“Memoirs” of a Vietnam Veterans Son Inolin

Reyes,Martha Reyes,2016-06-30 My name is Inolin Reyes Jr. I grew up as the only child in the household of the son of a Vietnam veteran. And grandson of grandparents from both sides of the family that fled Puerto Rico in the 1950s from a race war uprising to gain control of the common wealth island. I am a first-time author, and this memoir is my testimony of my family's trials and tribulations, leading up to the day I was born. My trials and tribulations are shared through my writing, sound mind, body and soul. The events that have unfolded on this book are from my own words and facing death face-to-face. I lived to talk about it till this very day! Praise my Lord and Savior, Jesus Christ of Nazareth.

Intelligent Interactive Multimedia Systems and Services

G.A. Tsihrantzis,M. Virvou,T. Watanabe,2013-06-07 At a time

when computers are more widespread than ever, intelligent interactive systems have become a necessity. The term 'multimedia systems' refers to the coordinated storage, processing, transmission and retrieval of multiple forms of information, such as audio, image, video, animation, graphics and text. The growth of multimedia services has been exponential, as technological progress keeps up with the consumer's need for content. The solution of 'one fits all' is no longer appropriate for the wide ranges of users with various backgrounds and needs, so one important goal of many intelligent interactive systems is dynamic personalization and adaptivity to users. This book presents 37 papers summarizing the work and new research results presented at the 6th International Conference on Intelligent Interactive Multimedia Systems and Services (KES-

IIMSS2013), held in Sesimbra, Portugal, in June 2013. The conference series focuses on research in the fields of intelligent interactive multimedia systems and services and provides an internationally respected forum for scientific research in related technologies and applications.

Piracy Cultures Manuel Castells, Gustavo Cardoso
EDS, 2013-02-25 Piracy Cultures Editorial Introduction MANUEL CASTELLS 1 University of Southern California GUSTAVO CARDOSO Lisbon University Institute (ISCTE-IUL) What are Piracy Cultures? Usually, we look at media consumption starting from a media industry definition. We look at TV, radio, newspapers, games, Internet, and media content in general, all departing from the idea that the access to such content is made available through the payment of a license fee or subscription, or simply because its either paid or available for free (being supported by advertisements or under a freemium business model). That is, we look at content and the way people interact with it within a given system of thought that sees content and its distribution channels as the product of relationships between media companies, organizations, and individuals effectively, a commercial relationship of a contractual kind, with accordant rights and obligations. But what if, for a moment, we turned our attention to the empirical evidence of media consumption practice, not just in Asia, Africa, and South America, but also all over Europe and North America? All over the world, we are witnessing a growing number of people building media relationships outside those institutionalized sets of rules. We do not intend to discuss whether we are dealing with legal or illegal practices; our launching point for this analysis is that, when a very significant proportion of the population is building its mediation through alternative channels of obtaining content, such behavior should be studied in order to deepen our knowledge of media cultures. Because we need a title to characterize those cultures in all their diversity but at the same time, in their

commonplacenesswe propose to call it Piracy Cultures.

The Welfare of Performing Animals David A. H.

Wilson,2015-02-20 This timely book describes and analyses a neglected area of the history of concern for animal welfare, discussing the ends and means of the capture, transport, housing and training of performing animals, as well as the role of pressure groups, politics, the press and vested interests. It examines primary source material of considerable interdisciplinary interest, and addresses the influence of scientific and veterinary opinion and the effectiveness of proposals for supervisory legislation, noting the current international status and characteristics of present-day practice within the commercial sector. Animal performance has a long history, and at the beginning of the twentieth century this aspect of popular entertainment became the subject not just of a major public controversy but also of prolonged British parliamentary attention to animal welfare. Following an assessment of the use of trained animals in the more distant historical past, the book charts the emergence of criticism and analyses the arguments and evidence used by the opponents and proponents in Britain from the early twentieth century to the present, noting comparable events in the United States and elsewhere.

Tiger Stadium Michael Betzold,,John Davids,Bill

Dow,2018-04-04 Built in 1912, Detroit's Tiger Stadium provided unmatched access for generations of baseball fans. Based on a classic grandstand design, its development through the 20th century reflected the booming industrial city around it. Emphasizing utility over adornment and offering more fans affordable seats near the field than any other venue in sports, it was in every sense a working-class ballpark that made the game the central focus. Drawing on the perspectives of historians, architects, fans and players, the authors describe how Tiger Stadium grew and adapted and then, despite the efforts of fans,

was abandoned and destroyed. It is a story of corporate welfare, politics and indifference to history pitted against an enduring love of place. Chronological diagrams illustrate the evolution of the playing field.

Golf Dads Curt Sampson, 2008 The interplay between fathers and sons has long been one of golf's most essential and enigmatic relationships. In *Golf Dads*, the best-selling writer and former touring professional Curt Sampson brings to life ten remarkable stories of golfers, their fathers, and the game that brings them together. The stories feature well-known subjects such as Michelle Wie, Ben Hogan, Lee Trevino, and David Feherty, as well as some surprises, such as six-year-old phenom A.J. Beechler--not yet known to the world. "This is a book about fathers," Sampson writes, "using golf as a wedge to pry open a few insights." We get up close with the embarrassing Byung Wook Wie and his talented daughter at a PGA Tour event in Pennsylvania; travel to the Mexican jungle for bogeys and butterflies with a club pro bearing his father's ashes in a black Hogan shag bag; journey to San Francisco for transplant surgery for a golf pro father from his golf pro son; feel the wonder and weight of fathering a six-year-old golfing sensation whose future is too bright to see clearly. For fans of James Dodson's *Final Rounds*, *Golf Dads* is sure to resonate with anyone who has been handed a worn club by his father or who has watched his child swing a stick at a rock and marveled at the possibilities.

Karpal Singh, Tiger of Jelutong: The Full Biography Tim Donoghue, 2014-07-15 Karpal Singh is widely regarded as Malaysia's best criminal and constitutional lawyer. His sudden death on 17 April 2014 in a horrific car accident – just a month after he was convicted of sedition in the High Court – shocked and saddened Malaysians to the core and left a deep void in the country's legal and political landscape. Karpal was a fearless advocate for justice and a defender of human rights in South East Asia, and has appeared in the Privy Council in London on a number of occasions before such appeals were abandoned by Malaysia. He is renowned for his defence of many people from many nations who have faced the death penalty under Malaysia's Dangerous Drugs Act. In recent years, one of his biggest achievements was his successful defence of former Deputy Prime Minister Anwar Ibrahim on two charges of sodomy in 2012. On the night he died, Karpal was still fighting for Anwar, who had been convicted once again of sodomy, and seeking to reassure him. He told the Opposition leader in a telephone call he would do his best in the prosecution's 'fast-tracked' Federal Court of

Appeal. Indeed Karpal had Anwar's files with him in his vehicle when the fateful crash occurred. In this revised and updated edition, veteran journalist Tim Donoghue completes the biography of Malaysia's tenacious and principled lawyer-politician
