Pathway to Recovery John Martin, 2020-11-16 This book was written to provide the person struggling with addiction, a Bible-based and God-focused program of recovery. This is a collection of 42 daily devotionals based on Biblical concepts and teachings. The book is broken down into six sections with seven devotionals in each section. Each section deals with one aspect of faith that will help the person struggling with addiction to achieve and maintain sobriety. The six areas of faith covered in this book include: reconciliation, repentance, faith, God's armor, seeking shelter, and running the race. Once the reader completes the 42 daily devotionals, the reader will have compiled 42 verses that form the beginning of a recovery toolbox. These verses are the verses that I have found to be most useful in my recovery journey. These verses are just the beginning. The toolbox will grow over time, but these verses are the verses I have found the most useful during my recovery.

*Midlife Eating Disorders* Cynthia M. Bulik, Ph.D., 2013-03-12 In most people's minds, eating disorder (ED) conjures images of a thin, white, upper-middle-class teenage girl. The ED landscape has changed. Countless men and women in midlife and beyond, from all ethnic backgrounds, also struggle with anorexia nervosa, bulimia nervosa, purging disorder, and binge eating disorder. Some people have suffered since youth; others relapsed in midlife, often after a stressor such as infidelity, divorce, death of a loved one, menopause, or unemployment. Still others experience eating disorder symptoms for the first time in midlife. Primary care physicians, ob-gyns, and other practitioners may overlook these disorders in adults or, even worse, demean them for not having outgrown these adolescent problems. Treatments for adults must acknowledge and address the unique challenges faced by those middle-aged or older. *Midlife Eating Disorders*-a landmark book-guides adults in understanding Why me? and Why now? It shows a connection between the rise in midlife ED and certain industries that foster discontent with the natural aging process. It also gives readers renewed hope by explaining how to overcome symptoms and access resources and support.

Renowned eating disorder specialist Cynthia M. Bulik, Ph.D., helps partners and family members develop compassion for those who suffer with ED-and helps health professionals appreciate the nuances associated with detecting and treating midlife eating disorders.

**Developing Competencies for Recovery** Sandra Rasmussen, 2022-11-15 Developing Competencies for Recovery aims to help people struggling with addiction realize recovery by

developing core competencies that will equip, enable, and empower them to master addiction, live well, and do good. Competencies are clusters of related knowledge, skills, and attitudes (KSAs) that prepare a person to act effectively and reflect cognitive, affective, and psychomotor domains of learning. This book provides a cutting-edge guide to recovery by clearly depicting these core competencies in a manner that will prepare the reader with the ability to clearly understand and develop a course of action on how to manage recovery successfully. The first section of each chapter presents facts, concepts, principles, and theories about a particular competency, and it shares real stories about real people and their own recovery journeys. The following section suggests applications of the competency with questions, worksheets, exercises, and projects. In the final section, readers can evaluate their recovery work and competency development. Resources for recovery and references can be found at the end of the book. Behavioral health practitioners and instructors and students of addiction studies will find this book a best-practice template for recovery work.
