The RDS Forex System Michael Radkay, Stephanie Radkav.2012-02-27 Inside a unique system that allows you to identify and trade key turning points in the forex market The financial markets are in a constant state of affirming, breaking, and developing new support and resistance areas. Traders use a variety of methods to project support and resistance points based on past price action. However, the question of whether those areas will hold or break in real time is a much more difficult calculation. In The RDS Forex System, former pit trader Michael Radkay provides forex traders with a unique system for identifying support and resistance zones in the foreign currency market and developing profitable trading strategies around those zones. The system uses market volatility, momentum, and chart patterns to calculate support and resistance zones. As prices reach a specific zone objective, trading strategies are put in place to profit from the next movement. The book will show how this system gives traders a continuous sense of the market's directional bias, identifies potential turning points, and recommends levels to take profits off the table. Highlights the Rotating Directional System (RDS), a computer-based, longer-term application of the methodology used

by many successful pit traders Discusses how to use a variety of indicators to identify support and resistance areas Reveals strategies employed to profit from market swings The RDS Forex System is an ideal guide for retail traders actively involved in the forex market.

## Forex Range Trading with Price Action Laurentiu

Damir, 2017-09-07 Note: This material includes the 50 pips a day forex trading strategy Forex Range Trading With Price Action Lucrative price action range trading system with 95% rate of success Timeframes - 1 hours and 4 hours If you trade with the trend like the majority of traders out there, then you probably know by now that following the trend and jumping in the market when a good opportunity shows itself represents the safest and most lucrative approach a trader can have if he wants to be successful. However, most of the times, a problem appears when the trend pauses and the market starts to move sideways, causing so many trend following traders to lose most or all of their previous hard earned profits. This book presents a complete forex trading system for trading a range bound market. It goes from explaining how to spot in time that price is about to develop a trading range, to managing your stop loss levels and exiting the trade. This is all done just by reading the price action, this system does not include any technical indicators. You will learn how to recognize early the shift from trending to sideways movement that will keep you away from losing trades. You will learn how to identify a range early and trade it successfully, with clear entry, stop loss, exit levels and with

very good risk reward ratio.

The 10xroi Trading System L R Thomas, 2014-01-01 If you are fed up with trading systems that promise the earth and fail to deliver then The 10XROI Trading System will not disappoint. The leading foreign exchange broker conducted a study that found that winning traders had something in common. Their wins were much larger than their losses. Many trading systems are designed to have lots of wins but that doesn't make them profitable, they just appeal to the Holy Grail seeker who is looking for a trading system that never loses. By trading a high probability system that gives a very large risk reward ratio like The 10XROI Trading system, you will automatically have a much higher chance of actually making a profit in the Forex markets. Written by a trader with over eight years' experience in trading foreign currencies, this book is written in an easy to comprehend style with lots of illustrations and trading examples to help clarify each part of the system. The system is simple and easy to follow and takes up a very small amount of time as it uses the daily and hourly time frames. This makes it easy to trade around most jobs. Most importantly it explains every part of the system including the correct trading psychology and money management which most systems leave out. This is a

typical review from a student. I recommend the 10XROI Trading System book for novice traders & experienced traders. This is a forex system combined with perfect money management that makes it incredible. This is a must book for every forex trader. Bankim Vaidya

Forex Trade System: Little Dirty Secrets and Unknown Forgotten But Surprisingly Profitable Tricks to Easy Instant Forex Millionaire Trader X,2015-01-04 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like

you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k, how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he

was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market

lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?

Trading Code Is Open: ST Patterns of the Forex and Futures Exchanges, 100% Profit Per Month, Proven Market Strategy, Robots, Scripts, Alerts Vladimir Poltoratskiy,2017-05-12 The new system of trade--based on structural target patterns (ST

patterns(tm))--presented in this book is able to bring a monthly profit equal to 100% or more (on average) of the deposit amount. To be successful in today's Forex and Futures markets, most of the knowledge and trading techniques accumulated over the last two centuries are not needed at all. The technical portion of a profitable trading system only needs to include the ST patterns method. This method of assessing market movements by using target models gives traders clear and unambiguous signals regarding their actions in the present moment. The graphic figures presented here build upon each other iteratively to create a clear picture of market conditions. Unlike the claims of the most popular technical and fundamental analysis methods, the trading system in this book does not predict market behavior. I no longer need any predictions about prices because their movements have become obvious to me. Following the ST patterns method, managing trading positions becomes simple. It took me many years to establish and improve this trading system, and now it is ready to be used by you. I believe that, at the very least, this book can save traders' time and money. You can spend a whole lifetime in search of the Holy Grail, but it is possible to solve the problems associated with trading in just a few days. The present determines the future!

Opportunities to use ST patterns are included in the free preview of the first pages of this book.

Forex Trading Systems: Underground Shocking Secrets and Weird Should Be Illegal But Profitable Tricks to Easy Instant Forex Millionaire with Forex System Trader X,2015-05-21 If you are like me, I think you should be 'slapped'... HARD! Recently a very gifted and talented traderreached out to me, took me by the collar, looked me straight in the eye, and then slapped me hard! Like a painful 5 finger slap. Not really, but it sure felt like that. Actually you can still see the five fingers pattern on my face almost... What I'm trying to say is that even Trader X can learn a couple of new tricks. Tricky tricky. So actually I got five new tricks for you one for every finger that was slapped on my face. Well, you may as well call it the new face of TRADING. Here we go. Are you ready? WORING! The content shared here may cause you to become extremely filthy rich and glamorously famous. If these two conditions are severely dangerous for you DO not proceed beyond this point. Further after reading and applying these concept a strange items may appear in your driveway (think Ferraris and Lambos) If you are highly allergic to any of these items or money and fame make you puke I would highly suggest going to you know where before we can continue. 1.
