Bringing Finance to Pakistan's Poor Tatiana

Nenova, Cecile Thioro Niang, Anjum Ahmad, 2009-11-13

Although access to financing in Pakistan is expanding quickly, it is two to four times lower than regional benchmarks. Half of Pakistani adults, mostly women, do not engage with the financial system at all, and only 14 percent have access to formal services. Credit for small- and medium-size enterprises is rationed by the financial system. The formal microfinance sector reaches less than 2 percent of the poor, as opposed to more than 25 percent in neighboring countries. Yet it is the micro- and small businesses, along with remittances, that help families escape the poverty trap and participate in the economy. 'Bringing Finance to Pakistan's Poor' is based on a pioneering and comprehensive survey and dataset that measures the access to financial products by Pakistani households. The survey included 10,305 households in all areas of the country, excluding the tribal regions. The accompanying CD contains summary statistics. The authors develop a picture of access to and usage of financial services across the country and across different population groups, and they identify policy and regulatory priorities. Reform measures in Pakistan have been timely, but alone are not enough; financial institutions have lagged behind in adopting technology, segmenting customer bases, diversifying products, and simplifying processes and procedures. Gender bias and low levels of financial literacy

remain barriers, as is geographical remoteness. However, the single strongest cause of low financial access is lack of income not location, education, or even gender. 'Bringing Finance to Pakistan s Poor' will be of great interest to readers working in the areas of business and finance, economic policy, gender and rural development, and microfinance.

Diagnostic Parasitology for Veterinary Technicians - E-Book Charles M. Hendrix,Ed Robinson,2016-08-07

Recognize and treat the parasites seen in veterinary practice! Diagnostic Parasitology for Veterinary Technicians, 5th Edition features clear and concise discussions of the most commonly encountered internal and external parasites. Chapters are organized by parasite group — including nematodes, cestodes, trematodes, protozoans,

arthropods, and leeches — and include a detailed description of the group, with special emphasis on morphology, life cycle, and important parasites. Then in each chapter, material is conveniently organized by host species: dogs, cats, horses, ruminants, swine, birds, lab animals, fish, and reptiles. Written by noted educators Charles Hendrix and Ed Robinson, this full-color, spiral-bound book provides the knowledge that veterinary technicians need to collect samples, perform lab procedures, and communicate with clients and other members of the veterinary team. Clear, concise coverage simplifies information on the most commonly encountered internal and external parasites, preparing you for credentialing exams and the veterinary clinic. More than 470 full-color photos show exactly what ova, adult parasites, and parasitic diseases look like, so you can identify them more easily when viewing lab samples. Step-by-step guidelines in the Laboratory Procedures chapter describe how to gather samples and how to perform the laboratory techniques used in identifying parasites. Emphasis on the zoonotic potential of parasites helps you alert clients and other health care workers to the significance of zoonotic parasites and shows ways in which you can prevent transmission of a zoonotic parasite, condition, or syndrome from animals to humans. Logical chapter organization follows the sequence of parasitology classes, beginning with a basic overview of external parasites, internal parasites, and nematodes, followed by chapters that go into detail of the parasites by host species. An appendix lists the parasites of each species and shows their location in the text, making information easy to find. Heartworm section helps you recognize and treat heartworms with an in-depth discussion of the performance and interpretation of diagnostic tests for this major parasite.

Summary tables show how to categorize parasites, and include such categories as body systems affected, taxonomic grouping, host species, and location in host. Table of parasites at the front of the book is arranged by host species and includes page numbers for cross-reference throughout the book. Vet Tech Threads design makes learning easier with chapter outlines, chapter objectives, key terms, and Technician Notes in every chapter. Chapter on terminology familiarizes you with the basic language and classification scheme of parasitology for more effective communication with clients and colleagues. Flash cards on the Evolve companion website help you learn and memorize key facts about the major parasites, including audio pronunciations. Workbook/textbook format provides immediate review tools through matching exercises and questions for thought and discussion at the end of each chapter.

Banking the Poor, 2009-01-01 Banking the Poor explores level and determinants of financial access in 54 countries, mostly in Africa. It collects information from two sources: central banks and leading commercial banks in each surveyed country. It explores associations between countries' banking policies and practices and their levels of financial access, measured in terms of the numbers of bank account per thousand adults. It builds on the previous work measuring financial access through information from regulators, from banks, and also from users' perspectives in household surveys.

Irish Speakers and Schooling in the Gaeltacht, 1900 to the Present Tom O'Donoghue, Teresa O'Doherty, 2019-08-02 This book offers the first full-length study of the education of children living within the Gaeltacht, the Irish-speaking communities in Ireland, from 1900 to the present day. While Irish was once the most common language spoken in

Ireland, by 1900 the areas in which native speakers of Irish were located contracted to such an extent that they became clearly identifiable from the majority English-speaking parts. In the mid-1920s, the new Irish Free State outlined the broad parameters of the boundaries of these areas under the title of 'the Gaeltacht'. This book is concerned with the schooling of children there. The Irish Free State, from its establishment in 1922, eulogized the people of the Gaeltacht, maintaining they were pious, heroic and holders of the characteristics of an invented ancient Irish race. Simultaneously, successive governments did very little to try to regenerate the Gaeltacht or to ensure Gaeltacht children would enjoy equality of education opportunity. Furthermore, children in the Gaeltacht had to follow the same primary school curriculum as was prescribed for the majority English speaking population. The central theme elaborated on throughout the book is that this schooling was one of a number of forces that served to maintain the people of the Gaeltacht in a marginalized position in Irish society.
