Lillian Ross

Red Star Dennis Ford,2007-08-21 Blair Bottoms journeys home after a tour of duty in Vietnam to discover the town he once knew is different. The Jersey Shore that bathed his childhood thoughts now appears corrupt and guilty. He never dreamed that through a tangled set of circumstances he would become an active participant in a web of lies, deceit, and murder. When he meets the captivating Melissa Noon, Blair instantly falls in love. But his love for her may not be enough to save him from the tragic course he's created. In the end, Blair must choose between protecting the woman he adores and securing his fortune no matter the cost. *Red Star* brilliantly shows how moral compromises can add up to a life completely changed and used in terrifying ways. It's about not losing our past-and believing in our future.

Pinball Games George F. Eber,2010 When Erwin Leichter played the Tiger Rag in the sealed-off ghetto, his situation was not for a moment less serious, but he was buoyant with youth. *Pinball Games*, illustrated by the author, tells a story of survival, sometimes through luck, sometimes by daring action, of a group of Hungarian friends through the darkest days of World War II, and later, as they escape from Communist Hungary to the free world. After a youth marked by golden days on the Danube, the author and many of his classmates are drafted into the white armbands- labor battalions of Christian Jews. They jump for their lives from a train bound for the death camps, and eventually make their way back to Budapest to live through the Siege of Budapest, one of the longest and least written about sieges of World War II. With peace come more golden days on the Danube, but they are illusions: Stalin's Communist Agenda forces more escapes. The author, his stepmother, and his father, whose business had been among the first private businesses seized in Budapest, successfully navigate land mines and wire fences to reach the West. There might be difficult days ahead but I knew those years that called forth the greatest effort of my life were over, writes George F. Eber. At the time of our escape, the term Iron Curtain was rather newly coined. To me it still meant the great metal fire-curtain in the Budapest theatres of my youth. Now the Iron Curtain had fallen behind us on the theatre of the macabre.

Glow of the Red Star Paul McCoy,2015-03-20 A dramatic journey through a present tense view of Tom Sanders, who's an Afro-American archaeologist that will unknowingly rip open the theory of time travel. When he's assigned a mission that will set his life on an innovative path after the undiscovered territory to save a life. A primeval Mayan Indian tribe that once populated a metropolis deep in the jungle of Mexico vanished off the face of the earth thousands of years ago. Volatile and degrading scenarios set a platform for a perilous adventure when four destinies collide at the intersection of life. Tom Sanders a retired Navy Seal and infamous archaeologist is called upon by Dr. Baldwin; the director of a New York museum to find the Mayan lost city of Tikal. Tom is pushed to the edge of his breaking point when several members of his crew suffer horrendous deaths caused by uncanny events. He must find resolve when turmoil comes from just around the next corner. Tom Sanders calls on his beloved friend Susan Anderson for her invaluable expertise in deciphering ancient glyphs. They find an artifact that later turns out to be a key that can open the doors to the future and the past. During this journey, his feelings cultivate even stronger for her as they make the biggest discovery of their careers. Calamity strikes Susan at the hands of a sadistic religious fanatic; Peter Stanley, who believes that he has his own kingdom waiting for him in heaven. Another close friend, Jon Henderson gets himself into a big dilemma dealing with a lethal Russian mobster (Mr. Keloff), as desperation comes to a boil; Jon makes matters worse by naively stealing a cursed artifact from Tom in order to save his own skin.

Red Horizon Salvador Mercer,2018-06-16 The truth of discovery is on mankind's horizon, a Red Horizon. For nearly four long years, the world's superpowers have mobilized their people and resources in preparation for the next discovery, Mars. The race against one another pales in comparison to the inherent dangers of travelling through the vastness of the cosmos, going where mankind has never gone before. Facing the hostile and challenging environment of space, and nations ready to do anything it takes to win, Richard, 'Rock' Crandon pulls his team together in an attempt to reach the alien technology on the red planet first, and discover the intent behind the alien

species. Will mankind tear itself apart in the name of discovery, or will the truth reveal something more sinister, the true intent of the aliens?

Walls Come Tumbling Down Daniel Rachel,2016-09-08 *Walls Come Tumbling Down* charts the pivotal period between 1976 and 1992 that saw politics and pop music come together for the first time in Britain's musical history; musicians and their fans suddenly became instigators of social change, and 'the political persuasion of musicians was as important as the songs they sang'. Through the voices of campaigners, musicians, artists and politicians, Daniel Rachel follows the rise and fall of three key movements of the time: Rock Against Racism, 2 Tone, and Red Wedge, revealing how they all shaped, and were shaped by, the music of a generation. Composed of interviews with over a hundred and fifty of the key players at the time, *Walls Come Tumbling Down* is a fascinating, polyphonic and authoritative account of those crucial sixteen years in Britain's history.

Spartan Destiny Jennifer Estep,2020-01-14 This Spartan makes her own destiny . . . Most kids at the Colorado branch of Mythos Academy know me as Rory Forseti, the daughter of Reaper assassins. Secretly, I'm a member of Team Midgard, a group of students and adults tasked with stopping Covington, the evil leader of the Reapers of Chaos. For me, the mission is a deeply personal one, since Covington is also the man who murdered my parents. When my friends and I get a lead on a powerful artifact that Covington wants to steal, we think we finally have a chance to thwart the Reapers and stop them for good. Team Midgard comes up with a plan, but everything goes sideways, and I'm suddenly in the fight of my life. My worst fears might have come true, but I know what my Spartan destiny is—to save my friends, or die trying . . .

