Firstborn Arthur C. Clarke, Stephen Baxter, 2008-10-28 The Firstborn—the mysterious race of aliens who first became known to science fiction fans as the builders of the iconic black monolith in *2001: A Space Odyssey*—have inhabited legendary master of science fiction Sir Arthur C. Clarke's writing for decades. With *Time's Eye* and *Sunstorm*, the first two books in their acclaimed *Time Odyssey* series, Clarke and his brilliant co-author Stephen Baxter imagined a near-future in which the Firstborn seek to stop the advance of human civilization by employing a technology indistinguishable from magic. Their first act was the *Discontinuity*, in which Earth was carved into sections from different eras of history, restitched into a patchwork world, and renamed Mir. Mir's inhabitants included such notables as Alexander the Great, Genghis Khan, and United Nations peacekeeper Bisesa Dutt. For reasons unknown to her, Bisesa entered into communication with an alien artifact of inscrutable purpose and godlike power—a power that eventually returned her to Earth. There, she played an instrumental role in humanity's race against time to stop a doomsday event: a massive solar storm triggered by the alien Firstborn designed to eradicate all life from the planet. That fate was averted at an inconceivable price. Now, twenty-seven years later, the Firstborn are back. This time, they are pulling no punches: They have sent a “quantum bomb.” Speeding toward Earth, it is a device that human scientists can barely comprehend, that cannot be stopped or destroyed—and one that will obliterate Earth. Bisesa's desperate quest for answers sends her first to Mars and then to Mir, which is itself threatened with extinction. The end seems inevitable. But as shocking new insights emerge into the nature of the Firstborn and their chilling plans for mankind, an unexpected ally appears from light-years away.

The Devil's Trick John Boyko, 2022-05-17 Forty-five years after the fall of Saigon, John Boyko brings to light the little-known story of Canada's involvement in the American War in Vietnam. Through the lens of six remarkable people, some well-known, others obscure, bestselling historian John Boyko recounts Canada's often-overlooked involvement in that conflict as peacemaker, combatant, and provider of weapons and sanctuary. When Brigadier General Sherwood Lett arrived in Vietnam over a decade before American troops, he and the Canadians under his command risked their lives trying to enforce an unstable peace while questioning whether they were merely handmaidens to a new war. As American battleships steamed across the Pacific, Canadian diplomat Blair Seaborn was meeting secretly in Hanoi with North Vietnam's prime minister; if American leaders accepted his roadmap to peace, those ships could be turned around before war began. Claire Culhane worked in a Canadian hospital in Vietnam and then returned home to implore Canadians to stop supporting what she deemed an immoral war. Joe Erickson was among 30,000 young Americans who changed Canada by evading the draft and heading north; Doug Carey was one of the 20,000 Canadians who enlisted with the American forces to serve in Vietnam. Rebecca Trinh fled Saigon with her husband and young daughters, joining the waves of desperate Indochinese refugees, thousands of whom were to forge new lives in Canada. Through these wide-ranging and fascinating accounts, Boyko exposes what he calls the Devil's wildest trick: convincing leaders that war is desirable, persuading the public that it is acceptable, and telling combatants that the deeds they carry out and the horrors they experience are normal, or at least necessary. In uncovering Canada's side of the story, Boyko reveals the many secret and forgotten ways that Canada not only fought the war but was forever shaped by its lessons and lies.

Cold Fire John Boyko,2016-02-02 Forget all you think you know about the Kennedy years. With narrative flair and sparkling storytelling, acclaimed historian John Boyko explores the crucial period when America and its allies were fighting the Cold War's most treacherous battles, Canadians were trading sovereignty for security, and everyone feared a nuclear holocaust. At the centre of this story are three leaders. President John F. Kennedy pledged to pay any price to advance his vision for America's defence and needed Canada to step smartly in line. Fighting him at every turn was Conservative prime minister John Diefenbaker, an unapologetic nationalist trying to bolster Canada's autonomy. Liberal leader Lester Pearson, the Nobel Prize-winning diplomat, sought a middle ground. Boyko employs meticulous research and newly released documents to present shocking revelations. During the Cuban Missile Crisis, Canadian warships guarded America's Atlantic coast and Canada suffered a silent coup d'état. Canada was involved in Kennedy's sliding America into Vietnam. Kennedy knew the nuclear missiles he was forcing on Canada would be decoys, there only to draw Soviet nuclear fire. Kennedy's pollster and political adviser travelled to Ottawa under a fake passport to help defeat the Canadian government. And, perhaps most startlingly, if not for Diefenbaker, Kennedy may have survived the bullets in Dallas.

Savage Continent Keith Lowe,2012-07-03 The Second World War might have officially ended in May 1945, but in reality it rumbled on for another ten years... The end of the Second World War in Europe is one of the twentieth century's most iconic moments. It is fondly remembered as a time when cheering crowds filled the streets, danced, drank and made love until the small hours. These images of victory and celebration are so strong in our minds that the period of anarchy and civil war that followed has been forgotten. Across Europe, landscapes had been ravaged, entire cities razed and

more than thirty million people had been killed in the war. The institutions that we now take for granted - such as the police, the media, transport, local and national government - were either entirely absent or hopelessly compromised. Crime rates were soaring, economies collapsing, and the European population was hovering on the brink of starvation. In *Savage Continent*, Keith Lowe describes a continent still racked by violence, where large sections of the population had yet to accept that the war was over. Individuals, communities and sometimes whole nations sought vengeance for the wrongs that had been done to them during the war. Germans and collaborators everywhere were rounded up, tormented and summarily executed. Concentration camps were reopened and filled with new victims who were tortured and starved. Violent anti-Semitism was reborn, sparking murders and new pogroms across Europe. Massacres were an integral part of the chaos and in some places – particularly Greece, Yugoslavia and Poland, as well as parts of Italy and France – they led to brutal civil wars. In some of the greatest acts of ethnic cleansing the world has ever seen, tens of millions were expelled from their ancestral homelands, often with the implicit blessing of the Allied authorities. *Savage Continent* is the story of post WWII Europe, in all its ugly detail, from the end of the war right up until the establishment of an uneasy stability across Europe towards the end of the 1940s. Based principally on primary sources from a dozen countries, *Savage Continent* is a frightening and thrilling chronicle of a world gone mad, the standard history of post WWII Europe for years to come.
