**Comparison between Internet Fax Services** Dr. Hidaia Mahmood Alassouli, 2021-04-18 Internet faxing uses the same principles as facsimile transmission, but it uses a Web interface instead of a fax machine. It can be a flexible, inexpensive option for transmitting documents. Internet fax services usually assign a fax number to each person who signs up for the service. people can send faxes to this number, and customers can send faxes via e-mail without using a fax machine. To send a fax through an Internet fax service:

- The sender attaches a document to an e-mail message. The document can be a scan of a paper document, or it can be created in a program like Microsoft Word.
- The sender addresses the message to the recipient's fax number, followed by the name of the faxing service (for example: 18005551234@emailfaxes.com).
- The service translates the attachment so that a fax machine can read it.
- The service sends the data across the phone line.
- The recipient's fax machine decodes the data and prints the fax.

To receive a document from a traditional fax machine through an Internet fax service:

- The sender dials the fax number that the service has assigned to the recipient.
- The fax machine translates the data and transmits it over the phone line.
- The service receives the data, translates it into an image file and sends the image to the recipient's e-mail address.
- The recipient opens the em-ail message and the attachment and views the file.

As getting cheap internet fax service is important, I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card. Unfortunately, I could not find cheap fax service for international destination. All internet fax services offer only cheap services to the free zones countries such as usa and Canada. I could not find cheap service to international destinations. Maybe the best of my search for faxing to international destination was FAX.PLUS that allows also paypal. But when I tried to subscribe to basic plane using paypal, paypal asked me to give them permission to access my registered credit card, and I refused that and so I could not subscribe. I will divide web sites that I had look to their internet fax services in the following groups

1-Part1: Websites that accepts paypal payments and supports faxing to international countries. Some of these are:

- Gotfreefax · fax.to · Faxfresh · PamFax.biz · Faxzero · FAX.PLUS

2-Part2: Websites that accepts only credit/debit card payments and supports faxing to international countries

- Hellofax · J2 global services vendors. It includes Metrofax, myfax, smartfax, efax, trustfax, rapidfax and fax.com

3-Part3: Websites that supports faxing to usa and Canada only

- Nextiva · FAXAGE · FAXBetter

In this report, I will compare the internet fax services according to the cost for sending fax to United Arab Emirate. I will assume that I have three pages to be sent to any fax number in UAE.

Ocean Passages and Landfalls Andy O'Grady,Rod Heikell , 'This cruising guide for ocean voyagers provides invaluable passage-planning information for tried and tested routes around the world. Climates and weather patterns, currents, seasons and timings are key to selecting routes, but just as important is knowing something about the countries that you will arrive in. Details of the expected formalities and regulations are followed by essential information on key landfalls, accompanied by the first-hand observations of well-known world sailors and authors Rod Heikell and Andy O'Grady. Text and plans have been updated for this third edition which is illustrated with a number of new photographs to inspire both dreamers and passagemakers. "I have recently been planning a voyage from Trinidad to New Zealand using Ocean Passages and Landfalls by Rod Heikell and Andy O'Grady. The book has been an exceptional resource. The mass of information on a wealth of subjects is excellent. The layout is beautifully put together and very accessible. The pilotage and chartlets will be invaluable. The book will certainly be travelling with me and I cannot recommend it highly enough to anybody who is planning ocean voyaging." Theresa

Kewell, S/Y Mr Blue ‘This is a ‘blue planet’ book. Its scope is awe-inspiring as it takes an overview of the globe as the yachtsman’s potential cruising ground... It is of course possible to glean all the macro information from scientific geophysical sources, but the personality and experience of the authors adds an indispensable ingredient.’ Yachting Monthly
