Rhino Dreams Carolyn Waggoner,Kathryn Williams,2022-04-19 Clare Rainbow-Dashell, the only child of delightfully eccentric, wealthy hippies, has just taken a hiatus from her career as an acclaimed wildlife photographer and returned to California to pursue her academic dreams when a disastrous affair with a professor catapults her to another continent: Africa. There, she immerses herself in well-paid commercial work for a luxury safari lodge as she seeks to regain her emotional and financial self-reliance. All this, however, is complicated by her relationship with her charismatic, imperious employer and her undeniable attraction to a leading black rhino specialist—two men who are at war over both environmental politics and Clare herself. Set against the formidable backdrop of the Namib Desert, Rhino Dreams dramatizes the crisis of endangered species preservation and the horrors of poaching, interweaving this very real ecological darkness with the internal and external battles of three characters driven by fierce passions and divided notions of duty, ambition, and desire. It is a sometimes humorous, sometimes poignant ride—and, in the end, a testimony to how tenuous and precious both life and love can be.

Origins Eric Partridge,2006-05-23 This etymological dictionary gives the origins of some 20,000 items from the modern English vocabulary, discussing them in groups that make clear the connections between words derived by a variety of routes from originally common stock. As well as giving the answers to questions about the derivation of individual words, it is a fascinating book to browse through, and includes extensive lists of prefixes, suffixes, and elements used in the creation of new vocabulary.

No Mission Is Impossible Michael Bar-Zohar,Nissim Mishal,2015-10-06 A riveting follow-up to Michael Bar-Zohar and Nissim Mishal’s account of the most memorable missions of the Mossad, No Mission Is Impossible sheds light on some of the most harrowing, nail-biting operations of the Israeli Special Forces. In No Mission Is Impossible, Michael Bar-Zohar and Nissim Mishal depict in electrifying detail major battles, raids in enemy territory, and the death-defying commando missions of the Israeli Special Forces. The stories are often of victories, but sometimes also of immense failures, and they run side by side with the accounts of the lives and accomplishments of some of Israel’s most prominent figures. Captivating and eye-opening, No Mission Is Impossible is essential reading for anyone interested in understanding how these crucial missions shaped Israel, and the world at large.

Dark Commerce Louise I. Shelley,2020-11-10 Though mankind has traded tangible goods for millennia, recent technology has changed the fundamentals of trade, in both legitimate and illegal economies. In the past three decades, the most advanced forms of illicit trade have broken with all historical precedents and, as Dark Commerce shows, now operate as if on steroids, tied to computers and social media. In this new world of illicit commerce, which benefits states and diverse participants, trade is impersonal and anonymized, and vast profits are made in short periods with limited accountability to sellers, intermediaries, and purchasers. Louise Shelley examines how new technology, communications, and globalization fuel the exponential growth of dangerous forms of illegal trade--the markets for narcotics and child pornography online, the escalation of sex trafficking through web advertisements, and the sale of endangered species for which revenues total in the hundreds of millions of dollars. The illicit economy exacerbates many of the world's destabilizing phenomena: the perpetuation of conflicts, the proliferation of arms and weapons of mass destruction, and environmental degradation and extinction. Shelley explores illicit trade in tangible goods--drugs, human beings, arms, wildlife and timber, fish, antiquities, and ubiquitous counterfeits--and contrasts this with the damaging trade in cyberspace, where intangible commodities cost consumers and organizations billions as they lose identities, bank accounts, access to computer data, and intellectual property.

Passport Stamps: Searching the World for a War to Call Home Sean D. Carberry,2023-08-15 A candid, darkly comic, and emotionally naked tale of a former NPR journalist who—driven by grief, loss, and the desire to find his “tribe”—seeks solace in the world’s most dangerous places and his pursuit to join the ranks of combat-tested war correspondents. The learning curve of reporting in hostile environments is steep and at times comical, at others nearly fatal. He encounters a lot of dust, ragged infrastructure, weaponry, scary driving, whiskey, lust, and way too much food poisoning. When the assignment ends, he is left to confront the mental and emotional impact of the years of danger, death, and destruction.

