5 Langkah Basmi Virus Berbahaya ,

3 Langkah Jitu Hajar dan Memusnahkan Virus ,

3 LANGKAH JITU HAJAR DAN MUSNAHKAN VIRUS! Jubilee Enterprise,2013-05-01 Virus selalu datang tak diundang. Namun, sekali virus menyusup ke sistem komputer kita, nyawa kita (file gambar, dokumen, film, foto, database, dan lain sebagainya) berada dalam bahaya. Oleh karena itu, untuk menuntaskan serangan virus, Anda membutuhkan paling tidak 3 langkah jitu: Menumpas-Memunculkan File-Membuat Cadangan. Langkah #1 adalah Menumpas. Tumpas virus-virus yang berusaha masuk sebelum virus itu membuat kekacauan dalam hidup dan pekerjaan. Blokir segala jalan masuk di mana virus bisa menerobos. Tidak perlu menyewa konsultan keamanan, cukup pasang antivirus gratisan yang dijelaskan dalam buku ini. Langkah #2 adalah Memunculkan File (Restorasi File). Jika virus sudah menghajar, data yang sudah kita buat bertahun-tahun lamanya akan terancam musnah. Jika sudah musnah, janganlah langsung patah seManga, Manhua & Manhwat. Munculkan kembali file-file itu seperti sediakala. Tidak perlu mengundang pakar IT, cukup gunakan software gratisan seperti terulas dalam buku ini. Langkah #3 adalah Membuat Cadangan (Backup). Cegah sebelum terjadi serangan. Amankan seluruh file yang ada di komputer Anda dan simpanlah file-file cadangan itu di tempat yang terlindungi. Anda bisa gunakan fasilitas penyimpanan online yang gratis jika mau. Lebih aman dan bisa terakses di mana pun. Sebagian besar software (90%) di dalam buku ini bersifat gratis. Jadi, Anda tetap terlindungi walaupun tanpa harus mengeluarkan uang tambahan.

Management Science Featuring Micro-Macro Economics and Management of Information Technology W.Y. Dornyo,2020-10-09 This book is one of a series of various doctoral research project papers and has been further refined and converted into a book. The book has been deemed one of further versions of management science that are to come. These further versions focus more on information technology and its effects as agile tools for management, including software engineering, algorithms and data structures, computer architecture and electronics, systems science, artificial intelligence and robotics, quantum science, statistics, and web-internet and multimedia design and building. Managers are usually multifaceted with multiple disciplines even though they have one or two areas as majors, specialties, or experience. It is in the light of this that Management Science Featuring Micro-Macro Economics and Management of Information Technology was designed in this context to contain economics with IT as a course of study. In the future, further versions will be pure courses instead of combinations. The world has changed gear for the better due to the advanced mysteries of information technology innovations so that we could even conduct scientific laboratory experiments, medical diagnoses, and rule of law adjudications online. That means we could not forget information technology as one major tool in hand that should be a pivot on and around which all other areas in management should dwell and revolve, and this was one of the sole reasons of this book. It is therefore worthy of note for readers aspiring as systems analysts, managers, and professionals to accustom themselves to the subject areas in the book to instill understanding of numerous important terms and points in economics and IT. This will help to build further courage and understanding toward advancement in these fields. All topics indicated in the table of contents have been made reader friendly and treated to focus easy understanding. We highly acknowledge all the intellectual materials used.

Mobile Marketing Management Hongbing Hua,2019-03-18 With the development of mobile internet technology, people's lifestyle and consumer behavior are changing rapidly. Nowadays, the products on the market are updating more and more frequently, and the traditional marketing theory and brand theory fail to get with the mobile internet. So, what's the innovative marketing to take in the new era? Since 2012, China has entered into the mobile era, and became a major country of mobile internet application. The book summarizes the experience of the author accumulated from many trials and errors in management and marketing innovation, so as to form the pattern of management and marketing for the next 30 years. Mobile Marketing Management lays the foundation for the new era with four pillars: service, substance, superuser, space, known as 4S theory for short. In view of the concept of customer-first, it is all about service, and products become productized service concepts. In view of the failure of mass communication, the competition among all services becomes the competition of substance differentiation. Regarding the popularity of self-organization, it becomes a trend to cooperate with people rather than the company to develop the market. In view of the principle of fuzzy market boundary, the enterprises shall optimize their living space and evolve their development space. This book contains numerous case studies along with analysis and creates the discipline of mobile marketing management, providing innovative theories, methods and tools for the marketing of enterprises. Through this book, readers can master the marketing methods of the mobile internet era. They can apply the marketing theory in this book to guide the marketing practice, thus improving marketing efficiency and reducing marketing costs.

The Principle of Profit Models Guiping Lin,Wei Wei,Wuxiang Zhu,2015-01-16 This book mainly focuses on defining profit models, on how many main kinds of profit models there are, how profit models can change a company, and how to tailor a profit model to the needs of a certain company. In this context, profit models are classified as fixed-income, remaining-profit and profit-sharing, admission, toll, parking, fuel and sharing fees, profit sources, customer pricing, auction, combined pricing, etc. The logic behind all these profit models will be analyzed in detail and numerous micro-cases will be introduced. All of the micro-cases discussed are the best profit model practices used by outstanding enterprises, mainly from China and the USA (including HomeAway, Priceline, Tencent, Sina, Google, the Voice of China, CSPN and so on). These models will be complemented by a wealth of figures and additional tools to help readers better understand the principle of profit models. As such, the book not only explains "why" entrepreneurs preferred to apply a specific kind of profit model and not others, but also answers "how" they derived that model.
