Making Records Phil Ramone, 2007-10-09 Sinatra. Streisand. Dylan. Pavarotti. McCartney. Sting. Madonna. What do these musicians have in common besides their super-stardom? They have all worked with legendary music producer Phil Ramone. For almost five decades, Phil Ramone has been a force in the music industry. He has produced records and collaborated with almost every major talent in the business. There is a craft to making records, and Phil has spent his life mastering it. For the first time ever, he shares the secrets of his trade. Making Records is a fascinating look behind the glass of a recording studio. From Phil's exhilarating early days recording jazz and commercial jingles at A&R, to his first studio, and eventual legendary producer status, Phil allows you to sit in on the sessions that created some of the most memorable music of the 20th century--including Frank Sinatra's Duets album, Bob Dylan's Blood on the Tracks, Ray Charles's Genius Loves Company and Paul Simon's Still Crazy After All These Years. In addition to being a ringside seat for contemporary popular music history, Making Records is an unprecedented tutorial on the magic behind what music producers and engineers do. In these pages, Phil offers a rare peek inside the way music is made . . . illuminating the creative thought processes behind some of the most influential sessions in music history. This is a book about the art that is making records--the way it began, the way it is now, and everything in between.
