The 10xroi Trading System L R Thomas,2014-01-01 If you are fed up with trading systems that promise the earth and fail to deliver then The 10XROI Trading System will not disappoint. The leading foreign exchange broker conducted a study that found that winning traders had something in common. Their wins were much larger than their losses. Many trading systems are designed to have lots of wins but that doesn't make them profitable, they just appeal to the Holy Grail seeker who is looking for a trading system that never loses. By trading a high probability system that gives a very large risk reward ratio like The 10XROI Trading system, you will automatically have a much higher chance of actually making a profit in the Forex markets. Written by a trader with over eight years' experience in trading foreign currencies, this book is written in an easy to comprehend style with lots of illustrations and trading examples to help clarify each part of the system. The system is simple and easy to follow and takes up a very small amount of time as it uses the daily and hourly time frames. This makes it easy to trade around most jobs. Most importantly it explains every part of the system including the correct trading psychology and money management which most systems leave out. This is a typical review from a student. I recommend the 10XROI Trading System book for novice traders & experienced traders. This is a forex system combined with perfect money management that makes it incredible. This is a must book for every forex trader. Bankim Vaidya

Forex Day Trading Millionaire : Escape 9-5,Live Anywhere, Join the New Rich Traders Love It Trader X,2013-01-25 Forex trading is not all it is cracked up to be. The picture painted by the gurus and the brokers has only one side, a pink one, and is missing the real feeling and pain that a average retail trader goes through until a success is reached. I can feel the pain in the Forex Community and the purpose of this book is to even out the planes.Here is what you can expect to learn and master after practicing the concepts in this book. • Learn to move with the winners and tailgate on their profits(this strategy alone is worth the 10 bucks, actually in my opinion priceless, but its up for bid) • How to avoid and react to The Little Dirty Tricks of your broker (brokers are very creative when it comes to squatting your money) • The little known but simple strategies of the successful Forex traders (I don't see anybody teaching this) • What are the best times to trade (these don't match your breakfast and afternoon nap times, but are crazy profitable) • The best ways to trade any strategy(this little detail can make or break your trading record, read about it on page 89) • Most important and little known price levels, that deliver profits at any currency pair. (Learn, practice and apply the should be illegal strategy and you will turn your trading on a malfunctioning cash machine that spits dough every time you kick it) • How to profit from Weird Crowd Psychology(when used as suggested in the book this one is a massive cash puller, I can even misspell it as pooler and ti still will be correct) • The one, little known way to enter the Forex market and have the price guaranteed to move your direction. (I know you think I've lost my mind, but this is real) • The well guarded price action strategies of the Forex Banks and Foreign institutions. (no one gave you this video game for Christmas, but the banks have it and you will learn to play it without looking at their screens) • How not to use price action and when to be cautious about pulling the trigger, if a price approaches a certain deadly level. (keep your money in a dry and safe place or if you don't have this info your stash will be swimming in the drain) • Which are the favorite price patterns of the experienced traders • How to avoid having spread slips of as much of a 100 pips, and have your profit and account swallowed by your broker(most of the retail traders have no clue, what I am speaking about) • What are the most important factors, observed religiously by all the shakers and movers, and how not to break the rules of alliance that can cost you your account.(the Forex 10 commandments) • What are the sneaky falls break outs, practiced by the most of the platforms and how to fight the FOREX BOTS. • Strange practices of your broker, that causes your stops to be hit before your entries(this is a must know before you open a account with any platform)The above strategies and lessons are not lessons from a book or science projects. These are the hard earned lessons from the Forex School of hard knocks.During the years I have met, and traded with and chat in expensive paid forums, with multitude of successful traders.This book is what I find to be the essential and most important material you will ever need, to trade Forex Market.Learn and master the strategies of the winners and become a winner. On the other hand you can spent countless of hours and thousands of dollars, staring at your screen, until your eyes leak out and still not come to the priceless lessons in this book. See learning ineffective strategies and studying the so called gurus is like Playing the The Three Dog Night on an eight track with the bell bottoms on If the previous sentence didn't make any sense to you, its OK, I understand, it just means you are a young pop. But..Make yourself a favor and invest in your education and buy this book.Push few buttons and jump on, to your new reality, of turquoise blue waters and sandy beaches.You are just a couple of mouse clicks away.See you on the other side

Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading if you know where I am coming from... Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. How to Get Rich from Trading Josef Argent,2018-01-03 New people getting into financial market trading most of the time have not done their research and have no idea they are entering a business where there are people in the live market who will walk over dead bodies to make money. They are entering a business where the smart money in the business are looking to drain your trading capital account on a daily basis and most of the time they do because new people come into the business unprepared or at best under prepared as well as underfunded and have not developed a trading edge before they enter the market with real money. How to get Rich from Trading is meant to expedite your learning curve which can sometimes be long and costly. You can Google this or that information however it would take you many years to learn what I am going to tell you in this book before you could invest any of your hard earned real money in the live markets and have a chance making real money trading in the financial markets of the world and some of the information in the book is specific to it and can't be found anywhere else. The best part about the method of trading in this book is that it can be used in any tradable liquid market on any time frame you wish to work in and anyone can learn it fast and make money right away with once they master learning how to use it properly. How to get Rich from Trading gives you the first steps needed to end up in the group of traders that achieves consistent low risk profits on a daily basis, the professionals and the smart money. If you are not ready to take that step yet then you may end up part of the group called the sheeple of the herd that provides those profits and make up the 97% of traders who lose all of their money from not being prepared to work in this brutal and harsh business. While that may seem like a harsh statement, I think it's important to point out the a few of the harshest realities of how the markets work right up front, so you know what's at stake when your hard-earned money is at risk in the live market, it is the sole purpose of this book. Ask yourself this question: do I want to be the one who pays or do I want to be the one who gets paid.

The Holy Grail Trading System James Windsor,2013-05-28 The true story of a 100% mechanical Forex* trading system that returned over 1000% inside 13 months taking a starting bank of 10,000 GBP to over 100,000 GBP The title of the book is a bold one. To be the ultimate 'Holy Grail' trading system it would have the ability to automatically trade and have zero discretion. In short, a 100% mechanical system in which the person trading with it does not matter, the result will be the same. It would be a currency trading system that does not care if you are having a bad day, are on holiday or if you have had an argument with your partner in the last hour. The entries, exits, trailing stops and money management must have no user input whatsoever. All the user has to do is switch it on and wait. The forum boards of the internet are full of people searching for this ultimate trading system.
