you want to learn how to type fast? Do you want to learn how to write faster and complete your book, essay, or script in half the time? Wait no longer! It's time to save time, boost productivity, and double your typing speed. This book is neatly organized and will introduce you to the 7 keystones to success. The keystones are the key to learning how to type like a pro. No longer will you have to use the inconvenient 'hunt-and-peck' approach. Here is what you'll learn: - How to set goals - How to choose the right keyboard - How to apply good ergonomics - How to touch type - How to identify and fix bad habits - How to write books 2x faster - Typing for beginners and experts - 35 typing tips and techniques - Enhance your touch typing skills for a lifetime - And much more... Unlike the other guides out there, this book is full of quality material that is often left out in other guides. As an author with 10 years of typing experience, an average typing speed of 128 words per minute, and a volunteer at Typeracer.com, you can be assured you are learning from a reliable source. Additionally, many tips and techniques have been gathered from some of the top typists in the world and various typing forums, all compiled and presented in an easy-to-read chapter. It doesn't matter if you can type 10 words per minute or 100, there will be value in this book for you. Think about this: If you are currently 30 years of age and type at 80 wpm for 2 hours a day 5 days a week until you are 60 years of age, and assuming you type at 40 wpm, you will have saved 325 days of your life. 325 days of your life. If you are younger than 30 or continue typing past the age of

60, even better. Imagine what you could do with all that extra time. Spend more time building your business, bonding with your family and friends and traveling the world. The list is endless. The earlier you learn, the better, but it's never too late. Finally, 3 bonus chapters have been included: 10 answers to questions I'm asked most frequently, how to make money by typing, and a case study on how I went from typing 0 - 125 words per minute and you can too. About the Author Brandon Nankivell was born in the Barossa Valley, South Australia. He is currently pursuing a Bachelor of Information Technology at the University of South Australia and became the Junior World Unicycle Champion in 2010.
