, the old woman paints the leaves of the Rainbow Tree black, which makes the villagers sad and gloomy. The villagers are afraid of the old woman, but a small boy named Miguel decides to go visit her anyway. Can Miguel find a way to bring back the Rainbow Trees colorsand help the people of the village learn a valuable lesson? In this childrens story, when a lonely old lady paints the leaves of the villages Rainbow Tree black, a little boy pays her a visit and helps the villagers learn the value of kindness.

The Tremendous Tree Book Barbara Brenner,May Garelick,1998 This delightful and informative book takes complex material about trees and pares it down to the basic facts that children can understand and enjoy. Full color.

Planting a Rainbow Lois Ehlert,2003 This educational and enjoyable book helps children understand how to plant bulbs, seeds, and seedlings, and nurture their growth. Lois Ehlert's bold collage illustrations include six pages of staggered width, presenting all the flowers of each color of the rainbow.

Miguel and the Secret Leon Shargel,2020-05-04

Rainbow Crow Nancy Van Laan,1991-07-02 Illus. in full color. This story of how the Rainbow Crow lost his sweet voice and brilliant colors by bringing the gift of fire to the other woodland animals is a Native American legend that will be a fine read-aloud because of the smooth text and songs with repetitive chants. The illustrations, done in a primitive style, create a true sense of the Pennsylvania Lenape Indians and their winters.-- School Library Journal.

Our Magical Rainbow Tree Jamila Pace,2013-11-01 In this story, Ruby and Charlie discover a magical rainbow tree. The children take bark from the tree, which starts to destroy its beauty. The book describes how they begin to fix the tree and concludes by depicting the importance of conservation and sustainability within our own environments. This story invites children into a magical rainforest and at the same time teaches an important life lesson--Synopsis.

Olivia, The Make-Believe Princess Leon Shargel,2019-06-27 Olivia and Miguel live in the village of the Rainbow Tree. Like many young girls, Olivia would like to be a princess. Olivia wonders what it would be like to be a real princess and live in a castle. Miguel suggests that they should visit the old woman who lives in the village. Olivia has never met the old woman and wonders how she should talk to an old person. After school, Miguel takes Olivia to meet the old woman. The old woman tells Olivia that she was a princess and lived in a castle. The old woman said that the castle did not have electricity, did not have computers, did not have the internet and did not have telephones. After visiting the old woman, Olivia wonders whether she truly wants to be a real princess. This story shows that it is easy to talk to older people and that older people can share their knowledge and experience. Additionally, Olivia learns that imagining being a princess might be more fun than being a real princess.

The Leprechaun Who Lost His Rainbow Sean Callahan,2010-09-01 It's raining, and Colleen is sad. How can her grandfather play his bagpipes in the St. Patrick's Day parade? His music is so beautiful it makes people laugh and cry at once. Suddenly, a leprechaun appears before her. He says he can make the sun come out by creating a rainbow - but to build its colors, Colleen must give up the thing she holds most dear. A note at the end explains the science of rainbows and the Roy G. Biv naming tradition.

Weird Plants Brianna Kaiser,2023-08-01 Have you ever seen a carnivorous plant? Plants are everywhere, but some are stranger than others. Journey from the tops of trees to under the sea to discover some of the most perplexing plants around.

Trees of Papua New Guinea Barry J Conn,Kipiro Q Damas,2019-04-10 The island of New Guinea has a high diversity of species and a high level of endemism, containing more than 5 percent of earth’s biodiversity in just over one half of a percent of the land on the earth. New Guinea supports the largest area of mature tropical moist forest in the Asia/Pacific region. Papua New Guinea consists of the eastern part of the island of New Guinea, plus the islands of the Bismarck Archipelago, Buka, and Bougainville. There are between fifteen thousand and twenty thousand species of vascular plants in Papua New Guinea, with at least two thousand species of trees. The most important challenge for Papua New Guinea is the protection of biological diversity against the pressures resulting from global climate change, inappropriate destructive conversion of natural communities, unsustainable exploitation of forests, national economic development and societal demands, including a fair sharing of the nation’s wealth, and law and order issues. There are very few resources available to natural resource managers, environmental scientists, nongovernment agencies, and various extractive industries, most importantly, the timber industry that will assist in the identification of major tree species within Papua New Guinea. It is hoped that the publication of these three volumes will enable those who are responsible for natural resource management to improve their knowledge of the trees in these forests so that they can fully appreciate the richness of these biologically diverse forests. The forests of Papua New Guinea need to be managed sensitively and sustainably based on advanced evidence-based knowledge. The Trees of Papua New Guinea publication provides a comprehensive treatment of 668 species of trees (Volume 1: 257 species; Vol. 2: 246 species; Vol. 3: 165 species) that will assist in the identification of the trees of Papua New Guinea.
