The perfect gift, souvenir super easy, simple, fast shopping for anyone from billions cars and car racing fans, boys and girls of all ages to almost any event, celebration, holiday!

Into the Red Nick Mason,Mark Hales,2004 Nick Mason has had a lifelong passion for motor racing. The sports and racing cars he's chosen to own form a unique stable, not just because of their diversity, but because every car is meant to be driven, and driven hard. These are not museum pieces sitting tamely in glass cases. With test driver Mark Hales, Nick Mason has pushed twenty-two of his cars to the limit and created Into The Red, a book which captures the power, the exhilaration and the feel of the actual cars driven by the worlds greatest racing drivers, including Enzo Ferrari, Stirling Moss, Jacky Ickx and Mario Andretti. Some are incredibly fast: the powerhouse Porsche 935, the limited edition McLaren F1. Some extremely rare: the legendary V16 BRM is one of only three known to exist. Some highly expensive: the Ferrari 250GTO had a value of GBP10 million at its peak. And others are all-time classics, including the Bugatti T35B, the Maserati 250F, and the Ferrari T3 that brought Gilles Villeneuve victory in the 1978 Montreal Grand Prix. But although their past is what makes the cars so special, each car has been put through the same demanding test sequence at Silverstone, using the latest equipment, no quarter given.The results are often surprising. Mark Hales details the distinctive sensations, sounds and vibrations of each car's handling ability, down to the feel of the gears and the response of the brakes. Nick Mason gives his personal view of the history and heritage of each model, with the inside track on the ups and downs of collecting classic cars.

Corvette Karl Ludvigsen,2000-04-21 While working at GM and afterward as the author of the authoritative Corvette history, Karl Ludvigsen was close to the behind-the-scenes development of Chevrolet's Corvette. As a result, his collection contains many rare and unusual photos of the experimental Corvettes built both for the road and racing - exotic chassis, engines, styling concepts and designs. In this book he opens his files and takes the reader behind the scenes of Chevrolet R&D and Design Staff to show the rare and spectacular machines conceived by Bill Mitchell, Zora Duntov, Larry Shinoda and others in the car-crazy Corvette world at GM.

Exotic Cars '94 ,1994

The Red Car Don Stanford,2000 This is the story of Hap Adams, a teenage boy who finds a beat-up MG TC sports car, restores it, and learns the joys of sports cars and driving from the town mechanic, Frenchy Lascelle.

The Olympian Cars Richard Burns Carson,1998-10-01

Cadillac Gage V-100 Commando 1960-71 Richard Lathrop,John McDonald,2002-05-25 Destined to become one of the most influential postwar armored cars, the V-100 Commando was developed by the Cadillac Gage Company in 1962 as a private venture, and the first prototype was completed in the same year. It was designed as a multi-purpose vehicle and could function as an 11-man personnel carrier, reconnaissance vehicle, convoy escort, command or patrol car and a riot vehicle. The V-100 was tested and evaluated in Vietnam before full-scale production began in 1964. It saw widespread use in Vietnam by both US and South Vietnamese forces. This title describes the design, development and operational use of the V-100 Commando, including their continued deployment around the world.

Essentials of Stochastic Processes Richard Durrett,2016-11-07 Building upon the previous editions, this textbook is a first course in stochastic processes taken by undergraduate and graduate students (MS and PhD students from math, statistics, economics, computer science, engineering, and finance departments) who have had a course in probability theory. It covers Markov chains in discrete and continuous time, Poisson processes, renewal processes, martingales, and option pricing. One can only learn a subject by seeing it in action, so there are a large number of examples and more than 300 carefully chosen exercises to deepen the reader's understanding. Drawing from teaching experience and student feedback, there are many new examples and problems with solutions that use TI-83 to eliminate the tedious details of solving linear equations by hand, and the collection of exercises is much improved, with many more biological examples. Originally included in previous editions, material too advanced for this first course in stochastic processes has been

eliminated while treatment of other topics useful for applications has been expanded. In addition, the ordering of topics has been improved; for example, the difficult subject of martingales is delayed until its usefulness can be applied in the treatment of mathematical finance.

You & Your Jaguar XK/XKR Nigel Thorley,2021-11-24 The Jaguar XK was launched to great acclaim in 1996 as the successor to the XJS. Jaguar’s XK sports models were produced from 1996 to 2014 in two distinct forms: the original steel-bodied XK, and, in 2005, the advanced technology aluminium-bodied New XK. Highly significant for Jaguar, these cars reintroduced the world to Jaguar sports car motoring and, in doing so, echoed the success of previous icons, such as the E-type. The original edition of this book covered just the X-100 (original series) XKs from 1996 through to 2005. This edition, now in paperback, brings the story up to date with the X-150 alloy-bodied cars, from 2006 through to the end of production in 2014. A significantly enlarged work, packed with information and over 130 additional full-colour pictures, this fascinating book is essential reading for all XK owners, prospective owners and enthusiasts – the perfect XK ‘handbook.’

Mini Down Under Donn Anderson,2009-03-02 Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

The Adult Learner Malcolm S. Knowles,Elwood F. Holton III,Richard A. Swanson,2014-12-05 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles’s pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centered approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. This eighth edition has been thoughtfully updated in terms of structure, content, and style. On top of this, online material and added chapter-level reflection questions make this classic text more accessible than ever. The new edition includes: Two new chapters: Neuroscience and Andragogy, and Information Technology and Learning. Updates throughout the book to reflect the very latest advancements in the field. A companion website with instructor aids for each chapter. If you are a researcher, practitioner or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning that you should not be without.
