Beyond Wilderness John O'Brian, 2007-09-30 The great purpose of landscape art is to make us at home in our own country was the nationalist maxim motivating the Group of Seven's artistic project. The empty landscape paintings of the Group played a significant role in the nationalization of nature in Canada, particularly in the development of ideas about northernness, wilderness, and identity. In this book, John O'Brian and Peter White pick up where the Group of Seven left off. They demonstrate that since the 1960s a growing body of both art and critical writing has looked beyond wilderness to re-imagine landscape in a world of vastly altered political, technological, and environmental circumstances. By emphasizing social relationships, changing identity politics, and issues of colonial power and dispossession contemporary artists have produced landscape art that explores what was absent in the work of their predecessors. *Beyond Wilderness* expands the public understanding of Canadian landscape representation, tracing debates about the place of landscape in Canadian art and the national imagination through the twentieth century to the present. Critical writings from both contemporary and historically significant curators, historians, feminists, media theorists, and cultural critics and exactly reproduced artworks by contemporary and historical artists are brought together in productive dialogue. *Beyond Wilderness* explains why landscape art in Canada had to be reinvented, and what forms the reinvention took. Contributors include Benedict Anderson (Cornell), Grant Arnold (Vancouver Art Gallery), Rebecca Belmore, Jody Berland (York), Eleanor Bond (Concordia), Jonathan Bordo (Trent), Douglas Cole, Marlene Creates, Marcia Crosby (Malaspina), Greg Curnoe, Ann Davis (Nickle Arts Museum), Leslie Dawn (Lethbridge), Shawna Dempsey, Christos Dikeakos, Peter Doig, Rosemary Donegan (OCAD), Stan Douglas, Paterson Ewen, Robert Fones, Northrop Frye, Robert Fulford, General Idea, Rodney Graham, Reesa Greenberg, Gu Xiong (British Columbia), Cole Harris (British Columbia), Richard William Hill (Middlesex), Robert Houle, Andrew Hunter (Waterloo), Lynda Jessup (Queen's), Zacharias Kunuk (Igloolik Isuma Productions), Johanne Lamoureux (Montreal), Robert Linsley (Waterloo), Barry Lord (Lord Cultural Resources), Marshall McLuhan, Mike MacDonald, Liz Magor (ECIAD), Lorri Millan, Gerta Moray (Guelph), Roald Nasgaard (Florida State), N.E. U.S. Marines In Vietnam: An Expanding War, 1966 Dr. Jack Shulimson, 2016-08-09 This is the third volume in an operational and chronological

series covering the Marine Corps' participation in the Vietnam War. This particular volume details the continued build-up in 1966 of the III Marine Amphibious Force in South Vietnam's northernmost corps area, I Corps, and the accelerated tempo of fighting during the year—the result being an “expanding war.” Although written from the perspective of III MAF and the ground war in I Corps, the volume treats the activities of Marine advisors to the South Vietnamese Armed Forces, the Seventh Fleet Special Landing Force, and Marines on the staff of the U.S. Military Assistance Command, Vietnam, in Saigon. There are separate chapters on Marine air, artillery, and logistics. An attempt has been made to place the Marine role in relation to the overall effort.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, *U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era*.

Leading Strategy Execution Suresh Mistry,Christine Antunes,Christophe Korda,Philippe Korda,2010-05-03 Leading Strategy Execution demonstrates to senior executives ways in which they can successfully enthuse their employees so that they willingly implement essential company strategies. Having a good strategy isn't enough to guarantee a company's success - executives and managers need to ensure that their strategies are implemented correctly throughout the company, and that all staff are on board. The book is divided into three sections: 1.Energy of Engagement: This section demonstrates how to engage and energise your employees so that they really want to implement your strategy, and so that they accept their role and contribution towards making the strategy a success. 2.Energy of Change: This section illustrates ways in which executives can persuade employees to alter their habits, which may have been reinforced over a number of years by business processes and systems. Managers will learn how to give staff the exact skills and confidence needed to apply the new ways of thinking that are required to turn today's new strategy into tomorrow's business culture. 3.Energy of Management: This section reveals to executives how to energise and employ the middle managers within the business. This book will explain how to ensure that the middle managers are focused on the execution of crucial company strategies, so that they become ambassadors of change rather than instruments of inertia. Including tools, 'how to' checklists and real life examples, Leading Strategy Execution is an accessible title for busy executives, which takes a practical and light approach to the topic of strategy execution through employee engagement.

Rescue Pilot Jerry Grayson,2015-03-12 Jerry Grayson is an ordinary man who chose an extraordinary career. At age 17 he became the youngest helicopter pilot to ever serve in the Royal Navy. By age 25 he was the most decorated peacetime naval pilot in history. For the Navy's Search and Rescue pilots, getting to work is both an adventure and an ordeal. Whether rescuing a wounded fighter pilot who has ditched in the sea, saving desperate survivors from a sinking ship, or picking up a grievously ill crewman from the deck of a nuclear-armed submarine that is playing a cat-and-mouse game with the Soviet navy, Jerry Grayson has lived a life of unparalleled excitement and adventure. His finest hour came during the infamous Fastnet Yacht Race of 1979 in which 25 yachts were lost. When a catastrophic storm enveloped the competitors he and his crew pushed their Wessex helicopter to its absolute limits and put their own lives at risk, flying into hurricane-force winds to winch shipwrecked sailors from heaving tempestuous seas. An investiture at Buckingham Palace with Her Majesty the Queen was the result. Being a Rescue Pilot is a fast-paced career because there is no choice. Lives are at stake and pilots must move and think fast. Jerry Grayson's inside view of this heroic service is as inspirational as it is celebratory. Excitingly told, frequently funny but also very poignant, Jerry's story is not an account of just one man's deeds, it is a salute to all the men and women he worked with who were able to turn tragedies into triumphs. Includes a Foreword by HRH The Duke of York, Prince Andrew, Commodore-in-Chief of the Fleet Air Arm.

Digital Design Theory Helen Armstrong,2016-06-28 Digital Design Theory bridges the gap between the discourse of print design and interactive experience by examining the impact of computation on the field of design. As graphic design moves from the creation of closed, static objects to the development of open, interactive frameworks, designers seek to understand their own rapidly shifting profession. Helen Armstrong's carefully curated introduction to groundbreaking primary texts, from the 1960s to the present, provides the background necessary for an understanding of digital design vocabulary and thought. Accessible essays from designers and programmers are by influential figures such as Ladislav Sutnar, Bruno Munari, Wim Crouwel, Sol LeWitt, Muriel Cooper, Zuzana Licko, Rudy VanderLans, John Maeda, Paola Antonelli, Luna

Maurer, and Keetra Dean Dixon. Their topics range from graphic design's fascination with programmatic design, to early strivings for an authentic digital aesthetic, to the move from object-based design and to experience-based design. Accompanying commentary assesses the relevance of each excerpt to the working and intellectual life of designers.
