Platinum Notes USMLE STEP - 2: The Complete Preparatory Guide Ashfaq Ul Hassan, 2013-03-31 The United States Medical Licensing Examination® (USMLE®) is a three step examination for medical licensure in the United States and is sponsored by the Federation of State Medical Boards (FSMB) and the National Board of Medical Examiners® (NBME®). The USMLE assesses a physician's ability to apply knowledge, concepts and principles, and to demonstrate fundamental patient-centred skills that are important in health and disease, and that constitute the basis of safe and effective patient care. Each of the three steps of the USMLE complements the others - medical students that aim to complete their degrees and plan to practice medicine in the USA have to pass all three USMLE Step examinations. USMLE Step 2 is designed to assess whether medical students or graduates can apply medical knowledge, skills and understanding of clinical science essential for provision of patient care under supervision. Step 2 is further divided into two separate exams - USMLE Step 2 CK and USMLE Step 2 CS. USMLE Step 2 CK assesses clinical knowledge through a traditional, multiple-choice examination. USMLE Step 2 CS tests clinical skills through simulated patient interactions. (www.usmle.org). *Platinum Notes USMLE Step-2* is an affordable, comprehensive revision aid to help medical students and graduates in their preparation for Step 2 of the USMLE examinations. The book brings together all the latest topics and USMLE exam type questions into just one volume, minimizing the need for multiple revision resources. Revision questions at the end of each subject are included.

Recommendations on the Transport of Dangerous Goods

United Nations,2020-01-06 The Manual of Tests and Criteria

contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the Recommendations on the Transport of Dangerous Goods in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled Manual of Tests and Criteria.
