Advanced Transmission Electron Microscopy Jian Min
Zuo,John C.H. Spence,2016-10-26 This volume expands
and updates the coverage in the authors' popular 1992
book, *Electron Microdiffraction*. As the title implies, the
focus of the book has changed from electron
microdiffraction and convergent beam electron diffraction
to all forms of advanced transmission electron microscopy.
Special attention is given to electron diffraction and
imaging, including high-resolution TEM and STEM
imaging, and the application of these methods to crystals,
their defects, and nanostructures. The authoritative text
summarizes and develops most of the useful knowledge
which has been gained over the years from the study of the

multiple electron scattering problem, the recent development of aberration correctors and their applications to materials structure characterization, as well as the authors' extensive teaching experience in these areas. **Advanced Transmission Electron Microscopy: Imaging and Diffraction in Nanoscience** is ideal for use as an advanced undergraduate or graduate level text in support of course materials in Materials Science, Physics or Chemistry departments.

Calendar of Records in the Office of the Secretary of State. 1614-1703 William Nelson, 1899

Patents and Deeds and Other Early Records of New Jersey, 1664-1703 William Nelson, 1976 This monumental work contains abstracts of all the known surveys, patents, and deeds of Proprietary New Jersey (1664-1703). Thousands of documents pertaining to title and transfer of land are here sorted and calendared, each revealing the names of grantors and grantees, buyers and sellers, relatives and neighbors--most with references to specific places of residence--and further giving a precise description of the survey, including date, location, and acreage. The records are arranged under the headings of East and West Jersey and are rendered accessible by the indexes which, containing well over 10,000 main entries, bear upwards of 50,000 references. In this work there are abstracts of original grants, concessions, and orders of the first Proprietors and Governors. These records describe the circumstances under which the first settlements were made in the Colony, the evolution of the government, the origin of the land titles in the Colony and in the various subdivisions thereof, and the origins and characteristics of

the first settlers.