Somewhere East of Eden Michael McKeown,2017-11-07 From the author of Half Way Down an African Moon comes an evocative account of random journeys undertaken in Africa over the last thirty years. Written at a time when the natural world everywhere is being heedlessly plundered and exploited as never before, these recollections – impassioned, comic, ironic and critical by turn – are a reminder that in everything but multi-national corporate cupidity, the damage may well be irreparable. Whether drifting in a fishing boat among lurking pods of unpredictable hippos down the Zambezi, tracing the demise of the hapless Dodo in Mauritius, trekking for lowland gorillas in the rainforests of south-east Nigeria in the company of a wryly erudite local parks ranger, or pondering the Stone Age mind-set of wealthy trophy hunters, the author's exhilaration for wildlife and nature glows through the prism of a gradually darkening lens. The current state of our natural world may look bleak but giving up on it, as he reminds us, is not an option.

Running with Rhinos Ed Warner,2016-03-01 “Running with rhinos” is not a euphemism—not when you’re ground support for the International Rhino Foundation’s Rhino Conservancy Project. Edward M. Warner, a self-proclaimed radical conservationist, presents his outrageous adventures from more than a decade of collaboration with the veterinarians and biologists who care for endangered rhinos in Africa. Few if any laymen like Warner have been invited to do what amounts to some of the most dangerous volunteer fieldwork around. Fewer than five thousand black rhinos remain in the wilds of sub-Saharan Africa. About five hundred live on private conservancies in Zimbabwe. For Warner, working on the frontlines of rhino conservation not only allowed him to help rhinos, it gave him the opportunity to pursue and refine his emerging philosophy of radical conservationism, to cultivate partnerships between local communities and private landowners in Africa, and to export the lessons about land and wildlife management back home to the United States. In *Running with Rhinos: Stories from a Radical Conservationist*, Warner takes readers along as he weasels his way into becoming volunteer ground support for the International Rhino Foundation’s Rhino Conservancy Project, or “Rhino Ops,” in Zimbabwe. It is gritty, sweaty, sometimes scary, and exhilarating work. Warner succeeds in telling a remarkable story of the extraordinary bonds between humans—and their dedication to protecting endangered animals—all while weaving eye-opening stories about the flora, fauna, geology, geography, and politics of sub-Saharan Africa.

FAITH A Secret Life Chub Yublinsky,2011-11-11 Josh Miller, 18 years old, sits in a packed courtroom, accused of the rape and murder of his high-school girlfriend, Faith. The novel, written in first person, recounts the dramatic saga of the last two years from Josh's point of view. Time is layered, events are staggered, so we see the action from one character's many different perspectives. Sometimes Josh describes extraneous events, sometimes he turns to internal monologue. As a consequence of the novel's structure, the reader lives the tension between the protagonist as an adolescent and as a man, both in his real physical existence and in his thoughts. Traditional coming-of-age themes are sharpened by Josh's ability to look back at them from the perspective of a kid forced prematurely into adulthood.So much for general remarks. Within the first few pages, both the reader and Josh realize that the evidence convincingly implicates Josh. Obviously, we know that the heroine is dead; what we don't know is why though the prosecution's first witness would seem to have told us. We next find ourselves in the months before Josh and Faith meet. Josh's high school in an affluent Midwestern suburb is preparing to institute a pilot program for gifted kids taught by professors from a nearby university. Parental money talks, a room is transformed into an ideal setting for education, the students surprise everyone, including themselves, by their passionate interest in subjects and ideas that would seem to constitute a formula for adolescent boredom.It is into this class of exuberant, sometimes troubled, always brilliant young people that Faith Hansen walks, a new girl from Philadelphia whose credentials are off the chart. Josh is not interested in those credentials. Faith would seem to be the perfect girl, as sexy as she is smart, endowed with seductive charm and a sense of humor that won't quit. Though such things do not happen in his world, Josh and Faith soon hook up intimately. Their relationship, like Faith herself, seems perfect: it is tender, sincere, profound. The two stake out their private world, an abandoned quarry deep in the woods whose only tie to civilization is a defunct narrow-gauge rail line. Josh builds them a place to be alone; the quarry provides steep walls for rock climbing and a promontory for summer diving. Much of the action of the novel takes place in and around this idyllic setting. There is of course the school, the courthouse, the occasional road trip.Josh's emotions as an adolescent painfully in love are paralleled by his later struggle with Faith's absence not to mention officialdom's apparent decision that he is the cause. These emotions peak shortly before Faith's death, and again as the trial nears its conclusion. What happened to Faith is revealed in shocking fashion at the end of Part II; what happened to Josh must await the denouement of the story. I'm not going to describe these events here: knowing them will make the novel an entirely different read
