Jigsaw Puzzle Politics in the Sunshine State Seth C. McKee, 2015-08-11 Redrawing district lines is arguably the most polarizing of political activities in the United States today. As technological developments permit more and more sophisticated statistical analyses, those in charge of the process are more tempted to gerrymander districts for their own future benefit. At the same time, as this data is made available to the public, litigation and calls for transparency intensify. As a bellwether state, Florida offers a unique and fascinating case study to examine the various effects of redistricting. The contributors to this volume examine the issue from the perspectives of both politicians and voters, exploring the process of redistricting as well as the homogenization of districts. They examine new and ongoing controversies, including the creation of disparate pockets of opponents' voting blocs, by focusing on the massive 2012 boundary changes throughout the state--and the judicial review that called into question their legality on the eve of the 2014 elections.

Playing with Maps: Cartographic Games in Western Culture Adrian Seville, Thierry Depaulis, Geert H. Bekkering, 2023-07-31 This is the first serious book wholly devoted to games based on maps. The authors are experts in their respective fields: board games, playing cards and dissected puzzles. They bring an informed historical approach to the development and diffusion of these games up to about the beginning of the twentieth century, including games from Western Europe and America in all their intriguing variety. This book is an essential reference source for those wishing to research this neglected area, while those new to the field will be pleasantly surprised at the interesting and unusual maps that these games exploit.

Stacey's Movie (The Baby-Sitters Club #130) Ann M.

Martin,2015-11-24 As part of her exciting film course, Stacey is making a documentary about teen life in Stoneybrook. The movie creates a conflict with friendships when Stacey pursues tell-all interviews with her friends and enemies.

Fables (2002-) #130 Bill Willingham, In a special stand-alone tale, here comes June Bug, the fan-favorite Fable whose parents are Rodney and June, the Adversary's wooden soldiers that became human.

Sign Studies and Semioethics Susan Petrilli,2014-10-09 This book examines the issues surrounding the problematic perpetuation of dominant sign systems through the framework of 'semioethics'. Semioethics is concerned with using semiotics as a powerful tool to critique the status quo and move beyond the reproduction of the dominant order of communication. The aim is to present semioethics as a method to engage semiotics in an active rethink of our ability as humans to affect change.

Global Studies Research Pamela A. Zeiser,2019-07-16 Global Studies Research is a research methods textbook designed for interdisciplinary International Studies majors and their faculty. The textbook introduces interdisciplinarity, provides basic building blocks of relevant disciplinary knowledge, explains a process for integrating knowledge from multiple disciplines, and models this interdisciplinary International Studies Research Process in its presentation of the case studies.

Why Are Our Pictures Puzzles? James Elkins,2004-11-23 With bracing clarity, James Elkins explores why images are taken to be more intricate and hard to describe in the twentieth century than they had been in any previous century. *Why Are Our Pictures Puzzles?* uses three models to understand the kinds of

complex meaning that pictures are thought to possess: the affinity between the meanings of paintings and jigsaw-puzzles; the contemporary interest in ambiguity and 'levels of meaning'; and the penchant many have to interpret pictures by finding images hidden within them. Elkins explores a wide variety of examples, from the figures hidden in Renaissance paintings to Salvador Dali's paranoiac meditations on Millet's Angelus, from Persian miniature paintings to jigsaw-puzzles. He also examines some of the most vexed works in history, including Watteau's meaningless paintings, Michelangelo's Sistine Ceiling, and Leonardo's Last Supper.

Your Handwriting Can Change Your Life Vimala Rodgers, 2013-04-16 When we purposefully change our handwriting, we introduce attitudes that can improve our relationships, give us the impetus to achieve and take risks, and simply bring out the best in us. This is because our handwriting is a reflection of our innermost thoughts and feelings. When we fall in love, survive a serious illness, or change careers, our view of life is dramatically altered and, as a result, our handwriting patterns change. Conversely, desired transformations can result from intentionally changing the way specific letters are written: * Stick to that diet by changing the letter T. * Avoid being overlooked for that well-deserved promotion by changing the letter G. * Reduce stress and cease juggling too many things at once by changing the letter S. * Overcome shyness or stage fright by changing the letter A. Included is an enlightening assessment test that identifies those personality traits requiring attention. **Your Handwriting Can Change Your Life** profoundly reveals that the key to making dreams come true is as simple as putting pen to paper.

The New Advertising [2 volumes] Valerie K.

