Modeling Dynamic Economic Systems Matthias Ruth, Bruce Hannon, 2012-02-08 This book explores the dynamic processes in economic systems, concentrating on the extraction and use of the natural resources required to meet economic needs. Sections cover methods for dynamic modeling in economics, microeconomic models of firms, modeling optimal use of both nonrenewable and renewable resources, and chaos in economic models. This book does not require a substantial background in mathematics or computer science.

Challenging Casanova Andrew P. Smiler, PhD, 2012-10-10 Changing perceptions about male sexuality In his groundbreaking new book, noted expert on teenage and adult masculine behavior Andrew Smiler debunks the myth that teenage boys and young men are barely able to control their sex drives, which may lead to destructive hyper-sexuality, unwanted pregnancy, and sexually transmitted diseases. Dr. Smiler helps us recognize that the majority of boys and men do not fit this stereotype and that boys' sexual development is multi-faceted. He also shows how this shift in attitude could help create young men who are more mature, and have better relationships with partners and friends. Explains how the Casanova Complex has developed over time and how it can hurt young males Provides the latest research on male sexuality, including information from the author's own studies. Offers guidance for parents and counselors of boys who want to help them develop lasting and meaningful relationships, as well as for the parents of girls who are dating. This book dismantles the stereotype of boys as driven only by an obsession with having intercourse with multiple partners, and calls for deeper growth and understanding of modern masculinity.

Taking Medicine Liz Gogery, 2008-09 Provides information about the different types of medicines and how to take them safely.

Sidewalk Mitchell Duneier, 2000-12-20 An exceptional ethnography marked by clarity and candor, Sidewalk takes us into the socio-cultural environment of those who, though often seen as threatening or unseemly, work day after day on the blocks of one of New York's most diverse neighborhoods. Sociologist Duneier, author of Slim's Table, offers an accessible and compelling group portrait of several poor black men who make their livelihoods on the sidewalks of Greenwich Village selling secondhand goods, panhandling, and scavenging books and magazines. Duneier spent five years with these individuals, and in Sidewalk he argues that, contrary to the opinion of various city officials, they actually contribute significantly to the order and well-being of the Village. An important study of the heart and mind of the street, Sidewalk also features an insightful afterword by longtime book vendor Hakim Hasan. This fascinating study reveals today's urban life in all its complexity: its vitality, its conflicts about class and race, and its surprising opportunities for empathy among strangers. Sidewalk is an excellent supplementary text for a range of courses: INTRODUCTION TO SOCIOLOGY: Shows how to make important links between micro and macro; how a research project works; how sociology can transform common sense. RACE AND ETHNIC RELATIONS: Untangles race, class, and gender as they work together on the street. URBAN STUDIES: Asks how public space is used and contested by men and women, blacks and whites, rich and poor, and how street life and political economy interact. DEVIANCE: Looks at labeling processes in treatment of the homeless; interrogates the broken windows theory of policing. LAW AND SOCIETY: Closely examines the connections between formal and informal systems of social control. METHODS: Shows how ethnography works; includes a detailed methodological appendix and an afterword by research subject Hakim Hasan. CULTURAL ANTHROPOLOGY: Sidewalk engages the rich terrain of recent developments regarding representation, writing, and authority; in the tradition of Elliot Liebow and Ulf Hannerz, it deals with age old problems of the social and cultural experience of inequality; this is a telling study of culture on the margins of American society. CULTURAL STUDIES: Breaking down disciplinary boundaries, Sidewalk shows how books and magazines are received and interpreted in discussions among working-class people on the sidewalk; it shows how cultural knowledge is deployed by vendors and scavengers to generate subsistence in public space. SOCIOLOGY OF CULTURE: Sidewalk demonstrates the connections between culture and human agency and innovation; it interrogates distinctions between legitimate subcultures and deviant collectivities; it illustrates conflicts over cultural diversity in public space; and, ultimately, it shows how conflicts over meaning are central to social life.

Fix It with Food Michael Symon, Douglas Trattner, 2019-12-03 NEW YORK TIMES BESTSELLER • A guide to managing inflammation and pain with 125+ recipes proving that you don't need to sacrifice delicious food to eat healthfully and be pain free, from celebrity chef and The Chew co-host Michael Symon IACP AWARD FINALIST • "Michael fixed himself with irresistible recipes that just happened to be healthy. Now you can enjoy healing yourself as well."—Mehmet Oz, MD, attending surgeon, New York-Presbyterian/Columbia University When Michael Symon found out he had rheumatoid arthritis and external lupus, he suspected that what he ate—or didn't eat—could make a profound difference in his levels of inflammation and how he felt. So he committed to a food "reset" on The Chew—no red meat, white flour, sugar, dairy, or alcohol. Michael used social media to share his experiment with his fans, and was shocked by the outcome: after completing the reset, he felt amazing. He discovered that dairy, sugar, and processed flours are his food triggers, and that by avoiding them, his inflammation essentially vanished. Michael came up with more than 125 recipes to satisfy his cravings without aggravating his body, including Ginger and Chile-Roast Chicken, dairy-free Mac and Cheese, Spaghetti Squash with Arugula Pesto, and Apple and Cherry Oat Crisp, among many others. Now, for the first time, he is sharing these recipes, as well as a guide on how to identify your food triggers and create a meal plan that works around whatever ingredient causes your discomfort so that you too can enjoy incredible food without sacrificing your health.

