20th-Century Retailing in Downtown Grand Rapids Michael Hauser, Marianne Weldon, 2014-10-27

For decades, downtown Grand Rapids enjoyed a long run in the limelight as the epicenter of shopping in western Michigan. The vibrant Monroe Avenue corridor included three homegrown department stores, several chain department stores, five-and-dime stores, and scores of clothing and specialty retailers. It weathered mother nature, wars, the Great Depression, the advent of neighborhood shopping centers, and civil disturbances—but the one change it could not overcome was the regional shopping mall.

The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Reel Spirituality Robert K. Johnston, 2006-12 A comprehensive study of theology and film that explores how the Christian faith is portrayed in film throughout history.

Beulah Bondi Axel Nissen, 2021-05-12 Best known for her roles in *Mr. Smith Goes to Washington*, *It's a Wonderful Life*, and *Make Way for Tomorrow*, Beulah Bondi (1889-1981) had a 60-year long acting career and an interesting on-screen life. Despite starting her professional acting career at 30, she made her mark on the film industry as a character actress. Before making a name for herself on-screen, she worked at the Stuart Walker stock company and performed on Broadway. This biography is the first to unpack Bondi's life before and throughout her film career. This work also explores Bondi's early family life in Indiana with a Jewish underwear salesman and a Presbyterian poet for parents.

Quick(er) Calculations Trevor Davis Lipscombe, Trevor Lipscombe, 2021 Finalist of the 2022 PROSE Awards How fast can you calculate? Would you like to be faster? This book presents the time honored tricks and tips of calculation, from a fresh perspective, to boost the speed at which you can add -- whether a couple of numbers, or columns so long an accountant may faint. Find out how to subtract, multiply, divide, and find square roots more quickly. What's more, this book gives suggestions for how to find answers that are good enough for tricky tasks like dividing by 17. It includes brand new ways to multiply and divide irrational numbers such as pi, e, the square root of 2, and the golden ratio. It has sections devoted to ancient mathematics, and the techniques we can borrow from previous and other cultures, in order to calculate more quickly. Examples, some serious, some fun, come from everyday life or from history -- like hot dog eating competitions, the Vatican's cricket team, the molecular weight of the molecule with the world's longest name, and the amount of people taken by Henry VIII to arguably history's biggest party, the Field of the Cloth of Gold. In an age of timed multiple-choice questions, the swifter you can sum, or rule out wrong answers, the better you will do. If you love to play with numbers, this book will be recreational reading. And if you ever wonder whether simple arithmetic problems can crop up in everyday life, this book provides a fresh perspective.

Jock Mahoney Gene Freese, 2013-10-17 Iowa-born Jock Mahoney was an elite athlete and U.S. Marines fighter pilot prior to falling into a film career. He is widely considered to be one of the greatest stuntmen in movie history, having taken leaps and bounds for Errol Flynn, John Wayne, Randolph Scott, and Gregory Peck. One of the first stuntmen to successfully move into acting, he was the popular star of the 1950s television westerns *Range Rider* and *Yancy Derringer* and twice played Tarzan on the big screen, presenting a memorable portrayal of an educated, articulate and mature jungle lord true to author Edgar Rice Burroughs' original vision. Filming in real jungles around the world took a physical toll on Mahoney that transformed him from leading man to burly character actor. He had to overcome the effects of a stroke but true to his tough guy nature rose above it to resume his life's many adventures. Mahoney was beloved by fans at conventions and appearances until his untimely demise in 1989 from a stroke-caused motor vehicle accident.

Movies on a Mission Glenn Reynolds,2023-09-25 This investigation into the little-known genre of mission-oriented films uncovers how Protestant missionaries overseas sought to bring back motion picture footage from remote parts of the world. In the broader religious community, mission films aimed to educate congregants back home about efforts to evangelize communities around the world. This book, however, demonstrates the larger impact of mission films on American visual culture. The evolution and development of the genre is highlighted from an early emphasis on foreign views in the 1910s, to interwar films providing a more detailed look at how mission stations functioned in far-flung lands, to Cold War productions which at times functioned as veritable propaganda tools parroting anti-communist discourse emanating from the CIA.