Reporting Always Lillian Ross,2016-11 From the inimitable veteran New Yorker journalist Lillian Ross--a stunning collection of Ross's iconic New Yorker pieces--

The Colors of Space and Other Stories Marion Zimmer Bradley,2016-01-11 FALCONS of NARABEDLA Voltage—from Nowhere! Somewhere on the crags above us I heard a big bird scream. I turned to Andy, knee-deep in the icy stream beside me. There's your eagle. Probably smells that cougar I shot yesterday. I started to reel in my line, knowing what my brother's next move would be. Get the camera, and we'll try for a picture. We crouched together in the underbrush, watching, as the big bird of prey wheeled down in a slow spiral toward the dead cougar. Andy was trembling with excitement, the camera poised against his chest, his eyes glued in the image-finder. Golly—he whispered, almost prayerfully, six foot wing spread—maybe more— The bird screamed again, warily, head cocked into the wind. We were to leeward; the scent of the carrion masked our enemy smell from him. The eagle failed to scent or to see us, swooping down and dropping on the cougar's head. Andy's camera clicked twice. The eagle thrust in its beak— A red-hot wire flared in my brain. The bird—the bird—I leaped out of cover, running swiftly across the ten-foot clearing that separated us from the attacking eagle, my hand tugging automatically at the hunting knife in my belt. Andy's shout of surprised anger was a faraway noise in my ears as the eagle started away with flapping, angry wings—then, in fury, swept down at me, pinions beating around my head. I heard and felt the wicked beak dart in, and thrust blindly upward with the knife, ripped, slashing, hearing the bird's scream of pain and the flapping of wide wings. A red haze spun around me—

Resurrecting Ravana Ray Garton,2001-09-20 Buffy the Vampire Slayer. With midterms looming, the students at Sunnydale High are predictably stressed-out. Even super-student Willow is feeling the pressure to succeed. And when her usual study buddies -- Buffy, Xander, and Oz -- decide they don't need her tutorial sessions, Willow wonders if she's really what they don't need. But her hurt feelings don't explain her sudden antagonism toward Buffy -- or the strange dreams they've both been having. As tensions in the school escalate into brutal acts of violence -- and the perpetrators turn up horribly mutilated -- Buffy and the gang search for a supernatural source. The evidence indicates that someone is attempting to resurrect a powerful Hindu demon. Willow's new confidante, guidance counselor Promila Daruwalla, becomes the prime suspect...until Giles runs into an old friend who is always causing trouble. It will take all of the Slayer's resources...and the help of all her friends...to find

the culprit and destroy the key to the demon's resurrection.

Made to Break Giles Slade, 2009-06-30 *Made to Break* is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be shortening the future of our way of life as well.

Transpacific Community Richard Jean So, 2016-05-31 In the turbulent years after World War I, a transpacific community of American and Chinese writers and artists emerged to forge new ideas regarding aesthetics, democracy, internationalism, and the political possibilities of art. Breaking with preconceived notions of an exotic East, the Americans found in China and in the works of Chinese intellectuals inspiration for leftist and civil rights movements. Chinese writers and intellectuals looked to the American tradition of political democracy to inform an emerging Chinese liberalism. This interaction reflected an unprecedented integration of American and Chinese cultures and a remarkable synthesis of shared ideals and political goals. The transpacific community that came together during this time took advantage of new advances in technology and media, such as the telegraph and radio, to accelerate the exchange of ideas. It created a fast-paced, cross-cultural dialogue that transformed the terms by which the United States and China—or, more broadly, West and East—knew each other. *Transpacific Community* follows the left-wing journalist Agnes Smedley's campaign to free the author Ding Ling from prison; Pearl Buck's attempt to fuse Jeffersonian democracy with late Qing visions of equality in *The Good Earth*; Paul Robeson's collaboration with the musician Liu Liangmo, which drew on Chinese and African American traditions; and the writer Lin Yutang's attempt to create a typewriter for Chinese characters. Together, these individuals produced political projects that synthesized American and Chinese visions of equality and democracy and imagined a new course for East-West relations.

Frozen in Ice: The Story of Walt Disney Productions, 1966-1985 Mark Arnold, 2013-10 When Walt Disney died in 1966, many predicted that it might be the end of Walt Disney Productions, but Walt had a number of ideas and concepts that lasted well into the next decade. He also left behind a well-established group of workers that hoped to continually answer the question, "What

would Walt do?” with more magical creations that would dazzle and delight. With this book, author and historian Mark Arnold explores the major accomplishments of Walt Disney Productions during the years 1966 – 1985, paying particular attention to their theatrical film output, but also discussing the various new theme park attractions and the TV shows produced during that period. Things went well until the mid-1970s, when ideas started to run thin and repetition set in, causing shrinking box office success. By the 1980s, threats of corporate takeover were knocking at their door, at which time change had become unavoidable if Disney were to survive as an independent company. Disney had to change their already outdated methods of making movies and running a movie studio geared solely towards family entertainment. As a result, Michael Eisner took over and retooled Disney into the mega-empire that it is today. This is the story after Walt and before Michael...