Backbeard and the Birthday Suit Matthew McElligott, 2007-09-01 After his birthday party, Backbeard decides to get a new suit, but the clothing shop in town doesn't sell pirate gear so he gets a new look, and he is not sure it will work for him.

The Road Less Traveled and Beyond M. Scott Peck, 1998-01-02 Peck's views on being a separate courageous individual.

Widow's Walk Robert B. Parker, 2003-03-04 One of Boston's elite has been murdered. The accused is his new wife. She's blonde, beautiful, and young. The jury's going to hate her. With next-to-no alibi, and multi-million reasons to kill her husband, she needs the best defense money can buy. His name is Spenser, and he'd give anything to believe her.

Streams of Revenue Rebecca Lave, Martin Doyle, 2021-01-26 An analysis of stream mitigation banking and the challenges of implementing market-based approaches to environmental conservation. Market-based approaches to environmental conservation have been increasingly prevalent since the early 1990s. The goal of these markets is to reduce environmental harm not by preventing it, but by pricing it. A housing development on land threaded with streams, for example, can divert them into underground pipes if the developer pays to restore streams elsewhere. But does this increasingly common approach actually improve environmental well-being? In *Streams of Revenue*, Rebecca Lave and Martin Doyle answer this question by analyzing the history, implementation, and environmental outcomes of one of these markets: stream mitigation banking. In stream mitigation banking, an entrepreneur speculatively restores a stream, generating "stream credits" that can be purchased by a developer to fulfill regulatory requirements of the Clean Water Act. Tracing mitigation banking from conceptual beginnings to implementation, the authors find that in practice it is very difficult to establish equivalence between the ecosystems harmed and those that are restored, and to cope with the many sources of uncertainty that make positive restoration outcomes unlikely. Lave and Doyle argue that market-based approaches have failed to deliver on conservation goals and call for a radical reconfiguration of the process.

Toxicological Profile for Toluene, 2000

Dancing at the Edge Maureen O'Hara, 2012-10-31 Maureen O'Hara and Graham Leicester explore the competencies - the ways of being, doing, knowing and organising - that can help us navigate in complex and powerful times. They argue that these competencies are innate and within reach of all of us - given the right setting, plenty of practice and some gentle guidance. But they are seldom seen because they are routinely undervalued in today's culture. That must change, the authors insist, and this book is intended to begin that change. The book is based on the authors' extensive research and their practical experience observing the qualities demonstrated by some of today's most successful cultural, political and business leaders. They write of 'persons of tomorrow' that they have witnessed: "We find that people who are thriving in the contemporary world, who give us the sense of having it all together and being able to act effectively and with good spirit in challenging circumstances, have some identifiable characteristics in common... They are the people already among us who inhabit the complex and messy problems of the 21st century in a more expansive way than their colleagues. They do not reduce such problems to the scale of the tools available to them, or hide behind those tools when they know they are partial and inadequate. They are less concerned with 'doing the right thing' according to standard procedure than they are with really doing the right thing in the moment, in specific cases, with the individuals involved at the time. In a disciplined yet engaging way they are always pushing boundaries, including their own. They dance at the edge."

The Vault Ruth Rendell, 2012-07-03 When four bodies are discovered in a house in St. John's Wood, former Chief Inspector Wexford is pulled out of

retirement to follow a complex trail of clues, only to have his life thrown into turmoil by a devastating personal tragedy.

The Surrendered Wife Laura Doyle,2001-02-28 A New York Times bestseller, this controversial guide to improving your marriage has transformed thousands of relationships, bringing women romance, harmony, and the intimacy they crave. Like millions of women, Laura Doyle wanted her marriage to be better. But when she tried to get her husband to be more romantic, helpful, and ambitious, he withdrew—and she was lonely and exhausted from controlling everything. Desperate to be in love with her man again, she decided to stop telling him what to do and how to do it. When Doyle surrendered control, something magical happened. The union she had always dreamed of appeared. The man who had wooed her was back. The underlying principle of *The Surrendered Wife* is simple: The control women wield at work and with children must be left at the front door of any marriage. Laura Doyle's model for matrimony shows women how they can both express their needs and have them met while also respecting their husband's choices. When they do, they revitalize intimacy. Compassionate and practical, *The Surrendered Wife* is a step-by-step guide that teaches women how to: · Give up unnecessary control and responsibility · Resist the temptation to criticize, belittle, or dismiss their husbands · Trust their husbands in every aspect of marriage—from sexual to financial · And more. *The Surrendered Wife* will show you how to transform a lonely marriage into a passionate union.

The Houses of Philip Johnson Stover Jenkins,David Mohnney,Philip Johnson,2001 Until now, however, that house has not been looked at in the context of Johnson's many other house projects. This book, the first to comprehensively survey Johnson's residential work, not only brings to light a largely neglected side of Johnson's achievement, but freshly illuminates his entire career.--BOOK JACKET.
