*The Three Wars of Lt. Gen. George E. Stratemeyer* George E. Stratemeyer, 1999  
In this volume, we examine the challenges and opportunities created by global migration at the start of the 21st century. Our focus extends beyond economic impact to questions of international law, human rights, and social and political incorporation. We examine immigrant outcomes and policy questions at the global, national, and local levels. Our primary purpose is to connect ethical, legal, and social science scholarship from a variety of disciplines in order to raise questions and generate new insights regarding patterns of migration and the design of useful policy. While the book incorporates studies of the evolution of immigration law globally and over the very long term, as well as considerations of the magnitude and determinants of immigrant flows at the global level, it places particular emphasis on the growth of immigration to the United States in the 1990s and early 2000s and provides new insights on the complex relationships between federal and state politics and regulation, popular misconceptions about the economic and social impacts of immigration, and the status of 'undocumented' immigrants.

The United States Air Force and Humanitarian Airlift Operations 1947-1994  
,1998 Humanitarian airlift is a U.S. tradition older than the U.S. Air Force. It is almost as old as military aviation itself. Just twelve years after the establishment in 1907 of the Signal Corps' Aeronautical Division, the airplane became an instrument of disaster relief. Humanitarian airlift missions continued through the Roaring Twenties and the Great Depression. Even the vast commitments of World War II did not halt humanitarian airlifts by the U.S. military. The USAF continued the relief airlift tradition during the Cold War and beyond, conducting about 560 relief airlifts in the years between its establishment in 1947 as an independent service and 1994.
