Reminders for Daily Devotion John Fischer,2018-11-15 In the busyness of daily life, we need reminding of God's love. That He's not through with us. He has many blessings in store. More than we can imagine. These daily 'Reminders' will help us focus on our Lord Jesus for a life worth living. More for others and Jesus than ourselves. More of life as He intends. John Fischer, with his own unique style, has put together once again a devotional book for every day, all year long.

Revelation, Retribution, and Reminder J. Alexander Rutherford,2021-03-05 No doctrine appears more horrid to Christians and non-Christians alike as the doctrine of Hell, the belief in eternal, conscious punishment against sin. However, despite the efforts of many to dismiss the doctrine, the Biblical testimony is clear. Why is Hell so common in the Bible? Why does Jesus talk about Hell so often? In this short book, we will take a stark look at what the Bible says about Hell as retribution--punishment against sin. More importantly, we will see why this doctrine matters. It matters because only in light of Hell do we understand the Cross of Christ. Hell is a revelation of God--of His mercy, love, and justice. Finally, Hell reminds us that we are surrounded by many who will die and face Hell if they do not believe in Jesus Christ and receive the mercy of God offered through Him.

Digital Personalized Health and Medicine L.B. Pape-Haugaard,C. Lovis,I. Cort Madsen,2020-06-17 Digital health and medical informatics have grown in importance in recent years, and have now become central to the provision of effective healthcare around the world. This book presents the proceedings of the 30th Medical Informatics Europe conference (MIE). This edition of the conference, hosted by the European Federation for Medical Informatics (EFMI) since the 1970s, was due to be held in Geneva, Switzerland in April 2020, but as a result of measures to prevent the spread of the Covid19 pandemic, the conference itself had to be cancelled. Nevertheless, because this collection of papers offers a wealth of knowledge and experience across the full spectrum of digital health and medicine, it was decided to publish the submissions accepted in the review process and confirmed by the Scientific Program Committee for publication, and these are published here as planned. The 232 papers are themed under 6 section headings: biomedical data, tools and methods; supporting care delivery; health and prevention; precision medicine and public health; human factors and citizen centered digital health; and ethics, legal and societal aspects. A 7th section deals with the Swiss personalized health network, and section 8 includes the 125 posters accepted for the conference. Offering an overview of current trends and developments in digital health and medical informatics, the book provides a

valuable information resource for researchers and health practitioners alike.
