Jadoo John A. Keel, 2013 Someone, we know not who, once called *Jadoo* the greatest book ever written on the black magic of the Orient. But we do know that there will never again be another book like it. *Jadoo*, a Hindi word meaning Black Magic, captures a world that is now lost to us--the strange, dark, mysterious world that was once called the Orient. This story of a real-life Indiana Jones of the 1950s named John Keel contains everything but a trip to Venus in a flying saucer--a subject our newsman/explorer would become famous for a decade later. In Egypt, the fearless Keel was cursed by a mummy and befriended members of a strange snake-charming cult. In Iraq, he played Russian roulette with a notorious desert bandit and lived among the Yezidi devil-worshippers. Later, in India, he was buried alive and discovered the secret of the Indian rope trick, which he then performed for incredulous reporters in New Delhi. And in a riveting finale, he chased the Abominable Snowman through the little known Himalayan kingdom of Sikkim before being unceremoniously booted out of Singapore for being an undesirable alien. This new edition contains material never before published. One of the most traveled and imaginative raconteurs since Baron Munchausen. -- San Francisco Examiner Here is a fireside adventure with a chill in it. -- Buffalo Evening News A fabulous tour of Egypt, the Middle East, India, and Tibet. -- Hartford Times ... a combination of cliff-hanging experiences with serious probing for the bizarre, the secretive, and the enigmatic. -- Kirkus

The Speed Traders: An Insider's Look at the New High-Frequency Trading Phenomenon That is Transforming the Investing World Edgar Perez, 2011-05-06
The secrets of high-frequency trading revealed! "Edgar's book is fantastic . . . I recommend it highly." –Bart Chilton, Commissioner, United States Commodity Futures Trading Commission (CFTC) "I have interviewed the most successful high-frequency traders in New York and Chicago, but I have learned so much more by reading Perez's book. He covers the most relevant topics we need to know today and tomorrow." –Mark Abeshouse, Chairman, Augustus Capital
"Alternating between an annotated timeline of the development of high-frequency trading and interviews with top high-frequency traders, Perez illuminates the world of speed. All in all, an enlightening book." –Brenda Jubin, contributor to Seeking Alpha "This is a comprehensive and compelling summary of the trading industry in general, as well as high-frequency trading. If you are interested in this field or of knowing a critical component of all future markets—read this book." –Paul Dowding, Managing Director, Meridian Equity Partners "Very timely, covers the 2010 Flash Crash and the current high-frequency trading environment." –Patrick Sweeney, Vice President, JP Morgan Chase "There is a new day in trading and speed is the key. Edgar Perez is the poster child." –Eugene Steele, Managing Partner, Trading Rooms World Wide
About the Book: High-frequency traders have been called many things—from masters of the universe and market pioneers to exploiters, computer geeks, and even predators. Everyone in the business of

investing has an opinion of speed traders, but how many really understand how they operate? The shadow people of the investing world, today's high-frequency traders have decidedly kept a low profile—until now. In *The Speed Traders*, Edgar Perez, founder of the prestigious business networking community Golden Networking, opens the door to the secretive world of high-frequency trading (HFT). Inside, prominent figures of HFT drop their guard and speak with unprecedented candidness about their trade. Perez begins with an overview of computerized trading, which formally began on February 8, 1971, when NASDAQ launched the world's first electronic market with 2,500 over-the-counter stocks and which has evolved into the present-day practice of making multiple trades in a matter of microseconds. He then picks the brains of today's top players. Manoj Narang (Tradeworx), Peter van Kleef (Lakeview Arbitrage), and Aaron Lebovitz (Infinium Capital Management) are just a few of the luminaries who decided to break their silence and speak openly to Perez. Virtually all of the expertise available from the world of speed trading is packed into these pages. You'll get insight from HFT's most influential trailblazers on the important issues, including: The basics of launching an HFT platform The important role speed traders play in providing market liquidity The real story behind the "flash crash" of May 2010 Emerging global HFT markets M&A and consolidation among the world's biggest exchanges *The Speed Traders* is the most comprehensive, revealing work available on the most important development in trading in generations. High-frequency trading will no doubt play an ever larger role as computer technology advances and the global exchanges embrace fast electronic access. Essential reading for regulators and investors alike, *The Speed Traders* explains everything there is to know about how today's high-frequency traders make millions—one cent at

a time.