Jones, Ruth E. Brown Ph.D., Ming Wang, 2016-09-19 The era of big data has revolutionized many industries—including advertising. This is a valuable resource that supplies current, authoritative, and inspiring information about—and examples of—current and forward-looking theories and practices in advertising. *The New Advertising: Branding, Content, and Consumer Relationships in the Data-Driven Social Media Era* supplies a breadth of information on the theories and practices of new advertising, from its origins nearly a quarter of a century ago, through its evolution, to current uses with an eye to the future. Unlike most other books that focus on one niche topic, this two-volume set investigates the overall discipline of advertising in the modern context. It sheds light on significant areas of change against the backdrop of digital data collection and use. The key topics of branding, content, interaction, engagement, big data, and measurement are addressed from multiple perspectives. With contributions from experts in academia as well as the advertising and marketing industries, this unique set is an indispensable resource that is focused specifically on new approaches to and forms of advertising. Readers will gain an understanding of the distinct shifts that have taken place in advertising. They will be able to build their knowledge on frameworks for navigating and capitalizing on today's fragmented, consumer-focused, digital media landscape, and they will be prepared for what the future of advertising will likely bring.

Inclusion, Play and Empathy Susan Hart, 2016-09-21 Contributions from early childhood educators, teachers, psychologists, music therapists, occupational therapists, and psychotherapists highlight the crucial role that early relationships and interactions in group settings play in the development of children's personal, emotional and social

skills. The book features the latest research and methods for successfully encouraging the development of these skills in groups of children aged 4-12. It explores how play within children's groups can be facilitated in order to foster emotional and empathic capacities, how to overcome common challenges to inclusion in schools and introduces practical, creative approaches to cultivating a sense of unity and team spirit in children's groups.

That Empty Feeling Terry P. Arentowicz, 2013-12-06 That Empty Feeling is the true story of a desperate rescue attempt launched into the Truong Son Mountain range in Laos, Southeast Asia. The year was 1967 and the mission to search for, return and recover an American led reconnaissance patrol (9 men) that had been secretly ordered to monitor any activity North Vietnam was

conducting on or near the Ho Chi Minh Trail. The patrol had been compromised soon after their helicopter insertion into neutral Laos. The primary agency charged with the search and rescue mission (S.A.R.) was a little known cousin of the CIA and was in fact financed by that group. SOG, or studies and observation group, was a Special Forces Green Beret led and trained project. The Special Forces bolstered their patrols with trained mercenaries, in this case soldiers with Cambodian roots. During the course of the rescue mission the Special Forces were joined by U.S. Air Force assets, Vietnamese air assets (V.N.A.F.), U.S. Army helicopters and U.S.M.C. attack helicopters. This combined force was unique and made for a complex and complicated mission. Both American air and ground units were opposed by a well-trained and numerically superior North Vietnamese Army dedicated to eliminating all opposition on or near the Ho Chi Minh Trail. The two adversaries locked horns and neither could disengage. At one point the American rescue team needed to be rescued. Acts of heroism resulted in many awards being bestowed including the Congressional Medal of Honor, Purple Hearts, Air Force Crosses, Silver Stars and more. The American public was never made privy to the circumstances of U.S. deaths and injuries. Families of the American casualties in Laos and Cambodia were either lied to or misled. Much information regarding American activity in Laos and Cambodia was purposely destroyed prior to the conclusion of the war. SOG participants and those that supported SOG agreed to be interviewed by the author and provided many hours of anecdotes from their memories. These interviews provided the basis for *That Empty Feeling*. Green Beret officers, army sergeants, highly educated U.S.A.F. pilots and others shared their personal views and opinions concerning their participation in the

mission. In addition, many indicated they had struggled with the effects the mission had on their psyche and the inability they had to come to grips with both their heroism and their failure to completely win the day. (Surprisingly several recalled humorous events and conversations that occurred under the most stressful situations.) Remains of those not recovered despite several opportunities by combatants and recent forensic attempts remain somewhere in Laos on the battlefield and unlikely to ever be returned. The book had no clear cut winner or loser, just the reflections of those that saw this as the source of emptiness.

A Death In Korea Steve Crews, 2012-12-21 This is a true story that is both tragic and bizarre. It's tragic because a young twenty-two-year-old serviceman, married and with an infant son back home, died in Korea during the Korean War. It's bizarre because a fellow serviceman with whom he'd been stationed at two different locations was one of the witnesses at the shooting that took his life. Then that witness later married the man's widow and adopted his son. Even though they had a church wedding, nobody from either family showed up. Very unusual. Exactly twenty years to the day after the young serviceman died in Korea, his twenty-year-old son had a near-death experience in Vietnam. The son grew up not knowing his biological father's name, his branch of service, how, when, or where he died, or what he looked like, until he was almost fifty-eight years old. Then fate stepped in and provided him with a reason to investigate into the past. What he found out will astound you as much as it did him.

The Caregiver's Survival Handbook Alexis Abramson, Mary Anne Dunkin, 2004 A practical handbook for women confronting the problems of caring for an aging parent explains how to deal with the changing parent/child

roles, foster aging parents' independence, get help from other family members, find time for oneself, and balance work, family, and caregiving responsibilities. Original.
