**Mindful Silence** Phileena Heuertz,2018-11-13 Our fast-paced lives are filled with distractions, frequently leaving us disillusioned and dissatisfied—with ourselves, with others, and even with God. Spiritual practices that used to sustain us fall short when life circumstances bring us to the limits of our self. After many years leading an international humanitarian organization, Phileena Heuertz experienced the deconstruction of her identity, worldview, and faith. Centering prayer, a Christian expression of mindfulness, was a crucial remedy for her fragmented condition, offering a more peace-filled and purposeful life. The hallmarks of contemplative spirituality—solitude, silence, and stillness—have never been more important for our society: In solitude, we develop the capacity to be present. In silence, we cultivate the ability to listen. In stillness, we acquire the skill of self-control. Contemplative prayer helps us discern the voice of God, uncover our true self, and live a life of meaning and purpose. Filled with insights and wisdom from personal experiences, Phileena introduces us to themes and teachers of contemplative spirituality, as well as several prayer practices, and invites us to greater healing and wholeness by learning to practice faith through prayer. This is an opportunity to go deeper with God—to experience the Divine and be transformed.

**Clearing the Smoke** Institute of Medicine,Board on Health Promotion and Disease Prevention,Committee to Assess the Science Base for Tobacco Harm Reduction,2001-10-17 Despite overwhelming evidence of tobacco's harmful effects and pressure from anti-smoking advocates, current surveys show that about one-quarter of all adults in the United States are smokers. This audience is the target for a wave of tobacco products and pharmaceuticals that claim to preserve tobacco pleasure while reducing its toxic effects. *Clearing the Smoke* addresses the problems in evaluating whether such products actually do reduce the health risks of tobacco use. Within the context of regulating such products, the committee explores key questions: Does the use of such products decrease exposure to harmful substances in tobacco? Is decreased exposure associated with decreased harm to health? Are there surrogate indicators of harm that could be measured quickly enough for regulation of these products? What are the public health

implications? This book looks at the types of products that could reduce harm and reviews the available evidence for their impact on various forms of cancer and other major ailments. It also recommends approaches to governing these products and tracking their public health effects. With an attitude of healthy skepticism, Clearing the Smoke will be important to health policy makers, public health officials, medical practitioners, manufacturers and marketers of reduced-harm tobacco products, and anyone trying to sort through product claims.

*Making Institutional Repositories Work* Burton B. Callicott, David Scherer, Andrew Wesolek, 2015-11-15 Quickly following what many expected to be a wholesale revolution in library practices, institutional repositories encountered unforeseen problems and a surprising lack of impact. Clunky or cumbersome interfaces, lack of perceived value and use by scholars, fear of copyright infringement, and the like tended to dampen excitement and adoption. This collection of essays, arranged in five thematic sections, is intended to take the pulse of institutional repositories—to see how they have matured and what can be expected from them, as well as introduce what may be the future role of the institutional repository. Making Institutional Repositories Work takes novices as well as seasoned practitioners through the practical and conceptual steps necessary to develop a functioning institutional repository, customized to the needs and culture of the home institution. The first section covers all aspects of system platforms, including hosted and open-source options, big data capabilities and integration, and issues related to discoverability. The second section addresses policy issues, from the basics to open-source and deposit mandates. The third section focuses on recruiting and even creating content. Authors in this section will address the ways that different disciplines tend to have different motivations for deposit, as well as the various ways that institutional repositories can serve as publishing platforms. The fourth section covers assessment and success measures for all involved—librarians, deans, and administrators. The theory and practice of traditional metrics, alt metrics, and peer review receive chapter-length treatment. The fifth section provides case studies that include a boots-on-the-ground perspective of issues raised in the first four sections. By noting trends and potentialities, this final section, authored by Executive Director of SPARC Heather Joseph, makes future predictions and helps managers position institutional repositories to be responsive change and even shape the evolution of scholarly communication.
