Noel M. Tichy

Effective Teacher Hiring Kenneth D. Peterson, 2002-10-15 To get the very best teachers for your school or district, you have to hire the best. Unfortunately, most educators have had very little--if any--training in how to screen potential employees and ensure that only the best available candidates are ultimately chosen. Here's a guide with all of the steps and strategies you need, including *Six principles of good teacher hiring. *Basics of creating a selection committee and ensuring a broad diversity of candidates. *Stages of the screening process. *Sample recruitment flyers, contracts, and interview questions. *Legal issues related to hiring. An innovative teacher selection framework provides for checks and balances at every turn and guarantees students and parents a voice in the process. The framework is flexible enough to use in school systems large or small. Note: This product listing is for the Adobe Acrobat (PDF) version of the book.

Recruiting & Retaining Women , 2001

Libertarianism in One Lesson David Bergland, 1986

The Cycle of Leadership Noel M. Tichy, 2009-03-17 In *The Leadership Engine*, Noel Tichy showed how great companies strive to create leaders at all levels of the organization, and how those leaders actively develop future generations of leaders. In this new book, he takes the theme further, showing how great companies and their leaders develop their business knowledge into teachable points of view, spend a great portion of their time giving their learnings to others, sharing best practices, and how they in turn learn and receive business ideas/knowledge from the employees they are teaching. Calling this exchange a virtuous teaching cycle, Professor Tichy shows how business builders from Jack Welch at GE to Joe Lieberman at Trilogy create organizations that foster this knowledge exchange and how their efforts result in smarter, more agile companies, and winning results. Some of these ideas were showcased in Tichy's recent Harvard Business Review article entitled, *The Ordinary Boot Camp*. Using examples from GE, Ford, Dell, Southwest Airlines and many others, Tichy presents and analyzes these principles in action and shows how managers can begin to transform their own businesses into teaching organizations and, consequently, better-performing companies

Great Beginnings for Music Teachers Colleen M. Conway, Colleen Marie Conway, 2003 This practical guide covers the challenges faced by beginning music teachers, district and state-sponsored mentoring and induction programs, alternative certification, and ideas for ongoing professional development. Based on the latest research, this book includes first-person accounts written by beginning music teachers and a state-by-state list of mentoring policies and programs.
