**Comparison between Internet Fax Services** Dr. Hidaia Mahmood Alassouli,2021-04-18 Internet faxing uses the same principles as facsimile transmission, but it uses a Web interface instead of a fax machine. It can be a flexible, inexpensive option for transmitting documents. Internet fax services usually assign a fax number to each person who signs up for the service. people can send faxes to this number, and customers can send faxes via e-mail without using a fax machine. To send a fax through an Internet fax service: • The sender attaches a document to an e-mail message. The document can be a scan of a paper document, or it can be created in a program like Microsoft Word. • The sender addresses the message to the recipient's fax number, followed by the name of the faxing service (for example: 18005551234@emailfaxes.com). • The service translates the attachment so that a fax machine can read it. • The service sends the data across the phone line. • The recipient's fax machine decodes the data and prints the fax. To receive a document from a traditional fax machine through an Internet fax service: • The sender dials the fax number that the service has assigned to the recipient. • The fax machine translates the data and transmits it over the phone line. • The service receives the data, translates it into an image file and sends the image to the recipient's e-mail address. • The recipient opens the em-ail message and the attachment and views the file. As getting cheap internet fax service is important, I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card. Unfortunately, I could not find cheap fax service for international destination. All internet fax services offer only cheap services to the free zones countries such as usa and Canada. I could not find cheap service to international destinations. Maybe the best of my search for faxing to international destination was FAX.PLUS that allows also paypal. But when I tried to subscribe to basic plane using paypal, paypal asked me to give them permission to access my registered credit card, and I refused that and so I could not subscribe. I will divide web sites that I had look to their internet fax services in the following groups 1-Part1: Websites that accepts paypal payments and supports faxing to international countries. Some of these are: · Gotfreefax · fax.to · Faxfresh · PamFax.biz · Faxzero · FAX.PLUS 2-Part2: Websites that accepts only credit/debit card payments and supports faxing to international countries · Hellofax · J2 global services vendors. It includes Metrofax, myfax, smartfax, efax, trustfax, rapidfax and fax.com 3-Part3: Websites that supports faxing to usa and Canada only • Nextiva • FAXAGE • FAXBetter In this report, I will compare the internet fax services according to the cost for sending fax to United Arab Emirate. I will assume that I have three pages to be sent to any fax number in UAE.
