Kearny's Immigrant Heritage Barbara Krasner,2003 Kearny has been and continues to be an icon of multiculturalism. Kearny's Immigrant Heritage traces the waves of immigrants who began to populate the town in 1875, when Clark Thread (now Coats & Clark) of Paisley, Scotland, opened two mills here and encouraged workers to immigrate. Swedes arrived in the Arlington section of Kearny as early as 1880, drawn by employment opportunities at the Celluloid Works and other nearby industries. Lithuanians came by 1895, resulting in Our Lady of Sorrows Church, the parish school, the Schuyler Savings Bank, and the Lithuanian Catholic Community Center. Italians from Calabria and Naples and Jewish families from Eastern Europe operated the local shops that lined Kearny and Midland Avenues and Elm Street. Japanese families settled in the Arlington neighborhood before 1917.

**Interconnected Networks** Antonios Garas,2016-02-04 This volume provides an introduction to and overview of the emerging field of interconnected networks

which include multilayer or multiplex networks, as well as networks of networks. Such networks present structural and dynamical features quite different from those observed in isolated networks. The presence of links between different networks or layers of a network typically alters the way such interconnected networks behave – understanding the role of interconnecting links is therefore a crucial step towards a more accurate description of real-world systems. While examples of such dissimilar properties are becoming more abundant – for example regarding diffusion, robustness and competition – the root of such differences remains to be elucidated. Each chapter in this topical collection is self-contained and can be read on its own, thus making it also suitable as reference for experienced researchers wishing to focus on a particular topic.
